NEW ISSUE – FULL BOOK ENTRY

RATINGS: S&P: "AA" Fitch: "AA" (See "RATINGS")

Due: As set forth on the inside cover

In the opinion of Kutak Rock LLP, Bond Counsel, assuming continuing compliance with certain requirements described herein, under laws, regulations, rulings and judicial decisions existing as of the date hereof, interest on the 2013 Bonds is not includable in gross income for federal income tax purposes. Such interest is also exempt from all present State of Nebraska personal income taxes. In the opinion of Bond Counsel, interest on the 2013 Bonds does not constitute an item of tax preference for purposes of determining the federal alternative minimum tax for individuals and corporations. See "TAX MATTERS" herein for a discussion of additional federal and State of Nebraska tax law considerations.

THE CITY OF LINCOLN, NEBRASKA

\$75,525,000 Lincoln Electric System Revenue and Refunding Bonds Series 2013

Dated: Date of delivery (June 20, 2013)

The Series 2013 Bonds (collectively, the "2013 Bonds") are issuable as fully registered securities and, when initially issued, will be registered in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"), New York, New York. DTC will act as securities depository for the 2013 Bonds. Purchases of beneficial ownership interests in the 2013 Bonds will be made in book-entry form only, in \$5,000 principal amounts or integral multiples thereof. Beneficial Owners of the 2013 Bonds will not receive physical delivery of bond certificates evidencing their ownership interest in the 2013 Bonds so long as DTC or a successor securities depository acts as the securities depository with respect to the 2013 Bonds. So long as DTC or its nominee is the registered owner of the 2013 Bonds, payments of the principal, or redemption price of, and interest on the 2013 Bonds will be made directly to DTC. Disbursements of such payments to DTC Participants are the responsibility of DTC and disbursements of such payments to Beneficial Owners is the responsibility of DTC Participants. See "DESCRIPTION OF THE 2013 BONDS—Book-Entry System" herein. Union Bank and Trust Company is Registrar and Paying Agent for the 2013 Bonds under the Ordinance.

The 2013 Bonds will be dated their date of issue. The 2013 Bonds will bear interest at the rates shown on the inside cover, payable each March 1 and September 1, commencing on September 1, 2013.

Certain of the 2013 Bonds are subject to optional and mandatory redemption prior to maturity as more fully described herein.

The obligation of the City to pay the principal or redemption price of and interest on the 2013 Bonds is a limited obligation of the City, payable exclusively from and secured by a pledge of the Revenues of the Lincoln Electric System, all as more fully described herein. See "SECURITY FOR THE 2013 BONDS" herein.

The 2013 Bonds shall not be obligations of the State of Nebraska or any of its political subdivisions, other than the City, and neither the faith and credit nor the taxing power of the State of Nebraska or any political subdivision thereof, including the City, is pledged for the payment of the 2013 Bonds.

MATURITIES, AMOUNTS, RATES AND PRICES OR YIELD - See Inside Cover

The 2013 Bonds are offered when, as and if issued and received by the Underwriters, subject to the approval of legality by Kutak Rock LLP, Omaha, Nebraska, Bond Counsel. Certain legal matters will be passed on for the City by the Lincoln City Attorney, for the Lincoln Electric System by its General Counsel, and for the Underwriters by Nixon Peabody LLP, Counsel to the Underwriters. Public Financial Management is serving as Financial Advisor to the Lincoln Electric System in connection with the issuance of the 2013 Bonds. It is expected that the 2013 Bonds will be available for delivery to DTC in New York, New York on or about June 20, 2013.

REGARDING USE OF THIS OFFICIAL STATEMENT

AUTHORIZED INFORMATION AND REPRESENTATIONS

No dealer, broker, sales representative or other person has been authorized by the City of Lincoln, Nebraska (the "City"), the Lincoln Electric System ("LES") or the Underwriters to give any information or to make any representations, other than those contained in this Official Statement; and, if given or made, such other information or representations must not be relied upon as having been authorized by any of the foregoing. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the Series 2013 Bonds by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale. This Official Statement is not to be construed as a contract with the purchasers of the 2013 Bonds. The information set forth herein has been obtained from the City, LES and other sources that are believed to be reliable, but is not guaranteed as to accuracy or completeness by, and is not to be construed as a representation by, the Underwriters. The Underwriters have provided the following sentence for inclusion in this Official Statement: "The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information." The information and expressions of opinion herein are subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstance, create any implication that there has been no change in the affairs of the City or LES since the date hereof.

REGISTRATION EXEMPTION

The Series 2013 Bonds have not been registered with the United States Securities and Exchange Commission under the Securities Act of 1933, as amended, in reliance upon an exemption therefrom. In making an investment decision, investors must rely upon their own examination of the City or LES, the facilities and services, and the terms of the offering, including the merits and risks involved. No federal or state securities commission or regulatory authority has recommended the Series 2013 Bonds. Moreover, none of the foregoing authorities has confirmed the accuracy or determined the adequacy of this Official Statement. Any representation to the contrary is a criminal offense.

FORWARD-LOOKING STATEMENTS

Certain statements included or incorporated by reference in this Official Statement constitute "forward-looking statements" within the meaning of the federal securities laws, including statements regarding, among other things, anticipated trends, future liquidity requirements and capital resources. When used in this Official Statement, the words "project," "estimate," "intend," "expect," "anticipate," "plan" and similar expressions are intended to identify forward-looking statements. These forward-looking statements are based largely on LES's expectations and are subject to a number of risks and uncertainties, certain of which are beyond the control of the City and LES. Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in such forward-looking statements. Prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The forward-looking statements have neither been reviewed nor reported on by any third party. Neither LES, nor any other party plans to issue any updates or revisions to those forward-looking statements if or when the expectations, or events, conditions or circumstances upon which such statements are based occur.

OFFICIAL STATEMENT

THE CITY OF LINCOLN, NEBRASKA

\$75,525,000 Lincoln Electric System Revenue and Refunding Bonds Series 2013

INTRODUCTION

This Official Statement (which includes the cover page hereof and the Appendices attached hereto) is furnished by The City of Lincoln, Nebraska (the "City"), a municipal corporation existing pursuant to its home rule charter (the "Charter") and under the laws of the State of Nebraska (the "State"), to provide information concerning: (a) the City; (b) the City's electric system (which is hereinafter referred to as the "Lincoln Electric System," "LES" or the "System" and which is defined in the General Ordinance described below to include all property and assets of the City used for or pertaining to the generation, transmission, distribution and sale of electric power and energy); and (c) the City's \$75,525,000 aggregate principal amount of Lincoln Electric System Revenue and Refunding Bonds, Series 2013 (the "2013 Bonds").

The 2013 Bonds are being issued pursuant to Sections 15-244 and 18-1803 to 18-1805, inclusive, Reissue Revised Statutes of Nebraska, as amended, and Article IX, Section 44 of the Charter, and a basic bond ordinance passed by the Lincoln City Council ("Council") on July 23, 2001 (Ordinance No. 17879, the "General Ordinance"), as supplemented by a series ordinance passed by Council on March 12, 2012 (Ordinance No. 19683, the "2012 Ordinance"). The General Ordinance as amended and supplemented from time to time, including, but not limited to, the 2012 Ordinance, is herein referred to as the "Ordinance." Capitalized terms used herein, which are not otherwise defined, shall have the respective definitions set forth in the Ordinance. See "APPENDIX C: SUMMARY OF CERTAIN PROVISIONS OF THE ORDINANCE—Definitions."

The City will, following the closing and issuance of the 2013 Bonds, have the following parity bonds (in addition to the 2013 Bonds) outstanding under the Ordinance (the "Outstanding Bonds"): (a) \$10,330,000 aggregate principal amount of its Lincoln Electric System Revenue and Refunding Bonds, Series 2003 (the "2003 Bonds"), (b) \$100,595,000 aggregate principal amount Lincoln Electric System Revenue Bonds, Series 2007A (the "2007A Bonds"), (c) \$149,540,000 aggregate principal amount Lincoln Electric System Revenue Refunding Bonds, Series 2007B (the "2007B Bonds" and, collectively, with the 2007A Bonds, the "2007 Bonds") and (d) \$277,315,000 aggregate principal amount Lincoln Electric System Revenue Refunding Bonds, Series 2012 (the "2012 Bonds"). The Series 2013 Bonds will be issued on a parity with the Outstanding Bonds under the Ordinance.

The Ordinance provides for the issuance by the City from time to time of Lincoln Electric System Revenue Bonds (including bonds, notes or other obligations or other evidences of indebtedness, as the case may be, as provided in the Ordinance, the "Bonds") (a) to finance properties and assets, and interests in properties and assets, real and personal and tangible and intangible (i) for the generation, transmission, distribution and sale of electric power and energy or (ii) such other activities and transactions as the LES Administrative Board (the "Board") and the City shall from time to time determine and (b) to refund outstanding bonds issued under the Ordinance. Pursuant to the Ordinance, the Bonds are payable from and secured by a pledge of the revenues of LES and certain other moneys as described herein, subject to a prior charge on such revenues for the costs of operation and maintenance of LES, including all

administration expenses, variable costs of operation and maintenance incurred for power supply facilities (including LES' ownership interest in electric plants and properties co-owned with others), variable costs associated with power purchase contracts and, in certain circumstances, fixed power supply costs of LES. Additional Bonds or Parity Obligations (as defined in the Ordinance and which, except as provided in the Ordinance, will be on a parity with the 2013 Bonds) may be issued from time to time upon the approval of the Mayor and City Council under the terms and conditions set forth in the Ordinance. The 2003 Bonds, 2007A Bonds, 2007B Bonds and 2012 Bonds, together with the 2013 Bonds and any Additional Bonds hereafter issued by the City pursuant to the Ordinance, are collectively referred to as the "Bonds."

This Official Statement includes summaries of the terms of the 2013 Bonds, the Ordinance and certain contracts and other arrangements relating to LES. The summaries of and references to all documents, reports and other instruments referred to herein do not purport to be complete, comprehensive or definitive and each such summary and reference is qualified in its entirety by references to each such document, report or instrument, copies of which may be obtained, upon request, from Lincoln Electric System, 1040 "O" Street, Lincoln, Nebraska 68508, Attention: Chief Financial Officer. Email inquiries should be addressed to lkapustka@les.com, or call 402-475-4211.

DESCRIPTION OF PROJECT

The proceeds of the 2013 Bonds will be used to fund the refunding plan described below, to fund a deposit into the 2013 Debt Service Reserve Fund and pay certain costs and expenses relating to the issuance of the 2013 Bonds.

REFUNDING PLAN

A portion of the proceeds of the 2013 Bonds, together with other available funds, will be used for the payment and redemption of \$53,710,000 principal amount (100% of the outstanding principal amount) of LES' outstanding Lincoln Electric System Revenue Bonds, Series 2005 (the "2005 Bonds" or the "Refunded Bonds") and \$24,000,000 principal amount of LES' outstanding Commercial Paper Notes.

On the date of issuance of the 2013 Bonds, a portion of the net proceeds thereof, together with certain other funds of the City, will be deposited into an escrow account (the "Escrow Account") to be held under an Escrow Agreement, dated as of the date of issue of the 2013 Bonds (the "Escrow Agreement") between the City and Union Bank and Trust Company (the "Escrow Agent"). Such deposit will be used to purchase on such date of issuance direct obligations of the United States of America (the "Government Securities") which will be held in the Escrow Account. The Government Securities will mature on such dates and in such amounts as shall provide funds which, together with other funds in the Escrow Account, will be sufficient to pay when due the maturing principal of and interest on the Refunded Bonds through their respective redemption dates and to redeem on the respective redemption dates all of the then outstanding Refunded Bonds. The maturities of the 2005 Bonds to be refunded with 2013 Bond proceeds will be called for redemption on September 1, 2015 at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest thereon through the redemption date. Upon funding of the escrow and delivery of irrevocable instructions to the paying agent for the 2005 Bonds to call the 2005 Bonds for redemption, the 2005 Bonds will be defeased and no longer be outstanding under or secured by the General Ordinance.

ESTIMATED SOURCES AND USES OF FUNDS

The following table sets forth the estimated sources and uses of funds in connection with the issuance of the 2013 Bonds. Accrued interest, if any, received upon the delivery of the 2013 Bonds will be deposited into the Bond Fund.

Sources of Funds:

Par Amount of 2013 Bonds	\$75,525,000.00
Original Issue Premium, Net of Discount	6,447,309.85
Releases from Interest and Reserve Funds	3,580,317.24
Total Sources of Funds	\$ <u>85,552,627.09</u>

Uses of Funds:

Deposit to Escrow Fund	\$59,677,223.19
Redemption of Commercial Paper Notes	24,000,000.00
Deposit to Debt Service Reserve Fund	1,419,946.25
Costs of Issuance (including Underwriters' discount)	455,457.65
Total Uses of Funds	\$ <u>85,552,627.09</u>

DESCRIPTION OF THE 2013 BONDS

General

The 2013 Bonds will be issued in the aggregate principal amount of \$75,525,000 and will consist of serial bonds as set forth on the inside cover of this Official Statement. The 2013 Bonds will be issued in book-entry form only.

The 2013 Bonds will be dated as of their date of issue, will bear interest from that date payable on each March 1 and September 1, beginning September 1, 2013, and will mature on September 1 in the years and the principal amounts, and bear interest at the respective rates, as set forth on the inside cover of this Official Statement. Interest will be paid to the owner of each 2013 Bond as shown in the records of the Registrar on the 15th day of the month immediately preceding such Interest Payment Date. The 2013 Bonds will be issued in minimum denominations of \$5,000 or any integral multiple thereof.

Union Bank and Trust Company has been appointed as Registrar and Paying Agent for the 2013 Bonds (the "Paying Agent").

Interchangeability and Transfer

The 2013 Bonds, upon surrender thereof to the Registrar, with a written instrument of transfer satisfactory to the Registrar, duly executed by the registered owner or his or her duly authorized attorney, may, at the option of the registered owner thereof, be exchanged for an equal aggregate principal amount of 2013 Bonds in registered form of the same series, maturity and of any other authorized denomination.

In all cases in which the privilege of exchanging or transferring the 2013 Bonds is exercised, the City shall execute and the Registrar shall deliver the 2013 Bonds in accordance with the Ordinance. For every such exchange or transfer of 2013 Bonds, the Registrar shall require the payment by the registered owner requesting such transfer or exchange of any tax or other governmental charges payable with respect thereto and may charge a sum not exceeding the actual cost for each new 2013 Bond.

No exchange or transfer of any 2013 Bond shall be required to be made during the 15 days next preceding before the date of selection of 2013 Bonds for redemption, or of any 2013 Bond or portion of a 2013 Bond so selected for redemption.

Optional Redemption

The 2013 Bonds maturing on or after September 1, 2024, shall be subject to redemption prior to maturity at the option of LES, in whole or in part in such principal amounts and from such maturity or maturities as the City, in its discretion, shall select, and by lot within a maturity if less than a full maturity is redeemed, on any day on or after September 1, 2023 at redemption prices equal to 100% of the principal amount thereof plus accrued interest to the date fixed for redemption.

Selection of Bonds for Redemption

If less than all the 2013 Bonds of a particular maturity shall be called for redemption, the portion of any such 2013 Bonds of a denomination of more than \$5,000 principal amount shall be redeemed in the principal amount of \$5,000 or an integral multiple thereof and, in selecting the portions of such 2013 Bonds for redemption, the City and the Paying Agent shall treat each such 2013 Bond as representing that number of such 2013 Bonds of \$5,000 principal amount which is obtained by dividing the principal amount of such 2013 Bonds to be redeemed in part by \$5,000. If less than all 2013 Bonds are to be redeemed, the maturities of 2013 Bonds to be redeemed may be selected by the City. If the City does not select the maturities to be redeemed, the 2013 Bonds will be redeemed in inverse order of maturity. The particular 2013 Bonds or portions of 2013 Bonds to be redeemed shall be selected at random by the Registrar in such manner as the Registrar in its discretion may deem fair and appropriate.

Notice of Redemption

If the City elects to redeem 2013 Bonds, the Registrar shall give notice of such redemption to the registered owners of the 2013 Bonds called for redemption, certain securities depositories and one or more information services. Such notice shall be given by first class mail to the registered owners of the 2013 Bonds designated for redemption at their addresses appearing on the bond registration books, not less than 30 days prior to the redemption date. The actual receipt by the registered owner of any 2013 Bond, the securities depositories and one or more information services of notice of redemption shall not be a condition precedent to redemption, and failure to receive such notice or any defects in such notice shall not affect the sufficiency of the proceedings for the redemption of 2013 Bonds.

Notice of redemption having been given, the 2013 Bonds or portions thereof so called for redemption shall become due and payable on the redemption date so designated at the applicable redemption price, plus interest accrued and unpaid to the redemption date and, if presentation and surrender thereof are required by the Ordinance, upon presentation and surrender thereof at the office specified in such notice of such 2013 Bonds or portions thereof and shall be paid at the redemption price, plus interest accrued and unpaid to the redemption date. If there shall be designated for redemption a portion of a 2013 Bond, if presentation and surrender thereof are required, the City shall execute and the Registrar shall authenticate and deliver, upon the surrender of such 2013 Bond, without charge to the owner thereof, for the unredeemed balance of the principal amount of the 2013 Bond so surrendered, a 2013 Bond of like maturity in any authorized denomination. If, on the redemption date, moneys for the redemption of all the 2013 Bonds or portions thereof to be redeemed, together with interest to the redemption date, shall be available therefor on said date and if notice of redemption shall have been given as provided, then, from and after the redemption date, interest on the 2013 Bonds or portion thereof called for redemption shall cease to accrue and become payable. If said moneys shall not be so available on the

redemption date, such 2013 Bonds or portions thereof shall continue to bear interest until paid at the same rate as they would have borne had they not been called for redemption.

For so long as the book-entry system is in effect with respect to the 2013 Bonds, the Registrar will mail notices of redemption to DTC or its nominee or its successor and, if less than all of the 2013 Bonds of a maturity are to be redeemed, DTC or its successor and DTC Participants and Indirect Participants will determine the particular ownership interests of 2013 Bonds of such maturity to be redeemed. Any failure of DTC or its successor or a DTC Participant or Indirect Participant to do so, or to notify a Beneficial Owner of a 2013 Bond of any redemption will not affect the sufficiency or the validity of the redemption of 2013 Bonds. See "DESCRIPTION OF THE 2013 BONDS—Book-Entry System." The City, LES, the Registrar, the Paying Agent and the Underwriters cannot make any assurance that DTC, the DTC Participants or the Indirect Participants will distribute such redemption notices to the Beneficial Owners of the 2013 Bonds, or that they will do so on a timely basis.

Book-Entry System

General. The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the 2013 Bonds. The ownership of one fully registered 2013 Bond for each maturity, as set forth on the inside cover of this Official Statement, each in the aggregate principal amount of such maturity, will be registered in the name of Cede & Co., as the nominee for DTC. Ownership interests in the 2013 Bonds will be available to purchasers only through a book-entry system maintained by DTC (the "Book-Entry System"). A description of DTC, the Book-Entry System and definitions of initially capitalized terms used herein are found in "APPENDIX E: BOOK-ENTRY SYSTEM."

Risk Factors. Beneficial Owners of the 2013 Bonds may experience some delay in their receipt of distributions of the principal or redemption price of and interest on the 2013 Bonds because such distributions will be forwarded by the Registrar to DTC, credited by DTC to its Direct Participants, and then credited to the accounts of the Beneficial Owners either directly or indirectly through Indirect Participants.

Because transactions in the 2013 Bonds can only be effected through DTC, DTC Participants and certain banks, the ability of a Beneficial Owner to pledge 2013 Bonds to persons or entities that do not participate in the Book-Entry System, or otherwise to take actions in respect of such 2013 Bonds, may be limited due to the lack of physical certificates. Beneficial Owners will not be recognized by the Registrar as registered owners for purposes of the Ordinance, and Beneficial Owners will be permitted to exercise the rights of registered owners only indirectly through DTC and DTC Participants.

SECURITY FOR THE 2013 BONDS

The Pledge and Security Interest Under the Ordinance

The 2013 Bonds, together with the Outstanding Bonds and all other series of Bonds hereafter issued pursuant to the Ordinance, will be payable on a parity basis from and secured by a pledge of and security interest in (1) the Net Revenues of the System and (2) certain Funds established by the Ordinance (including the Electric Revenue Fund and the Bond Fund), subject to the provisions of the Ordinance permitting the application thereof for the purposes and on the terms and conditions set forth in the Ordinance. For a description of the Funds established under the Ordinance and other provisions of the Ordinance, see "APPENDIX C: SUMMARY OF CERTAIN PROVISIONS OF THE ORDINANCE."

A 2013 Debt Service Reserve Fund has been established for the 2013 Bonds, into which an amount equal to the Reserve Fund Requirement (hereinafter defined) for the 2013 Bonds will be

deposited. The "Reserve Fund Requirement" with respect to the 2013 Bonds, on any date of computation, is an amount equal to six (6) months' interest on the 2013 Bonds outstanding on such date, as such amount may reduce over time. On the date of issue of the 2013 Bonds, the "Reserve Fund Requirement" is \$ 1,419,946.25. For a more complete description of the provisions relating to the 2013 Debt Service Fund, see "APPENDIX C: SUMMARY OF CERTAIN PROVISIONS OF THE ORDINANCE—2013 Debt Service Reserve Fund."

Pursuant to the Ordinance, the Bonds of any series hereafter issued are not required to be additionally secured by amounts on deposit in any Debt Service Reserve Fund. The City, however, may provide, at its option, in the Series Ordinance authorizing the Bonds of any series hereafter issued that the Bonds of such series will be additionally secured by amounts on deposit in any Debt Service Reserve Fund to be designated therefor.

The Bonds will be payable solely from the Net Revenues and the other funds, assets and security described in the Ordinance, and neither the State nor any political subdivision thereof (other than the City) shall be obligated to pay the principal or redemption price thereof or interest thereon and neither the faith and credit nor the taxing power of the State or any political subdivision thereof is pledged to the payment of the principal or redemption price of or interest on the Bonds. No registered owner of any Bond or receiver or trustee in connection with the payment of the Bonds shall have any right to compel the State or any political subdivision thereof (including the City) to exercise its appropriation or taxing powers.

Rate Covenant and Coverage Under the Ordinance

The City and the Board have agreed under the Ordinance to fix, establish, maintain, and collect such rates, charges and fees for electric power and energy and services furnished by the Electric System and to the extent legally permissible, revise such rates, charges and fees to produce Revenues each Fiscal Year sufficient (a) to pay all Operation and Maintenance Expenses, (b) to produce Net Revenues equal to an amount sufficient to pay the annual debt service due and payable in such Fiscal Year of the then Outstanding Bonds and Parity Obligations; and (c) to pay after deducting the amounts determined in (a) and (b) above, all other financial obligations of the Electric System reasonably anticipated to be paid from Revenues. See "APPENDIX C: SUMMARY OF CERTAIN PROVISIONS OF THE ORDINANCE—Covenant as to Rates, Fees and Other Charges."

Limits on Additional Debt

The City may issue additional Bonds or Parity Obligations provided (a) the Net Revenues for the Fiscal Year immediately preceding the Fiscal Year in which such additional Bonds or Parity Obligations are issued are not less than 100% of the average annual Debt Service on all Bonds and Parity Obligations to be Outstanding upon the issuance of such additional Bonds or Parity Obligations, (b) neither the City nor LES shall be in default under the terms of the Ordinance and (c) the issuance of such additional Bonds or Parity Obligations shall not cause either the City or LES to be in default under the terms of the Ordinance.

OUTSTANDING BONDS AND NOTES

Bonds Outstanding Under the Ordinance

After the issuance of the 2013 Bonds and the application of a portion of the proceeds thereof to redeem or defease the 2005 Bonds to be so defeased and to pay \$24,000,000 principal amount of the outstanding Commercial Paper Notes, the following Bonds will be outstanding:

Description	Final Maturity	Outstanding Amount
2003 Bonds	September 1, 2021	\$10,330,000
2007 Bonds	September 1, 2037	\$250,135,000
2012 Bonds	September 1, 2037	\$277,315,000
2013 Bonds	September 1, 2025	\$75,525,000

Commercial Paper Notes

In addition to the Bonds, LES maintains a commercial paper program. The payment of the Commercial Paper Notes is subordinate to the payment of the principal of, and interest on, the outstanding Bonds. After the issuance of the 2013 Bonds and the application of a portion of the proceeds thereof to pay \$24,000,000 principal amount of the outstanding Commercial Paper Notes, there will be \$64,500,000 in aggregate principal amount of variable rate Commercial Paper Notes outstanding.

LES is presently authorized to issue up to \$150,000,000 aggregate principal amount in Commercial Paper Notes. In addition, LES has entered into a Revolving Credit Agreement dated as of August 1, 2012 with The Bank of Tokyo-Mitsubishi UFJ, Ltd. ("BTMU"), acting through its New York branch (the "Revolving Credit Agreement"). The Revolving Credit Agreement terminates on August 28, 2015, unless earlier terminated in accordance with its terms. The Revolving Credit Agreement obligates BTMU to fund advances to LES in accordance with the terms of the Revolving Credit Agreement in an aggregate amount not to exceed \$150,000,000. Such advances, if requested and made, are available solely for the purpose of paying maturing principal of the Commercial Paper Notes. LES' obligation to repay such advances and the interest thereon is subordinate to the payment of the principal of, and interest on, the outstanding Bonds. As of the date hereof, there are no advances outstanding under the Revolving Credit Agreement.

BOND DEBT SERVICE SCHEDULE

Set forth below is a schedule of the debt service requirements, after application of the proceeds of the 2013 Bonds, for each full year after September 1, 2013 for the 2003 Bonds, 2007 Bonds, 2012 Bonds and 2013 Bonds.

Period Ending	Series 2013	Series 2012	Series 2007	Series 2003	Aggregate Debt Service
9/1/2013	\$ 560,090	\$ 24,518,175	\$ 16,259,251	\$ 4,046,000	\$ 45,383,516
9/1/2014	2,839,893	24,597,156	15,866,751	4,127,500	47,431,300
9/1/2015	2,839,893	22,004,456	20,672,751	1,914,725	47,431,825
9/1/2016	2,839,893	10,595,656	34,707,751	54,625	48,197,925
9/1/2017	2,839,893	10,595,656	34,707,751	54,625	48,197,925
9/1/2018	2,839,893	10,595,656	34,708,251	54,625	48,198,425

CITY OF LINCOLN

Lincoln, the capital of Nebraska (the "City"), is located in southeastern Nebraska near the center of population of the State. The City is a municipal corporation and a city of the primary class under Nebraska law. It operates under a home rule Charter and has an elected full-time chief executive ("Mayor") and elected legislative body ("City Council"). Lincoln's government has a broad range of responsibilities, including operation and maintenance of electric, water, and sanitary sewer systems. The

Charter grants the City power to purchase, construct and otherwise acquire, own, maintain and operate public utility plants, property and facilities within and without the limits of the City. The administration of City government operates under the direction of the Mayor by administrative departments.

The City's general obligation indebtedness carries an "Aaa" rating from Moody's and an "AAA" rating from Standard & Poor's. Lincoln is one of the few cities in the United States having such ratings from both Moody's and Standard & Poor's. The 2013 Bonds are not general obligation indebtedness of the City.

The City is authorized under the Constitution and laws of the State and its home rule Charter to issue revenue bonds. The Interim Finance Director is appointed by the Mayor with the approval of the City Council. Among other duties imposed by the City Charter, the Interim Finance Director is responsible for the issuance and sale of bonds, for depositing the proceeds therefrom and for other acts relating to bonds. Selected demographic information with respect to the City and the LES service area is included in Appendix A to this Official Statement.

LINCOLN ELECTRIC SYSTEM

Organization

Since 1913, the City has owned and operated at least a partial electric system. In 1966, the City purchased the properties serving Lincoln from Consumers Public Power District and combined them with City property to form Lincoln Electric System. In 1971, following a referendum, the Administrative Board for LES was created. It is responsible for day-to-day administration of the electric system. The City, through the City Council, retains the right to approve rates, the annual budget, debt financing for LES capital requirements, and the Administrator and CEO. Historically, such approvals have been granted by the City Council based on the actions approved and recommended by LES management and the LES Administrative Board.

Service Area

The LES service area includes the corporate area of the City and an area outside the City's corporate limits. The service area covers approximately 200 square miles, of which approximately 91 square miles are within the City limits. Approximately 4% of LES' customers are located outside the City's corporate limits. To the extent that the corporate limits of the City are expanded in the future, Nebraska law provides that the service area of LES may likewise be expanded. The LES service area is totally surrounded by Norris Public Power District. LES and Norris have an agreement providing a mechanism for orderly expansion of the LES service area as the City expands. LES holds an exclusive franchise to serve customers within its service area. Nebraska law contains certain provisions pertaining to the rights of municipalities within the State to acquire the electric distribution systems associated with providing service to residents of the municipality. Only one municipality, the City of Waverly, with a population of approximately 3,300, is located within the LES service area and has been served by LES under a franchise agreement since 1986. A renewal agreement with an initial term of ten years, plus an automatic renewal provision calling for continued five year extension until terminated by either party providing notice to the other was put in place November 1, 2006. LES' financial results would not be materially adversely affected by the loss of the Waverly energy sales and revenues.

LES served 130,537 retail customers as of December 31, 2012, of which 87% were residential, 12% were commercial and industrial and the balance, approximately 1%, was governmental and other. The total number of customers increased 0.9% in 2008, 0.9% in 2009, 0.4% in 2010, 0.6% in 2011 and 1.1% in 2012.

Administration

The LES Administrative Board consists of nine members who are appointed by the Mayor of Lincoln and confirmed by the Lincoln City Council. There is currently one vacancy on the Board. Each Board member is eligible for three successive terms of three years each and must be a ratepayer of LES. The present members and their occupations are:

Member	Term Expires December	Occupation
Marilyn McNabb Chair	2015	Retired, former Deputy for Welfare Services State Ombudsman's Office
Jerry Hudgins Vice Chair	2015	Professor and Department Chair of Electrical Engineering University of Nebraska–Lincoln
Dan Harshman Secretary	2014	Controller Molex
Patrick Beans	2013	Senior Vice President/Treasurer Supertel Hospitality, Inc.
Cathy Beecham	2013	Business Administrator LogicGate, LLC
Vicki Huff	2015	Retired, former First Vice President & Trust Marketing Officer Union Bank and Trust Company
W. Don Nelson	2014	Retired
Elizabeth Raetz	2013	Vice President of Nursing St. Elizabeth Regional Medical Center

The executive team of LES, their areas of responsibility and their utility related experience are described below.

Administrator & CEO – Kevin G. Wailes has held this position since July 1, 2010. The Administrator & CEO has full authority within approved budgets and policies of LES, as directed by the Administrative Board, to administer, manage, plan and direct the operations of LES. Prior to joining LES, Mr. Wailes served as General Manager of Your Own Utilities, the municipal electric utility serving Tallahassee, Florida. Mr. Wailes joined the City of Tallahassee in May of 1987 as the Assistant Director – Electric Utility, and was named General Manager of the Electric Utility in October of 1995. Prior to joining the City of Tallahassee, Mr. Wailes served as Superintendent of the Lamar Utilities Board, a Colorado municipal electric utility from 1981 to 1987. Mr. Wailes holds a Bachelor of Electrical Engineering from Colorado State University. Among many utility-related positions, he has served on the Board of Directors and as President of the Colorado Association of Municipal Utilities, Chairman of the Executive Board of the Florida Electric Power Coordinating Group, a member of the Board of Directors of the Florida Reliability Coordinating Council, including two years as Chairman, Chairman of the Southern/Florida Reliability Agreement Executive Council, and a member of the Board of Directors, previously as Secretary Treasurer and as President, of the Florida Municipal Electric Association. Mr. Wailes currently serves as a member of the North American Electric Reliability Corporation -

Electricity Sub-Sector Coordinating Council, the National Infrastructure Advisory Council –Joint Electric Executive Committee and on the Boards of Directors of the American Public Power Association, the Nebraska Power Association and the Lincoln Chamber of Commerce.

Vice President and Chief Financial Officer – Laura L. Kapustka has held this position since November 2010. Prior to that, Ms. Kapustka was employed by Omaha Public Power District for over 25 years. Ms. Kapustka has a Bachelor of Science degree in Business Administration and a Masters in Business Administration from the University of Nebraska at Omaha. She also has a risk management designation from the Insurance Institute of America. Ms. Kapustka's responsibilities include: accounting and financial reporting, debt management, financial forecasting, corporate budgeting, risk and insurance management, portfolio management, management oversight of retail rate programs, load forecasting, revenue forecasting, and market research.

Chief Operating Officer – Douglas D. Bantam has held this position since June 2009. Mr. Bantam previously acted as Vice President of Power Supply and previously held positions at LES as Chief Engineer of Generation Engineering, Supervising Engineer and Senior Engineer in Generation Engineering. Prior to that, Mr. Bantam had been employed by Burns and McDonnell Engineering. Mr. Bantam has been employed by LES for 34 years, has a Bachelor of Science in Electrical Engineering from the University of Nebraska-Lincoln and is a Registered Professional Engineer. Mr. Bantam provides management oversight of four operating divisions which include Power Supply, Energy Delivery, Corporate Services and Customer Services. He also serves as a board member for the Nebraska Utility Corporation.

Vice President and General Counsel - Shelley R. Sahling-Zart has held this position since August 2011. Prior to her current position, she acted as vice president and assistant counsel. Ms. Sahling-Zart has been employed by LES for 24 years, holds a Bachelor of Arts degree in Political Science from Doane College and Juris Doctorate from the University of Nebraska-Lincoln College of Law. She is a member of the American Bar Association and Nebraska State Bar Association. Ms. Sahling-Zart has served two terms on the Board of Directors for the American Public Power Association and also serves on the Board of Directors for the Nebraska Utility Corporation. She is also serving a three-year term on the federal Surface Transportation Board's Rail-Shipper Transportation Advisory Council. Ms. Sahling-Zart is responsible for legal affairs, government relations, strategic planning, customer and corporate communications and records, and corporate policy analysis.

Vice President and Chief Technology Officer – Paul A. Crist has held this position since May 2013. Prior to that, Mr. Crist was Substation Director/Manager, Manager of Communication and Protection Design, System Control Supervisor, System Protection Supervisor, and System Protection Engineer. He has worked for LES since April 1990. Mr. Crist holds a Bachelor of Science Degree in Electrical Engineering and a Masters of Business Administration from the University of Nebraska-Lincoln. He is also a Registered Professional Electrical Engineer in Nebraska. He has been active in the University of Nebraska Electrical Engineering External Advisory Board and has represented the American Public Power Association on the development of the electricity subsector cyber security Risk Management Process guideline in collaboration with the Department of Energy, the National Institute of Standards and Technology and the North American Electric Reliability Corporation ("NERC"). He is currently an acting chairperson of the NERC Critical Infrastructure Protection Committee Compliance and Enforcement Input Working Group. His duties include the oversight of all operational and enterprise technology systems at LES. Mr. Crist's responsibilities include the systems that operate and monitor the Bulk Electric System, the Enterprise Resource Planning System, and the Geographic Information Systems.

Vice President of Customer Services – Lisa R. Hale has been Vice President of Customer Services since October 2012. Prior to that, she was employed at Metropolitan Utilities District in Omaha, Nebraska for 23 years. Ms. Hale has a Bachelor of Science degree in Business Administration and a Masters in Business Administration from Creighton University. Her duties include managing customer relationships, customer billing and payment, collection of delinquent accounts, maintaining metering infrastructure, as well as the Sustainable Energy Program and other energy efficiency programs.

Vice President of Corporate Services – Steven L. Adams has held this position since March 2008. Mr. Adams joined the organization following 36 years as a U.S. Air Force and Nebraska Air National Guard Officer. In that capacity, he held multiple levels of command culminating in him serving as the Assistant Adjutant General – Air, Nebraska National Guard. He has a Bachelor's degree from the University of Nebraska and a Master's in Strategic Studies from Air University. Mr. Adams is responsible for all LES buildings and grounds, purchasing, stores, office services, tools, transportation, safety and human resources.

Vice President of Power Supply – Jason L. Fortik has held this position since September 2011. Mr. Fortik has worked at LES since May 1995, most recently serving as Manager of Resource and Transmission Planning in the Power Supply Division. He also has held several engineering positions in both the Power Supply and Energy Delivery Divisions at LES. Mr. Fortik earned a Bachelor of Science degree in electrical engineering from the University of Nebraska-Lincoln and is a Registered Professional Engineer. He also holds a Bachelor of Technology degree in industrial supervision from Peru State College, and an Associate of Applied Science degree in electrical technology from Southeast Community College. He is currently working on a Master's degree in Business Administration at the University of Nebraska-Lincoln. His duties include oversight of generating resource planning, transmission planning and the related Southwest Power Pool interactions, energy marketing functions, natural gas procurement, environmental compliance, generation operations and maintenance, and generation projects engineering.

Vice President of Energy Delivery - Danny L. Pudenz has been Vice President of Energy Delivery since June 2000. Prior to that, he served as Division Manager of Operations since 1997. Mr. Pudenz has been employed at LES for 35 years, has a Bachelor of Science in Civil Engineering from Iowa State University and is a Registered Professional Engineer. His duties include oversight of planning, budgeting, design, construction, operations, property management and maintenance of the transmission, substation and distribution systems.

Employee Relations and Benefit Programs

LES has approximately 480 employees. It maintains competitive compensation and fringe benefit programs and supports continuing education and training. The overall turnover rate for the past three years has been approximately 3.6% annually. Approximately 152 employees in the trades and crafts, meter reading, and credit representatives' categories are represented by local bargaining units of the International Brotherhood of Electrical Workers (IBEW) Local 1536. LES' existing one-year contract with the trades and crafts and credit representative union employees expires December 31, 2013. The contract will be renewed for one year if neither of the parties gives notice to re-open the contract. A new contract with the meter reader unit has been negotiated with an expiration date of April 30, 2014.

LES has a defined contribution retirement plan covering all employees upon hire. The total retirement contribution, including the employee contribution but net of employee forfeitures, was \$6,023,000 and \$5,728,000 for the years ended December 31, 2012 and 2011, respectively. LES' contribution is equal to 200% of the employees' contributions up to 5% of gross wages for employees hired at LES prior to January 1, 2011. The contributory rate for employees hired after that date is equal to 100% of the employee contribution, up to 10%. Vesting of LES contributions is a stepped vesting

schedule, with employees being fully vested after three years. Employee forfeitures are used to reduce employer contributions. Vested benefits are fully funded.

LES has no post retirement benefit program liability.

Payments in Lieu of Taxes

The City Charter requires that 5% of the total gross revenues received from the sale of electricity within the City's corporate limits and any incorporated city or village within which LES sells electricity at retail shall be paid annually in-lieu-of taxes and divided among the City and certain other local political subdivisions of the State. The amount of any such annual payment is reduced to the extent of other payments in-lieu-of taxes required to be made by LES with respect to its property or operations. Upon the adoption of a charter amendment in 1996, payments in lieu of tax are made after debt service on all current and future series of Bonds issued pursuant to the Ordinance.

In 2012, \$11.7 million of LES' revenues were accrued pursuant to this provision of the City Charter, a 3.8% increase from 2011 resulting from higher retail sales and rate increases. Of this 2012 amount the City received 16.7%, Lancaster County received 15.0%, Lincoln Public School District received 65.7% and the City of Waverly received 2.6%. The estimated amount for 2013 is \$12.3 million. Over the past 46 years, LES has paid \$223.3 million in lieu of taxes.

City Dividend for Utility Ownership

Effective September 1, 2011, LES began collecting a City Dividend for Utility Ownership from its customers. The dividend is a payment to the City of Lincoln for its ownership of LES. The dividend is required by an ordinance that was approved by the Council (the "Dividend Ordinance"). LES is required to make a dividend payment to the City equivalent to 2.4 percent of its Total Net Position (equity). The Dividend Ordinance also requires that when the annual dividend equals or exceeds \$7 million, the amount of the annual dividend would increase by 2 percent or the Consumer Price Index, whichever is greater. The dividend is listed on LES electric bills as a separate item. In 2012, \$6.4 million of LES' revenues were accrued for payment to the City pursuant to the Dividend Ordinance. The estimated amount for 2013 is \$6.7 million.

The Dividend Ordinance was a joint effort of the Mayor's office, the City Attorney and LES, as a result of discussions on how the City could receive a more appropriate return on investment for its ownership of LES. After assessing what the City receives from its ownership, and what other cities receive from their electric utility, LES suggested the dividend as a contribution to the City, given the advantages municipal ownership provides to customers. Such an approach provides a predictable utility cost.

Nebraska Power Review Board

The Nebraska Power Review Board ("NPRB") was created in 1963 and consists of five members appointed by the Governor, subject to approval by the Legislature. The duties and jurisdiction of the NPRB are limited to those matters specifically granted by State statute including jurisdiction over the retail service areas of the electric utilities in the State. The NPRB does not have authority over retail electric rates in Nebraska. Retail rates are set by each local utility governing body.

Nebraska law provides that, under certain circumstances, the NPRB may render advisory opinions concerning wholesale rate disputes which are not binding on the parties. The statutes further provide that, with certain exceptions, before any electric generation facilities or any transmission lines or

related facilities carrying more than 700 volts are constructed by any supplier of electricity, approval of the NPRB must be obtained.

Nebraska law also provides for the filing with the NPRB by the Nebraska Power Association (which represents Nebraska utilities) of certain information, including a coordinated long-range power supply report, a twenty-year annual load and capability report, and a research and conservation report.

RATES

General

There are currently no investor-owned electric utilities serving customers in Nebraska. State residents are served exclusively by public power districts, municipally-owned utilities, such as LES, and not-for-profit rural electric cooperatives. The Nebraska Public Service Commission retains only very limited jurisdiction over the operation of electric utilities in the State, with no jurisdiction over electric rates. The City Council has exclusive jurisdiction for establishing rates for LES' retail customers. In the opinion of the General Counsel to LES, no other State or Federal regulatory body has any authority to determine or review the retail rates set by the City Council.

The retail electric rates charged by LES are not subject to Federal regulation.

Rate Design

LES' rates are designed by LES staff using cost of service principles and do not include an automatic fuel cost adjustment. Rates are adopted by the LES Administrative Board after a public hearing and then recommended to the City Council for approval. The City Council has final authority to approve LES' rate adjustments and has always approved such adjustments, albeit with occasional modifications to size. The table set forth below under the sub caption "History of Rate Changes" lists average retail rate changes since 2004; rate changes for individual customer classes have been lower and higher than the average rates.

History of Rate Changes

Over the last five years, LES retail sales have represented 86.9% of LES' operating revenues. The average retail rate changes since 2004 are as follows:

Effective Date	Average % Change
October 15, 2004	3.0
August 1, 2005	9.0 (1)
February 13, 2006	4.9
March 1, 2008	5.0
September 1, 2008	9.1 (2)
January 1, 2010	2.4
January 1, 2011	$2.5^{(3)}$
January 1, 2012	3.5
January 1, 2013	2.6

Reflects increased fuel, freight and operations costs at LES' owned generation facilities.

For 2012, LES' average billed retail revenue was \$.0757 per kilowatt-hour ("kWh") and for 2013 is budgeted at \$.0777 per kWh.

MANAGEMENT DISCUSSION OF OPERATIONS

General

LES is a summer peaking utility and experiences varying weather conditions. The peak loads, in megawatts ("MW"), were 722 MW, 747 MW, 767 MW, 786 MW and 783 MW (including losses, but excluding reserve requirements) in 2008, 2009, 2010, 2011 and 2012, respectively. Variability in the summer peak reflects not only weather variation but also the effect of economic conditions on load needs from all customer classes. The last several years have not seen dramatic single customer growth, but uniform load growth across the spectrum.

Years Ended December 31, 2011 and 2012

Total operating revenues for 2012 were 2.6% greater than 2011. This increase is the netted impact of milder weather offset by a 3.5% rate increase effective January 1, 2012.

Operating expenses for 2012 were 5.7% higher than 2011 primarily due to increased energy delivery and transmission costs.

See "APPENDIX B: LES' AUDITOR'S REPORT AND FINANCIAL STATEMENTS DECEMBER 31, 2012 AND 2011" for additional comments.

⁽²⁾ Reflects increased natural gas prices.

⁽³⁾ The City Dividend for Utility Ownership was added September 1, 2011, and is not considered by LES to be part of its rates.

DISTRICT ENERGY CORPORATION

On December 18, 1989, articles of incorporation creating the District Energy Corporation of Lincoln and Lancaster County, Nebraska ("DEC") were filed with the Nebraska Secretary of State for the purpose of creating a nonprofit corporation to own, operate, maintain and finance district heating and cooling facilities for existing and future buildings of Lancaster County, Nebraska (the "County") and Lincoln, Nebraska (the "City"). As a result of amendments to Nebraska law, on March 27, 1992, the County and the City entered into an Interlocal Cooperation Agreement (the "DEC Agreement") with respect to DEC and on April 5, 1992, amended and restated articles of incorporation for DEC were filed with the Nebraska Secretary of State. DEC is authorized pursuant to the DEC Agreement and its articles of incorporation to provide for purchasing, leasing, constructing and financing facilities and the acquisition of services in order to furnish energy requirements and related services to the City and the County and to such other persons and entities as the City and the County may be authorized by law to serve. Under the DEC Agreement, LES may appoint at least one member of the DEC Board of Directors. LES has also entered into a Management Agreement with DEC, dated December 15, 1989 (the "DEC Management Agreement"), pursuant to which LES provides operational and financial management services for DEC. The DEC Management Agreement is in effect on a successive five-year term basis until either party gives the other 12 months' notice of termination prior to the end of any five-year term. Either party may terminate the agreement at any time upon 60 days notice after DEC no longer has debt outstanding. LES receives a management fee based on the fully allocated cost of services provided by LES. For the year ended December 31, 2012, LES received \$833,000 from DEC as a management fee.

NEBRASKA UTILITY CORPORATION

On May 17, 2001 the City on behalf of LES and the Board of Regents of the University of Nebraska (the "Regents") entered into an Interlocal Cooperation Agreement Establishing the Nebraska Utility Corporation (the "NUCorp Agreement") and on May 21, 2001, articles of incorporation for the Nebraska Utility Corporation ("NUCorp") were filed with the Nebraska Secretary of State. NUCorp was created for the purpose of providing for purchasing, leasing, constructing and financing facilities and acquiring services in order to furnish energy requirements, utility and infrastructure facilities and related energy, utility and infrastructure services to the City and the Regents and to such other persons and entities as the City and the Regents may be authorized by law to undertake. The NUCorp Agreement establishes a five-member Board of Directors, of which LES appoints two and the Regents appoint three. LES has also entered into an Energy Management Agreement with NUCorp, dated May 30, 2001 (the "NUCorp Management Agreement"), pursuant to which LES provides financial support relative to electrical and thermal energy systems on the University of Nebraska-Lincoln campus for NUCorp, and manages the business and financial matters of NUCorp. The NUCorp Management Agreement expires on the later of May 30, 2026 or the date on which all long-term indebtedness of NUCorp has been paid or is deemed to be paid. Thereafter the NUCorp Management Agreement remains in effect on a year-to-year basis until either party gives the other 12 months' notice of termination. LES receives a management fee based on the fully allocated cost of services provided by LES. For the year ended December 31, 2012, LES received \$89,000 from NUCorp as a management fee.

POWER SUPPLY

Summary of Resources

LES satisfies its capacity and energy requirements from the following resources:

(a) LES-owned generation facilities comprised of (i) output associated with LES' undivided ownership interest, as a tenant in common, in the Missouri Basin Power Project and its Laramie River

Generating Station ("LRS") operated and maintained by Basin Electric Power Cooperative ("Basin"), (ii) generation from four LES-owned combustion turbines located at the Rokeby Generating Station and 8th & J Street, and two wind turbines located next to the Terry Bundy Generating Station, (iii) a four-unit combined cycle and peaking generating facility located at the Terry Bundy Generating Station, and (iv) output associated with LES' joint ownership interest in the Walter Scott Energy Center Unit #4 ("WSEC #4") operated and maintained by Mid American Energy Corporation ("MEC") (see "LES-Owned Generation");

- (b) (i) Purchases from Nebraska Public Power District ("NPPD"), under separate participation contracts, of a portion of the output of the Gerald Gentleman Station, the Sheldon Generating Station and four wind plants (see "Participation Units") and (ii) purchase from MidAmerican Energy Corporation of a portion of the output of Walter Scott Energy Center Unit No. 3; and
- (c) Other power purchase arrangements include purchases from (i) the United States Department of Energy, Western Area Power Administration ("WAPA"), and (ii) purchases through the Southwest Power Pool ("SPP").

Accredited resources available during 2012 (net after sales of capacity) totaled 1,024.6 MW, with an additional 30.3 MW of wind resources available. Generating capacity in 2012 by fuel type was as follows: Coal-45%; Oil and Gas-43%; Renewable-12%.

 ⁽¹⁾ Summer Net Maximum Rating.
 (2) LES Share is listed after the deduction of participation sales.

 ⁽³⁾ LES is a 12.66% joint owner of Walter Scott #4 operated by MEC. LES has an agreement with MEC whereby MEC will provide 50 MW of Walter Scott #3 in a swap for 50 MW of LES' share of Walter Scott #4.
 (4) Terry Bundy units 1, 2 and 3 are normally operated as a 2 on 1 Combined Cycle Unit. When operated in combined cycle the combined

output of the three units is 120 MW (2 MW less than the sum of the individual units).

⁽⁵⁾ Available for energy production, capacity not accredited with SPP.

The following sections provide a summary description of each of the above-mentioned resources and related contractual arrangements. For detailed information on applicable environmental regulations see "FACTORS AFFECTING LES AND THE ELECTRIC UTILITY INDUSTRY-Environmental and Other Permits and Approvals."

LES-Owned Generation

Missouri Basin Power Project.

General. LES is one of six participants (the "MBPP Participants") in the Missouri Basin Power Project ("MBPP"). MBPP includes (i) the Laramie River Generating Station, located in Wheatland, Wyoming, (ii) the Grayrocks Dam and Reservoir, (iii) certain transmission and transformation facilities, and (iv) rights under a 60-year transmission service contract with NPPD.

Laramie River Generating Station. LRS, located on a 2,400-acre site five miles northeast of Wheatland in Platte County, Wyoming, consists of three generating units, a substation, coal handling and storage facilities, a unit-train loop track, cooling towers, ash handling and disposal facilities and pollution control facilities for sulfur dioxide and particulate removal. Unit No. 1 commenced commercial operation in 1980, Unit No. 2 in 1981 and Unit No. 3 in 1982.

The MBPP Participants have entered into a participation agreement (as amended to the date hereof, the "MBPP Participation Agreement") which provides for the disposition of the LRS output and use of transmission facilities for service to the MBPP Participants under various conditions of operation, and the payment of costs associated with MBPP. The MBPP Participation Agreement became effective in 1977, and extends for 50 years. The MBPP Participation Agreement provides that the administration, construction, completion, operation and maintenance of MBPP shall be the responsibility of a Management Committee, consisting of one representative of each MBPP Participant, with each representative having one vote.

The percentage entitlements of each of the MBPP Participants with respect to MBPP output are set forth in the following table.

	Entitlement in MBPP
Electric Cooperatives:	
Basin	42.27%
Tri-State	24.13
Public Bodies:	
$LES^{(1)}$	12.76
Western Minnesota	16.47
Heartland	3.00
Wyoming Municipal	1.37
Total	100.00%

The MBPP Participation Agreement provides that certain costs of operation and maintenance directly related to kWh output shall be shared and paid for by the MBPP Participants as a function of net

⁽¹⁾ Includes capacity sold to non-participants Municipal Energy Agency of Nebraska ("MEAN"), approximately 28 MW (1.67%) and the city of Los Alamos, approximately 10 MW (.61%).

energy generation scheduled and produced for them. Remaining costs are shared and paid for in proportion to the MBPP Participants' respective entitlement shares.

The MBPP Participation Agreement further provides for an Operating Agent to be responsible for the operation and maintenance under the general supervision of the Management Committee, and subject to removal by the Management Committee under certain circumstances. Basin is the Operating Agent.

LES made sales from LRS to non-participants of approximately 1.67% to the MEAN and 0.61% to the Department of Public Utilities, County of Los Alamos, New Mexico. After these sales, LES currently has for its own use approximately 10.48% of MBPP capacity amounting to 179 MW.

Historical operating statistics and energy costs for LRS Units, after the deduction of participation sales, are summarized in the following table.

LES Share of Laramie River Station

	2008	2009	2010	2011	2012
Net Capability (MW)	179	179	179	179	179
Net Generation (MWh)	1,402,998	1,218,974	1,415,917	1,370,292	849,201(1)
Capacity Factor (%)	89.47	77.74	90.30	87.39	54.16(1)
Energy Cost (\$)	17,497,211	14,734,427	15,572,114	15,972,942	11,136,613
Energy Rate (\$/MWh)	12.47	12.00	10.94	11.65	10.78

⁽¹⁾ Reduced generation is the result of a scheduled maintenance outage and outages caused by equipment failure.

Transmission Facilities. The transmission grid in the United States has been synchronously separated, although physically connected, along a line extending south from Great Falls, Montana, through Stegall, Nebraska, to the Texas-New Mexico border, resulting in an eastern interconnected system and a western interconnected system. Because of this east-west separation, Units No. 2 and 3 of the LRS are currently connected to the western interconnected system and Unit No. 1 is currently connected to the eastern interconnected system.

LES is on the east side of the east-west separation and would be affected by a forced or scheduled outage of the single unit (Unit No. 1) of the LRS connected to the east side. The MBPP Participation Agreement, however, gives each MBPP Participant certain rights to power and energy produced by the entire facility. Basin, as MBPP Operating Agent, is required to use its best efforts to schedule each MBPP Participant's entitlement share to the extent available. In the event that the east side Unit No. 1 is not available for energy production, LES and the other east side MBPP Participants must replace such energy either from their own resources or purchases from other utilities. Additional net costs after the first 144 hours of a major forced outage or unit derating are shared by all MBPP Participants.

MBPP transmission lines and a transmission service contract with NPPD are used for delivery of power and energy beyond the LRS switching station to LES and other east side MBPP Participants.

MBPP Transmission Facilities. The transmission facilities constructed and operated as a part of MBPP consist of approximately 742 miles of 345 kV and 230 kV transmission lines and various

substation and switching facilities. Basin is the Operating Agent for both the east side and the west side transmission facilities, but has delegated such responsibility for the west side transmission facilities to Tri-State. Although the MBPP transmission facilities are identified as "west side" and "east side" facilities, the cost of all the transmission facilities are shared by the MBPP Participants on an entitlement share basis.

NPPD Transmission Service. Basin entered into a transmission service contract with NPPD on behalf of MBPP dated April 29, 1977, which extends to December 31, 2040, and under which NPPD receives up to 575 MW of LRS power at Sidney, Nebraska, and delivers such power and associated energy, less losses, to LES and certain other MBPP Participants. MBPP has compensated NPPD for this transmission service by a payment of about \$54.5 million for the cost of construction of certain designated transmission facilities added to that portion of the NPPD transmission grid designated to operate at 345 kV or higher (the "NPPD Bulk Transmission System"). MBPP also provides monthly payments for MBPP's share of NPPD's renewal and replacement expenditures, operating and maintenance expenses and administration and general expenses attributed to the NPPD Bulk Transmission System. The transmission facilities financed by MBPP are the sole property of NPPD. MBPP's share of such costs is based on a ratio of cost of construction payment by MBPP to the amount of NPPD's investment in utility plant attributable to the NPPD Bulk Transmission System.

Water Supply. The original LRS water requirements are supplied from four sources as follows: (i) water rights in the Boughton Ditch, located about 100 miles upstream from the Grayrocks Dam and Reservoir, (ii) water rights associated with land acquired for the LRS that is inundated by waters stored in the Grayrocks Reservoir, (iii) the unused and unappropriated flows of the Laramie River stored in the Grayrocks Reservoir, and (iv) ground water pumped directly to the plant site from wells on property known as the Johnson Ranch, located about two miles northwest of the LRS. In previous years under drought conditions, MBPP has also purchased water from other area landowners. These purchased water quantities were delivered directly to the generating station, through pipelines laid on the ground, to supplement the normal reservoir quantities. Grayrocks Dam and Reservoir is the primary water supply for MBPP and is located on the main stem of the Laramie River. The dam was completed in July 1980 with a reservoir storage capacity of approximately 104,000 acre-feet and a surcharge capacity of 42,700 acre-feet. The principal spillway was designed with the capacity to pass the largest flood experienced during the 57 years of record for the Laramie River. Water for cooling is pumped from Grayrocks Reservoir by pipeline to LRS.

Fuel Supply. Coal for LRS is supplied pursuant to a coal purchase contract (the "Coal Purchase Contract") between Basin, as MBPP Project Manager, and Western Fuels Association, Inc. ("Western Fuels"). Western Fuels is a non-profit Wyoming corporation created by Basin and Tri-State for the purpose of acquiring and developing economical fuel resources for Western Fuels members, consisting of electric cooperative associations and municipal electric systems, as well as other not-for-profit utilities. Western Fuels supplies coal through purchases from other companies and from the Dry Fork Mine, a mine in the Powder River Basin owned and operated by a Western Fuels wholly-owned subsidiary. The MBPP Participants have loaned capital construction funds to Western Fuels which Western Fuels has in turn loaned to its subsidiary to finance the development of the mine.

Under the terms of the Coal Purchase Contract, Western Fuels Association will supply and deliver the total coal requirements of LRS through the year 2034. Western Fuels will either renew current contracts as they expire, or contract for additional coal or increase production at the Dry Fork Mine, for up to 2.7 million tons to provide all the coal requirements for LRS. Basin, together with the Engineering and Operations and Management Committees has established a coal purchasing program that commits to quantities up to 4 years in advance.

Basin, acting as MBPP Project Manager, entered into an agreement with Coobus Associates. LLC, to supply a "refined coal" product to LRS. The refined coal is produced by chemically treating the Powder River Basin sub-bituminous coal to produce a fuel stock which reduces air emissions during combustion of the treated coal. Emissions of nitrous oxides (NOx) must be reduced by at least 20% and either sulfur dioxide (SO₂) or mercury emissions must be reduced by at least 40% (compared to emissions produced by the non-treated coal). Basin will sell coal to the refined coal supplier and then repurchase the coal with a \$0.50/ton addition for the chemical treatment. The supplier will receive a federal tax credit of \$6.59 (adjusted annually for inflation) for each ton of refined coal delivered to the plant. The supplier will pay Basin for rent and services provided by Basin in connection with supplier's production of refined coal, which will be distributed to Basin participants on an annual scheduled energy basis. The estimated net benefit to LES for the refined coal project through 2017 is \$6,230,700. The refined coal supplier will pay for installation and all operating costs of the coal treatment equipment, which is installed on the LRS plant site. The supplier will retain ownership of the equipment but Basin has the option of purchasing the treatment facilities (or similar assets) after the eligible federal tax credit period ends in 2021. The contract between the coal refiner and Basin allows for either party to terminate the agreement at any time, which would require the removal of the equipment at the refined coal supplier's cost.

Fuel for the MBPP is delivered exclusively by the Burlington Northern and Santa Fe railroad ("BNSF"). The Laramie River Station is considered captive to BNSF transportation. Since initial commercial operation of the Laramie River Station, coal was delivered under a freight contract that provided predictable and competitive rates to the facility. This contract expired in 2004 and Basin and Western Fuels Association were unsuccessful in reaching agreement with BNSF to extend the contract. Coal deliveries are now provided under a BNSF freight tariff specifically addressing the MBPP service. With the 2004 change from contract to tariff rate structure the freight charges for delivery to LRS were significantly increased. Due to the increased freight cost, MBPP filed a complaint with the U.S. Surface Transportation Board ("STB"). On October 19, 2004, Western Fuels Association and Basin filed a complaint with the STB alleging that the BNSF rates for the movement of coal from the Powder River Basin to the Laramie River Station are unreasonably high and asked the STB to set reasonable rates.

By December of 2005, the parties had filed all of the documents and testimony required for a decision in the case. However, on February 27, 2006, the STB initiated a rulemaking procedure to develop standards and guidelines for analyzing certain revenues and expenses used in deciding these cases. The rules were finalized on October 30, 2006 and the STB applied them retroactively to all cases pending.

On September 10, 2007, the STB issued its decision which in essence provided no significant rate relief. However, it did acknowledge that the October 30, 2006, rulemaking may have adversely affected the type of evidence submitted and thus allowed Western Fuels and Basin to resubmit some of the key evidence in the case.

On February 18, 2009, the STB issued its Order holding that the BNSF rates charged to Western Fuels for the coal deliveries to the Laramie River Station were unreasonable. The STB's preliminary analysis reflected an overall reduction in the rates to the LRS of approximately 60%. The decision required the BNSF to make a lump-sum reparations payment to Western Fuels for the period from the fourth quarter 2004 through March 19, 2009.

The BNSF was also required to implement a reduction of the tariff for the LRS deliveries during the period March 20, 2009 through 2024. Without consulting Western Fuels or Basin, as required by the STB Order, the BNSF reduced the freight rates for subsequent deliveries to the LRS by approximately 40%. This reduction was less than the amount noted in the STB preliminary analysis. The STB Order

further noted that if the parties could not agree on the calculations of the actual reduction and refund amounts, the STB would make the final decision.

On July 23, 2009, the STB issued its ruling on the rate calculation concluding that the BNSF tariff should be reduced by 48%. On September 23, 2009, the parties jointly filed a Statement of Damages and unopposed petition for an Order Directing Payment.

On November 18, 2009, the BNSF paid Basin \$119,958,226 in reparations and accrued interest. Basin Electric paid to the MBPP Participants their proportionate share of the funds. LES is holding its share in escrow pending a final decision. On December 1, 2010, the BNSF filed a petition for a writ of certiorari with the U.S. Supreme Court (to review the decision of the D.C. Circuit), which was subsequently denied by the Court. The BNSF appealed the STB decision to the Court of Appeals for the D.C. Circuit. On May 11, 2010, the Court decided two of the three issues in favor of Western Fuels/Basin. On the third issue, the Court remanded the decision back to the STB directing them to explain in greater detail why their methodology for allocating variable costs did not constitute double counting of certain revenues. On June 25, 2010, the BNSF petitioned the D.C. Circuit for a rehearing.

This motion was denied on September 2, 2010 and on September 14, 2010, the case was remanded to the STB. The briefing on the remand issue was completed in April 2011. On June 13, 2012, the STB issued an order that explained and affirmed its previous decision, and discontinued the proceeding effective June 15, 2012. BNSF has appealed the STB decision back to the D.C. Circuit. A decision from the D.C. Circuit is anticipated in 2013. If the STB decision is affirmed, BNSF will have exhausted its legal options in the case.

In 2010, Berkshire Hathaway, a large holding company, acquired the BNSF for a total price of approximately \$43 billion. As part of the acquisition, Berkshire Hathaway paid a substantial premium over the railroad's pre-acquisition book value. This premium is approximately \$8.1 billion using the STB's regulatory costing methodology. The current regulatory structure permits BNSF to include the \$8.1 billion premium in its Annual R-1 report, which will be used by the STB to create BNSF's 2010 Uniform Railroad Costing System ("URCS") data set, which resulted in a substantial increase in BNSF's variable costs as well as an increase in shipper rates. In May 2011, the Western Coal Traffic League ("WCTL") filed a petition for a declaratory order seeking to exclude the premium from BNSF's regulatory rate base. The STB opened Docket No. FD 35506 in September 2011 and written comments and evidence were received through December 2011. A public hearing and oral arguments were held on March 22, 2012. A decision of the STB is pending. Basin, on behalf of the MBPP participants, has requested that the Laramie River Station rates be retroactively adjusted to remove the Berkshire Hathaway premium if the STB ultimately deems the inclusion of the premium in the regulatory rate base to be improper. The impact of the premium to the Laramie River Station participants is estimated at about \$25 million over the remaining term of the STB's prescription period in the Laramie rate case (through 2024). The annual impact on Laramie transportation charges is about \$1.9 million.

Clean Air Act. Based on analyses of projected SO2 emissions from Laramie River Station and the allowances under the current program, SO2 allowances are sufficient for operation of LRS. In the event that the actual generation exceeds projections, it may be necessary to reduce SO2 emissions or acquire additional allowances. LRS currently operates within the Clean Air Act's NOx emissions limitations.

For electric utility steam generating units, the Clean Air Act directed the Environmental Protection Agency ("EPA") to perform a study of the reasonably anticipated risks to public health from the emission of the listed toxic substances from electric utility steam generating units. The new regulations proposed by the EPA include a provision for the subcategorization of certain coals by heating

value rank, and therefore may provide some regulatory relief for lower ranked coals used at LRS. The costs, however, of implementing these controls cannot be estimated at this time since the level of control or systems to implement them have not yet been established.

On November 16, 2010, the Wyoming Department of Environmental Quality, Air Quality Division ("DEQ/AQD") and Basin, entered into a settlement agreement to fully and finally resolve and dispose of all matters related to Basin Electric's Appeal and Petition for Review docketed before the Wyoming Environmental Quality Council as Docket No. 10-2802 wherein Basin challenged condition 16 of Best Available Retrofit Technology ("BART") Permit MD-6047 for the three coal-fired boilers at the LRS.

The current Title V Operating Permit was issued for the LRS on June 24, 2009. The current Phase II Acid Rain Permit was issued for the LRS on June 24, 2009.

Clean Water Act. At the present time, the required permits under the Clean Water Act are in place for LRS.

Regional Haze Program. LRS is subject to the Regional Haze Program. The DEQ/AQD has considered all relevant statutory and regulatory factors concerning BART, reasonable progress goals and long-term strategy for Regional Haze and has determined that the emission reductions and other terms provided for in this settlement agreement meet all requirements applicable to the LRS under the Regional Haze Rule through December 31, 2018 and Wyoming statutes and regulations respecting Regional Haze and Basin is prepared to reduce emissions at the LRS and meet the other terms of the settlement agreement to comply with the said determination of the DEQ/AQD concerning Regional Haze requirements.

Walter Scott Energy Center Unit #4 ("WSEC #4").

General. The WSEC #4 project consists of a fourth unit constructed at MidAmerican Energy Company's ("MEC") Walter Scott Energy Center on the Missouri River south of Council Bluffs, Iowa. This 805 MW coal-fired unit utilizes high efficiency supercritical boiler technology and state of the art emission control facilities. MEC is the plant's Operating Agent for the fourteen joint owner utilities.

The following is a list of the WSEC #4 participants with their percentage entitlements:

Participant	Percentage	Share of Capacity (MW)
MidAmerican Energy Company	59.66%	480
Lincoln Electric System	12.66%	102
Central Iowa Power Cooperative	9.55%	77
Municipal Energy Agency of Nebraska	6.92%	56
Corn Belt Power Cooperative	5.60%	45
City of Cedar Falls, Iowa	2.14%	17
City of Spencer, Iowa	1.14%	9
City of Eldridge, Iowa	0.56%	5
City of New Hampton, Iowa	0.53%	4
City of Montezuma, Iowa	0.42%	3
City of Waverly, Iowa	0.40%	3
City of Alta, Iowa	0.14%	1
City of Sumner, Iowa	0.14%	1
City of West Bend, Iowa	0.14%	1

Transmission Facilities. As part of the WSEC #4 construction budget, a 124-mile 345 kV transmission line was constructed from the Walter Scott plant site to a substation in the Des Moines area. The project participants also paid to construct a 10-mile 161 kV line across the Missouri River along with required substation upgrades, to interconnect with Omaha Public Power District's ("OPPD") transmission system. Upgrades at the Cooper Nuclear Station 345 kV substation, completed as part of the WSEC #4 Project, increased the Missouri-Iowa-Nebraska Transmission ("MINT") Project line capacity by an additional 195 MW (see discussion in Transmission, Distribution and Interconnection).

Water Supply. Unlike the other units on the site which use the Missouri River for their water supply, WSEC #4 utilizes ground water for its primary source of plant water. Six high capacity wells have been drilled on MEC property surrounding the plant. Five of the wells can supply WSEC #4 peak load conditions with the sixth well providing emergency capacity. The unit utilizes a cooling tower, as opposed to using river water, as its primary cooling system, further reducing water consumption.

Fuel Supply. The WSEC #4 site can be served by dual rail carriers (BNSF and Union Pacific Railroad Company ("UP"). WSEC #4, along with the other coal-fired generating stations operated by MEC, is fueled by low-sulfur western coal from the Powder River Basin. MEC's coal supply portfolio includes multiple suppliers and mines under short-term and multi-year agreements of varying quantities. MEC's coal supply portfolio has approximately 90 percent of its 2013 requirements under fixed-price contracts. MEC regularly monitors the western coal market, looking for opportunities to enhance its coal supply portfolio.

Environmental. WSEC #4 is required to hold SO₂ allowances under the current Acid Rain Program ("ARP"). All SO₂ allowances will be purchased by or transferred to this unit. Beginning in 2010, CAIR required a 50 percent reduction below the ARP emissions cap. Iowa has chosen to implement the federal CAIR in its State Implementation Plan ("SIP"). The reduction will be achieved by reducing the value of SO₂ allowances associated with WSEC #4 (i.e., two allowances will be required for

each ton of emissions). In 2015, the reduction will be 65 percent below the ARP cap, requiring 2.86 allowances for each ton of emissions.

Beginning in 2009, WSEC #4 was required to obtain NOx allowances equal to the amount of NOx emitted. State budgets for NOx emissions under CAIR are based on caps established by the EPA. The Phase I cap took effect in 2009. The Phase II cap, which will be lower, will take effect in 2015.

The allowances are shown in the following table.

NO_X Allowance Allocations to WSEC #4

NO _X Control Period	2009 - 2014 2015 and After		Unit of Measure	
Annual	713	356	Tons	
Ozone	311	155	Tons	

Lincoln Electric System's share will be 12.66 percent of the allocated allowances.

WSEC #4 uses activated carbon injection to control mercury emissions.

A renewal National Pollutant Discharge Elimination System (NPDES) application was submitted to the Iowa Department of National Resources (IDNR) on August 30, 2007.

Historical operating statistics and energy costs for LES' share of WSEC #4 are summarized in the following table.

LES Share of Walter Scott Energy Station #4

	2008	2009	2010	2011	2012
Net Capability (MW)	104	104	104	104	102
Net Generation (MWh)	790,475	768,451	738,650	768,020	752,824
Capacity Factor (%)	89.34	86.65	83.49	86.81	82.63
Energy Cost (\$)	7,311,640	7,967,383	8,466,918	9,349,744	9,460,837
Energy Rate (\$/MWh)	9.25	10.37	11.46	12.17	12.57

Local Resources.

General. LES owns five simple cycle combustion turbines, which are referred to as the J Street Station, the Rokeby Station Unit 1, Unit 2 and Unit 3 and Terry Bundy Generating Station Unit 4. Terry Bundy Generating Station also includes a 2 on 1 (2 combustion turbines and 1 steam unit) combined cycle unit. Additionally LES owns two wind turbines, referred to as the Salt Valley Wind Plant Unit 1 and Unit 2. Although the local resources will provide approximately 23% of LES' projected 2013 generating resource capacity, it is anticipated that they will be used primarily for peaking or intermediate service and only provide approximately 1.2% of LES' energy requirements. The historical operation of LES' local generation resources is shown in the following table.

LES Local Generation

	2008	2009	2010	2011	2012
Net Capability (MW) ⁽¹⁾	432	432	437	437	439
Net Generation (MWh)	144,823	64,215	125,442	103,945	167,663
Capacity Factor (%)	3.83	1.70	3.28	2.65	4.37
Energy Cost (\$)	11,193,878	3,690,192	6,124,223	4,888,898	5,637,306
Energy Rate (\$/MWh)	77.29	57.47	48.82	48.27	33.62

⁽¹⁾ Wind resources are excluded.

J Street Generating Station ("J Street"). J Street is located at 725 J Street close to the down town area of the city and has one Westinghouse 251B simple cycle combustion turbine. The site also is equipped with a small auxiliary diesel generator to maintain unit availability in the event of a loss of system power. A maintenance building that includes shop and office space is located adjacent to the turbine compound. The unit has a generating capacity of 27 MW and entered commercial operation in 1972.

Rokeby Generating Station ("Rokeby"). Rokeby is located at 8000 SW 12th Street and the site includes two ABB/Alstom Frame 11N simple cycle combustion turbines and a General Electric Frame 7B unit. All Rokeby turbine generators have been equipped with the required inlet structure to allow for inlet air cooling to significantly increase the summer capacity. The Rokeby site also includes the LES Back-Up Control Center and Turbine Operations Building, and a 3 MW Black Start generator. The Rokeby facilities provide the operations and maintenance support for the LES-owned peaking generation. The Back-Up Control Center in the lower level of the operation structure at Rokeby is equipped to support system emergency operations in the event of a loss of the primary LES Service Center. Rokeby utilizes groundwater resources for various plant processes such as cooling tower make-up, fire suppression, service water, water injection to the combustion turbines and other plant processes. The use of groundwater can require treatment such as chemical additives and/or the utilization of the site's membrane Reverse Osmosis ("RO") de-ionization system. The ABB/Alstom turbines have generating capacities of 86 MW and 89 MW and entered commercial operation in 1996 and 2001, respectively. The General Electric turbine has a generating capacity of 63 MW and entered commercial operation in 1975.

Terry Bundy Generating Station ("TBGS"). The TBGS was constructed as a combination of combustion turbines and a steam turbine generator. Combining these two cycles provides a significantly higher efficiency when compared to LES' other simple cycle turbines. The site is located in the northeast quadrant of LES' service territory, and has ready access to fuel, water and transmission resources. Because the Lincoln area has insufficient ground or surface water to support the operation requirements of TBGS, the plant uses up to 3,000 gpm of treated effluent from Lincoln's Northeast Waste Water Treatment Plant located two miles south of the plant. The effluent source water provides for TBGS functions such as cooling tower make up, boiler make up in the steam cycle, fire suppression, service water, water injection to the combustion turbines for emissions control and other plant processes. After cycling through the TBGS plant processes, the wastewater generated is collected in an onsite 11 million gallon holding pond and pumped back to the wastewater treatment plant for treatment. The final

commercial operation date for all units on the site was August 1, 2004. This project provides LES with approximately 168.6 MW of generating capacity.

LES constructed this site to provide infrastructure such as fuel delivery capability and water and transmission for an ultimate site capacity of approximately 600 MW. This strategy will allow LES to stage the installation of additional generating resources coincident with customer load growth.

Salt Valley Wind Plant ("Wind Turbines"). The Wind Turbines are located at 9700 north 70th Street just north of Interstate 80 on the east edge of the city. Both Wind Turbines are Vestas model V47s rated at 660kw each. Vestas is currently under contract to provide all major maintenance and 24 hour alarm monitoring services for the site. The plant has a combined generating capacity of 1.3 MW with unit one entering commercial operation in 1998 and unit two in 1999.

Fuel Supply. J Street, Rokeby and TBGS utilize natural gas with #2 fuel oil as a backup. For J Street, natural gas is delivered through the city gas distribution piping to a gas compression plant located on the site. Fuel oil is delivered by truck from the Rokeby tank to the J Street Station if gas is not available or if fuel oil is less expensive for the operation of that unit. J Street currently has approximately 130,000 gallons of fuel oil in storage at this location with capacity for 215,000 gallons. At Rokeby, natural gas is delivered from an interstate pipeline to the site through two high pressure lines constructed specifically for the Rokeby site. Provisions are in place to perform online switching to fuel oil. The Rokeby fuel oil is supplied from a pipeline operated by Magellan Pipeline and stored in a 2 million gallon oil tank at Rokeby. Oil from the Rokeby tank is hauled by truck to the J Street Station if gas is not available or fuel oil is less expensive for the operation of that unit. LES currently has approximately 800,000 gallons of fuel oil in storage at Rokeby. The natural gas for TBGS is delivered from an interstate pipeline to the generating site through an LES-owned 6 mile high pressure gas pipeline. LES has established contracts with the interstate pipeline operator for long-term firm transportation and interruptible transportation for both generating sites. TBGS has 2 million gallons of fuel oil storage tank capacity on site. Fuel oil must be hauled to the TBGS site.

Environmental and Other Permits and Approvals. LES combustion turbines operate under federally enforceable air pollution permits issued by the Lincoln Lancaster County Health Department ("LLCHD"). These permits include Title V Operating Permits in conformance with the Clean Air Act Amendments Title V Operating Permit Program, and Phase II Acid Rain Permits. The current Title V Operating Permit was issued for TBGS on August 20, 2009. The current Phase II Acid Rain Permit was issued for TBGS on January 8, 2010. The process of pumping wastewater directly into the Treatment Plant TBGS is authorized by an NPDES Pretreatment Permit issued on January 1, 2009 and makes the site a "zero discharge" facility.

The current Title V Operating Permit was issued for Rokeby on January 1, 2013. The current Phase II Acid Rain Permit was issued for Rokeby on January 1, 2010. The current Title V Operating Permit was issued for J Street on June 27, 2011. LES also maintains NPDES permits covering all water discharges from the TBGS and Rokeby sites.

TBGS, Rokeby, and the J Street Station burn very low sulfur fuels. The primary fuel is pipeline quality natural gas. The secondary fuel is low sulfur #2 fuel oil. TBGS Units 2, 3, and 4, and Rokeby Units 2 and 3 are subject to acid rain regulations and LES maintains sufficient SO₂ allowances for each year of operation.

TBGS, Rokeby, and the J Street Station are not subject to the CAIR. TBGS, Rokeby, and the J Street Station are not subject to the Mercury Air Toxics Standard ("MATS") rule.

The current Title V Operating Permit was issued for TBGS on August 20, 2009. The current Phase II Acid Rain Permit was issued for TBGS on January 8, 2010.

The Nebraska Department of Environmental Quality ("NDEQ") published its updated NPDES Industrial Stormwater General Permit on July 1, 2011. Since 2002 TBGS has had the proper authorization and program in place to maintain compliance. On January 25, 2012 the NDEQ acknowledged that according to the information submitted, the TBGS meets the terms and conditions of the No-Exposure Exclusion from the NPDES Industrial Stormwater Program. The No Exposure option is available to all facilities whose industrial materials and activities are protected by a storm resistant shelter to prevent exposure to rain, snow, snowmelt, and/or runoff.

Rokeby is authorized to discharge from a series of outfalls to the Platte River Basin through a NPDES Permit issued on April 1, 2012 by the NDEQ.

As necessary, LES will make application to the appropriate federal and state authorities for any permits, certifications and renewals required by federal and state law and regulations for the operations of the TBGS, Rokeby, and the J Street Station, and for the construction of capital additions and improvements. Any changes in the environmental regulatory requirements imposed by federal or state law which are applicable to LES' generating stations could result in increased capital and operating costs being incurred by LES.

Participation Units

LES purchases power and energy from NPPD pursuant to two Participation Power Sales Agreements (each, a "Participation Agreement").

Gerald Gentleman Station Participation Power Sales Agreement. NPPD owns and operates its Gerald Gentleman Station ("Gentleman Station"), a two-unit coal fired generation facility located 22 miles west of North Platte, Nebraska, having an aggregate accredited capability of generating 1,365 MW. The Gentleman Station Unit No. 1 began commercial operation in April 1979 and Unit No. 2 began commercial operation in January 1982. Pursuant to the Gentleman Station Participation Agreement between NPPD and LES (as amended to the date hereof, the "Gentleman Participation Agreement"), LES is entitled to 8% (approximately 109 MW) of the power and energy generated by Gentleman Station. The Gentleman Participation Agreement terminates on the later of (i) the last maturity of the debt attributable to Gentleman Station, or (ii) the date on which NPPD retires Gentleman Station from commercial operation. LES will be responsible for decommissioning costs based on its 8% participation share.

Pursuant to the Gentleman Participation Agreement, LES pays, on a take-or-pay basis, 8% of the total costs associated with NPPD's ownership, operation and maintenance of the Gentlemen Station (including capital improvements, financing costs and related reserves, and taxes or payments-in-lieu thereof). LES additionally pays a portion of the cost of fuel based on the ratio of the power scheduled by LES in any given month to the amount of power actually generated by the station in such month. The historical operation of the LES share of Gentleman Station is summarized in the following table.

LES Share of Gerald Gentleman Station

	2008	2009	2010	2011	2012
Net Capability (MW)	109	109	109	109	109
Net Generation (MWh)	865,416	884,825	850,659	873,909	784,318
Capacity Factor (%)	90.63	92.67	89.09	91.52	82.14
Energy Cost (\$)	7,888,890	8,319,388	8,534,885	9,252,141	9,962,344
Energy Rate (\$/MWh)	9.12	9.40	10.03	10.59	12.70

Sheldon Station Participation Power Sales Agreement. NPPD owns and operates its Sheldon Station ("Sheldon Station"), a two-unit coal fired generation facility located 22 miles southwest of Lincoln, Nebraska, having an aggregate accredited capability of generating 225 MW. Pursuant to the Sheldon Station Participation Agreement between NPPD and LES (as amended to the date hereof, the "Sheldon Participation Agreement"), LES is entitled to 30% (approximately 68 MW) of the power and energy generated by Sheldon Station. The Sheldon Participation Agreement terminates on the later of (i) the last maturity of the debt attributable to Sheldon Station, or (ii) the date on which NPPD retires Sheldon Station from commercial operation.

Pursuant to the Sheldon Participation Agreement, LES pays, on a take-or-pay basis, 30% of the total costs associated with NPPD's ownership, operation and maintenance of the Gentlemen Station (including capital improvements, financing costs and related reserves, and taxes or payments-in-lieu thereof). LES additionally pays a portion of the cost of fuel based on the ratio of the power scheduled by LES in any given month, to the amount of power actually generated by the station in such month. The historical operation of the LES share of Sheldon Station is summarized in the following table.

LES Share of Sheldon Station

	2008	2009	2010	2011	2012
Net Capability (MW)	68	68	68	68	68
Net Generation (MWh)	458,894	511,815	398,633	456,397	341,023
Capacity Factor (%)	77.04	85.92	66.92	76.62	57.25
Energy Cost (\$)	5,413,268	6,509,774	5,915,056	7,212,845	6,746,584
Energy Rate (\$/MWh)	11.80	12.72	14.84	15.80	19.78

See "FACTORS AFFECTING LES AND THE ELECTRIC UTILITY INDUSTRY" for factors generally affecting coal-fired generation plants such as Gentlemen Station and Sheldon Station.

Other Power Purchase Arrangements

Western Area Power Administration ("WAPA"). LES has an allocation from the United States Department of Energy, through WAPA, of firm power under contract from Upper Missouri Basin hydroelectric plants of approximately 56 MW. LES has also received an allocation of 72 MW of firm peaking power from WAPA for the six month summer season and 22 MW for the remaining months. The firm peaking energy can be taken either by LES' projected daily load being within 72 MW of a summer system peak (22 MW during the winter season), or scheduled up to 8% seasonal load factor. The energy which LES receives associated with the firm peaking power is paid to WAPA at the firm power energy rate. Payments for WAPA power are at the standard WAPA wholesale rates. The average energy rate of WAPA power in 2012 was \$16.96/MWh. The WAPA contract expires December 31, 2020.

Wind Plant Participation. LES currently participates in four wind plants; Laredo Ridge (10 MW), Broken Bow (10 MW), Elkhorn Ridge (6 MW) and Crofton Bluffs (3 MW), through Power Sales Agreements ("PSA") with NPPD. NPPD has a Power Purchase Agreement ("PPA") with the wind plant developer/owners. LES only pays for energy received.

Transmission, Distribution and Interconnections

LES owns a network of transmission lines which interconnect its generating plants to transmission lines of adjacent utilities and to various transmission and distribution substations serving the loads of LES. The LES transmission lines are physically interconnected with the transmission systems of OPPD and NPPD

A summary of the LES transmission lines is as follows:

Circuit Voltage	Circuit Miles
345 kV	75
161 kV	12
115 kV	178

LES owns two 345-115 kV substations, a 345 kV switching station, a 161-115 kV substation and 44 substations which reduce transmission voltage to distribution voltage. The distribution system is operated at two primary voltage levels, 12.5 kV and 35 kV. The system includes approximately 1,969 miles of primary distribution lines that interconnect the distribution substations to the lower voltage transformers serving approximately 130,500 retail customers.

New distribution systems for developments, subdivisions, shopping centers and apartment complexes are generally served by underground 12.5 kV facilities. In the interest of upgrading electric service to some of the older parts of the City, a portion of the older overhead distribution system has been replaced with underground lines. Consequently, as of December 31, 2012, 91,400 customers were served by underground facilities.

LES is also one of six participants in the MINT Project which consists of 105 miles of 345 KV transmission extending from the substation at Cooper Nuclear Station ("CNS") to Fairport, Missouri and then to St. Joseph, Missouri. LES exchanged 50% of its rights on the transmission line to NPPD for rights across NPPD's system to gain access to the line.

Regional Energy Markets

On April 1, 2009, LES joined the Southwest Power Pool ("SPP") Regional Transmission Organization ("RTO"). This action was approved by the LES Administrative Board. By joining SPP, LES added the ability to operate in a regional purchase and sales "real-time" market. This market works to optimize the costs and uses of LES' facilities. This is accomplished through LES making financial offers for its on-line facility generation to the regional market. The regional market then consolidates all of the offers in real-time and calculates the least cost solution to the entire region, while considering transmission restraints. LES is paid for any extra generation that is generated and is billed for any generation utilized to lower its costs.

While LES maintains sufficient generating resources to serve all LES load and reserve obligations, participation in regional energy markets provides significant cost savings and enhances LES system reliability. Based upon the latest studies, LES anticipates purchasing from five to seven percent of its energy needs each year from the wholesale energy market. Since the energy management function is an ongoing hourly effort, this need can vary depending upon the relative cost of wholesale energy and the production costs for LES' local generating units. In addition to energy purchases, LES will continue to execute energy sales from available base-load resources. These sales are considered opportunity sales executed almost exclusively in the real-time market. Since LES is matching its own resources to control area load on both short range and long-term basis, LES expects to initiate wholesale power transactions only when economic compared to other resources' production costs.

The high voltage interconnected transmission system also enables LES to satisfy mandatory reserves through regional reserve sharing. This reserve sharing service is also obtained through SPP. The utilization of the entire RTO drastically reduces the amount of generation that LES might otherwise require for reserves. Some of the other services provided through LES' membership with SPP include required regional reliability coordination, transmission planning, training, and tariff administration.

A new SPP "day-ahead" market is scheduled to begin March 2014. This new market will include unit commitment for all of the generating units (including LES') within the SPP RTO region. At that time, SPP will look at available resources for the next day and determine which units need to be committed to run to meet necessary requirements. LES will be required to offer its units (up to anticipated load and reserve requirements) into this market.

The new market will exchange physical transmission rights for delivery of energy to financial rights. SPP participants will be compensated for differences in load costs and generation revenue that would have been delivered physically in the existing market.

Additionally, some new products (regulation services and operating reserves) will be added to the energy market in March of 2014. LES is making preparations now for the new requirements of this advanced market.

LES withdrew its membership from the Mid-Continent Area Power Pool ("MAPP") at the end of 2009 as all necessary services were being supplied by SPP.

Regional Reliability

The Energy Policy Act of 2005 ("EPAct 2005") authorized the creation of a self-regulated Electric Reliability Organization ("ERO") that spans North America, with Federal Energy Regulatory Commission ("FERC") oversight in the United States. The legislation makes compliance with North

American Electric Reliability Corporation ("NERC") and regional reliability standards mandatory and enforceable; previously compliance with standards was voluntary in the United States.

NERC was certified as the ERO by FERC on July 24, 2006. NERC's mission is to ensure the reliability of the bulk power system in North America. To achieve that goal, NERC will develop and enforce reliability standards; monitor the bulk power system; perform reliability and adequacy assessments; investigate and perform event analysis; operate the industry's Electricity Sector Information Sharing and Analysis Center ("ESISAC"); and educate and train industry personnel. LES is represented on the NERC Operating Committee, the NERC Operating Committee, the NERC Critical Infrastructure Protection Committee, the NERC Continuing Education Review Panel and the NERC FAC-003 Standards Drafting Team. LES will continue to actively participate in the development and implementation of NERC operating and reliability standards.

The Midwest Reliability Organization ("MRO") has applied as a Regional Entity ("RE") under EPAct 2005 seeking delegated authority from the ERO to serve as the entity responsible for ensuring the reliability and security of the bulk power system in the upper Midwest portion of North America.

Under EPAct 2005, the RE's are dedicated to preserving and enhancing the electric service reliability in a given region and other interconnected adjoining regions. While NERC sets minimum reliability standards, the RE's are permitted to propose regional standards to accommodate technical differences in the regional grid. RE activities include monitoring and enforcing compliance with standards for all operators and planners within the region; enforcement and sanctioning members and operators for violations of standards; providing education and training to its members and stakeholders; assessing generation adequacy and performance; and collecting and reporting information relevant and required for regional reliability. The MRO is an association of more than 50 electric utilities and other electric industry participants serving the following states and provinces: Minnesota, Iowa, Nebraska, and North Dakota, Saskatchewan and Manitoba and portions of, Wisconsin, Montana, and South Dakota. The RE acts on behalf of consumers and end-users as the reliability compliance and enforcement arm of the ERO.

LES has taken a multi-level approach in order to stay involved in ongoing reliability issues. LES is a member of the MRO NERC Standards Review Forum, a forum that reviews the NERC standards under development and provides their comments and recommendations to NERC. LES also has representatives serving on the following MRO committees: MRO Planning Committee, MRO Operating Committee, Resource Adequacy Subcommittee and the MRO Model Building Committee (as subcommittee chairman).

Future Power Supply

General. As part of a continual planning process, LES reviews its load and resources and participates in statewide and regional planning efforts to determine the most economical way to meet the needs of its customers. LES utilizes an integrated resource planning methodology to evaluate demand side management ("DSM"), purchases and construction alternatives. LES is expecting to meet its future resource needs with a mix of alternatives which may include DSM, purchases from market participants, participation in regional renewable energy projects, and potentially the participation in a regional base load resource.

Other System Improvements. LES is considering various system additions and improvements to upgrade and expand transmission and distribution systems. LES will begin commissioning of a 3 unit, 4 MW landfill gas based generating facility located at the Terry Bundy Generating Station in July 2013.

Historical Resource Summary

The following table shows historical energy production for 2008 through 2012.

Energy (Megawatt-hours)

	2008	2009	2010	2011	2012
Owned Units:					
LRS	1,402,998	1,218,974	1,415,917	1,370,292	849,201
LES Local	144,823	64,215	125,442	103,945	167,663
WSEC #4	790,475	768,451	738,650	768,020	752,824
Participation Units:					
NPPD – GGS	865,416	884,825	850,659	873,909	784,318
NPPD - Sheldon	458,894	511,815	398,633	456,397	341,023
NPPD – Wind	0	11,970	15,122	57,573	69,190
Firm Contracts:					
WAPA Purchases	255,400	252,944	253,721	254,444	255,881
WSEC #3 Purchases	401,328	342,131	391,928	395,871	374,486
Wholesale Purchases	295,480	258,050	185,918	183,925	643,847
Net Total Purchased and Generated	<u>4,614,814</u>	4,313,375	4,375,990	<u>4,464,376</u>	4,238,433
Wholesale Sales and Losses	1,064,736	915,785	824,696	940,091	<u>707,207</u>
LES System Energy	3,550,078	3,397,590	3,551,294	3,524,285	3,531,226

The following table shows the historical summer season load responsibility (load plus reserve requirements) and how the responsibility is met with existing resources. Values used are summer net ratings; wind resources are not included in the generating capability totals because they cannot be accredited.

Load & Generating Capability (Megawatts)

	2008	2009	2010	2011	2012
LES Responsibility:	868	850	855	851	849
Owned Units:					
LRS	179	179	179	179	179
LES Local (1)	431	431	436	436	437

NPPD - GGS	109	109	109	109	109
NPPD - Sheldon	68	68	68	68	68
WAPA Firm Purchases:	127	127	127	127	128
Total Resource Capability:	<u>1,015</u>	<u>1,015</u>	<u>1,020</u>	<u>1,020</u>	1,023
Surplus:	147	165	165	169	174

⁽¹⁾ Assumes Terry Bundy Units 1, 2 and 3 operating in a combined cycle. Total 2012 plant capacities: Rokeby Station – 241 MW, J Street – 27 MW, TBGS – 168.6 MW.

FACTORS AFFECTING LES AND THE ELECTRIC UTILITY INDUSTRY

General

The electric utility industry, in general, has been, and in the future may be, affected by a number of factors which could impact the financial condition and competitiveness of an electric utility and the level of utilization of generating facilities, such as those of LES. Such factors include, but are not limited to, (i) increases in costs of operation and construction of generating units, (ii) uncertainties in predicting future load requirements, (iii) shifts in availability and relative costs of different fuels, (iv) effects of compliance with rapidly changing environmental, safety, licensing, regulatory and legislative requirements, (v) other federal and state legislative and regulatory changes, (vi) self-generation by commercial and industrial customers, (vii) changes resulting from conservation and demand side management programs on the timing and use of electric energy, (viii) increased competition from independent power producers, marketers and brokers, (ix) issues relating to the ability to issue tax exempt obligations, (x) severe restrictions on the ability to sell to nongovernmental entities electricity from generation projects financed with outstanding tax exempt obligations and (xi) effects of competition from other electric utilities (including increased competition resulting from mergers, acquisitions, and strategic alliances of competing electric (and gas) utilities from competitors transmitting less expensive energy from much greater distances over an interconnected system) and new methods of producing low cost electricity, (xii) inadequate risk management procedures and practices with respect to, among other

things, the purchase and sale of energy and transmission capacity. Any of these factors could have an effect on the financial condition of any given electric utility and will likely affect individual utilities in different ways.

LES cannot predict what effects such factors will have on its business operations and financial condition of LES, but the effects could be significant. The following sections provide a brief discussion of certain of these factors. However, this discussion does not purport to be comprehensive or definitive, and these matters are subject to change after the date of this Offering Memorandum. Extensive information on the electric utility industry is, and is expected to be, available from legislative and regulatory bodies and other sources in the public domain, and potential purchasers of the securities of LES should obtain and review such information.

Federal Tax Issues

In September 2002, the U.S. Department of Treasury issued final private use regulations that provide guidance to issuers of tax-exempt bonds for electric output facilities. The regulations took effect November 22, 2002, replacing temporary and proposed regulations released in January 2001. The final regulations provide that tax-exempt bonds may be issued to finance costs attributable to the government use portion of a mixed-use output facility without the bonds being characterized as private activity bonds. Operation of transmission facilities of public power utilities that participate in independent transmission operations approved by the FERC will generally not result in private use. In addition, providing ancillary services that are required as part of an open access transmission tariff under FERC rules does not result in private business use.

Environmental and Other Permits and Approvals

Electric utilities are subject to continuing environmental regulation. Federal, state and local standards and procedures which regulate the environmental impact of electric utilities are subject to change. These changes may arise from continuing legislative, regulatory, and judicial action regarding such standards and procedures. Consequently, there is no assurance that LES' facilities will remain subject to the regulations currently in effect, will always be in compliance with future regulations, that LES can anticipate the outcome of current regulatory and legislative process, or will always be able to obtain all required operating permits. An inability to comply with environmental standards could result in additional capital expenditures to comply, reduced operating levels or the complete shutdown of individual units not in compliance.

Clean Air Act. The Federal Clean Air Act, as amended (the "Clean Air Act"), regulates emission of air pollutants, establishes national air quality standards for major pollutants, and requires permitting of both new and existing sources of air pollution. Among the provisions of the Clean Air Act that affect operations are (1) the acid rain program, which requires nationwide reductions of sulfur dioxides ("SO2") and nitrogen oxides ("NOx") from existing and new fossil fuel electric generating plants, (2) provisions related to toxic or hazardous pollutants, and (3) requirements to address regional haze.

The Clean Air Act established an allowance market system known as the Acid Rain Program. The Acid Rain Program was implemented in two phases. Phase I, which started in 1990, required approximately 261 fossil-fired units in 21 states to limit SO₂ emission rates to 2.5 lbs/mmBtu by January 1, 1995. Phase II then required all fossil-fired units over 75 MW to further limit SO₂ emission rates to 1.2 lbs/mmBtu by January 1, 2000. Under the emission allowance system, each affected generating facility is issued, annually, a number of allowances, for a future year based upon a variety of factors. No utility may emit more tons of SO₂ in a year than is authorized by the total allowances it holds. An "allowance" is an authorization to emit one ton of SO₂ during or after a specified year. The use of

allowances is not restricted to a specific unit or plant. Allowances not needed by a utility for its own emissions may be banked for future use, or they may be sold or otherwise transferred. The Act provides that where a utility purchases power from an affected unit under life-of-the-unit, firm power contractual arrangements, allowances and the proceeds of transactions involving allowances will be deemed to be held or distributed in proportion to each holder's contractual reservation or entitlement, or in accordance with the provisions of a contract between the parties which expressly provides for a different distribution of allowances. LES has been receiving its pro rata share of allowances issued for generating units in which it has entitlements.

The Clean Air Act also provides for a comprehensive program for the control of hazardous air pollutants, commonly referred to as Maximum Achievable Control Technology ("MACT"). For electric utility steam generating units, the Clean Air Act directed the EPA to perform a study of the reasonably anticipated risks to public health from the emission of the listed toxic substances from electric utility steam generating units.

In March 2005, the EPA issued the Clean Air Interstate Rule ("CAIR"), which was intended to reduce overall NO_x and SO₂ emissions on a regional basis effective in 2009 and 2010, respectively, with a second phase taking effect in 2015. Of the three states in which LES has generation holdings, Nebraska, Wyoming, and Iowa, only Iowa was impacted by CAIR. On July 11, 2008, the United States Court of Appeals for the D.C. Circuit vacated EPA's CAIR regulations, remanding CAIR to EPA to issue new regulations consistent with Clean Air Act and the Court's decision. On December 23, 2008, the Court modified its remand order so that existing CAIR regulatory programs would remain in effect until the EPA issued revised regulations. On July 6, 2010, the EPA issued a proposed rule (the "Transport Rule") in response to the D.C Circuit Court of Appeals decision that would require significant reductions in SO₂ and NO_x emissions in a number of states, including the States of Nebraska and Iowa. The Transport Rule was finalized on July 6, 2011 and is now known as the Cross-State Air Pollution Rule ("CSAPR"). The final rule, which was issued with an effective date of January 1, 2012, affected the operation of the coal-fired generating stations in certain targeted states. As a result, the State of Nebraska and many other states and utilities filed petitions for review with the United States Court of Appeals for the D.C. Circuit challenging CSAPR and a number of petitioners also filed motions for a stay of its implementation and the effective date. On December 30, 2011, the D.C. Circuit Court of Appeals entered an order which granted all motions to stay CSAPR, directed petitioners to prepare the briefing for the cases so they can be heard by the Court by April 2012, and stating the Court expected EPA to continue administration of CAIR pending the Court's resolution of the petitions for review. In subsequent orders, the Court set March 16, 2012, as the deadline for submittal of final briefs by all parties and set oral arguments on the petitions for review for April 13, 2012. The D.C. Circuit Court vacated CSAPR on August 21, 2012. On January 24, 2013, the Court denied EPA's petition for rehearing en banc of the Court's August 2012 decision to vacate the Cross-State Air Pollution Rule.

On November 9, 2011 the EPA agreed in a consent decree with environmental group plaintiffs to a schedule for taking action on each of the 45 Regional Haze state implementation plans ("SIP"). The consent decree by itself does not establish any specific control requirement on any specific emission source. Rather, the consent decree establishes a schedule by which EPA will promulgate rules under the Regional Haze Program to take one or more of the following actions on each SIP: approve a SIP, disapprove a SIP, approve a SIP in part and disapprove a SIP in part or issue a federal implementation plan. Under the consent decree, EPA agreed with respect to the Nebraska Regional Haze SIP to promulgate a proposed rule by February 15, 2012 and promulgate the final rule by June 15, 2012. On July 6, 2012, the EPA finalized a rule for partial approval and partial disapproval of a revision to the State Implementation Plan (SIP) for Nebraska, relating to Regional Haze. This rule is under review.

On December 23, 2011, EPA issued a proposal to revise rules pertaining to the Regional Haze Program that would approve the trading program as an alternative to determining BART for power plants. As a result, states in the CSAPR region may substitute the trading program in CSAPR for source-specific BART for SO₂ and/or NO_x emissions as specified by CSAPR. A state subject to a trading program established in accordance with CSAPR need not require BART-eligible fossil fuel-fired electric steam generating plants in the state to install, operate, and maintain BART for the pollutant covered by such trading program in the state. A state that chooses to meet the emission reduction requirements of the CSAPR by submitting a SIP revision that establishes a trading program and is approved as meeting the requirements of CSAPR also need not require BART-eligible fossil fuel-fired electric steam generating plants in the state to install, operate, and maintain BART for the pollutant covered by such trading program in the state. This rule is on hold as CSAPR has been vacated.

Greenhouse Gases. In October 30, 2009, the EPA published the final rule for mandatory monitoring and annual reporting of GHG emissions from various categories of facilities including fossil fuel suppliers, industrial gas suppliers, direct GHG emitters (such as electric generating facilities and industrial processes), and manufacturers of heavy-duty and off-road vehicles and engines. This rule does not require controls or limits on emissions, but requires data collection which began on January 1, 2010. The first annual reports were filed on September 30, 2011. Future reporting will be due by March 31 each year.

On March 29, 2010, EPA declared its position that air pollutants that are regulated under any program of the Clean Air Act must be taken into account when considering permits issued under programs of any other regulatory act or standard, such as the Prevention of Significant Deterioration ("PSD") permit program. A PSD permit is required before commencement of construction of new major stationary sources or major modifications of such sources. As a result of this determination, the effect of the new motor vehicle rule will be to require the analysis of emissions and control options with respect to Green House Gas ("GHG") emissions from new and modified major stationary sources as of January 2, 2011, which is the date the new motor vehicle rule took effect. Permitting requirements for GHGs will include, but are not limited to, the application of Best Available Control Technology ("BACT") for GHG emissions and monitoring, reporting, and record keeping for GHGs.

On May 13, 2010, EPA issued a final rule for determining the applicability of the PSD program to GHG emissions from major sources. The rule, known as the "Tailoring Rule," establishes criteria for identifying facilities required to obtain PSD permits and the emissions thresholds at which permitting and other regulatory requirements apply.

Beginning in January 2011, sources that are subject to PSD or Title V permits due to their non-GHG emissions (such as fossil-fuel based electric generating facilities for their NOx, SO2, and other emissions) will have to address GHG emissions in new permit applications or renewals. Construction or modification of major sources will become subject to PSD requirements for their GHG emissions if the construction or modification results in a net increase in the overall mass of GHG emissions exceeding 75,000 tons per year on a CO2e basis. New and modified major sources required to obtain a PSD permit would be required to conduct a BACT review for their GHG emissions. The EPA issued guidance in November 2010 on the technologies or operations that would constitute BACT for GHGs. A PSD permit would require the installation of BACT for GHGs. At this time, since there does not exist any commercially available CO2 capture and sequester technology, BACT would be some kind of facility efficiency requirements. These would have to be negotiated with the NDEQ and EPA and placed in the PSD permit. With respect to Title V requirements, as of January 2, 2011, the final Tailoring Rule does not amend or reinterpret existing Title V regulations on transitions to new pollution control requirements.

Mercury Regulation. On March 15, 2005, the EPA issued the Clean Air Mercury Rule ("CAMR"), to permanently cap and reduce mercury emissions from coal-fired power plants. On February 8, 2008, the D.C. Circuit vacated EPA's rule removing power plants from the Clean Air Act list of sources of hazardous air pollutants. At the same time, the Court vacated the CAMR.

On March 16, 2011, the EPA issued a proposed rule intended to reduce emissions of toxic air pollutants from power plants. The final rule was released by EPA on December 21, 2011 ("Mercury and Air Toxics Standards Rule") and is largely the same as the proposed rule. EPA expects the Mercury and Air Toxics Standards Rule will reduce emissions from new and existing coal- and oil-fired steam utility electric generating units of heavy metals, including mercury, arsenic, chromium, nickel, dioxins, furans, and acid gases, including hydrogen chloride and hydrogen fluoride. These toxic air pollutants are also known as hazardous air pollutants.

For all existing and new coal-fired electric generating units, the Mercury and Air Toxics Standards Rule establishes numerical emission limits for mercury, particulate matter, a surrogate for toxic non-mercury metals, and hydrogen chloride, a surrogate for acid gases.

Generating units have three years to comply with the Mercury and Air Toxics Standards Rule after the rule becomes effective in early 2012. Upon request, a one-year extension for compliance could possibly be granted.

New Source Performance Standards. The EPA reached a legal settlement to establish New Source Performance Standards ("NSPS") for new and modified power plants and emission guidelines for existing power plants. EPA committed to issuing proposed regulations by July 26, 2011 and final regulations by May 26, 2012. However, the issuance of the new guidelines has been delayed and no new timeline has been announced at this time. In addition to the NSPS requirements established for new and modified sources, EPA must establish emission guidelines that states use to develop plans for reducing emissions from existing sources. The guidelines include targets based on demonstrated controls, emission reductions, costs and expected timeframes for installation and compliance, and can be less stringent than the requirements imposed on new sources. Under existing EPA regulations, states must submit their plans to EPA within nine months after the guidelines' publication unless EPA sets a different schedule. Each NSPS must be reviewed at least every eight years and, if appropriate, revised.

Clean Water Act. The Federal Clean Water Act regulates the discharge of process wastewater and certain storm water under the NPDES permit program. The water quality regulations require compliance with the state water quality standards, including sampling and monitoring of the waters around affected plants. Studies are performed to determine any changes necessary to comply with these regulations.

The Federal Clean Water Act contains requirements relating to the environmental impact of cooling water intake structures. Section 316(b) of the Clean Water Act requires that NPDES permits for facilities with cooling water intake structures ensure that the location, design, construction, and capacity of the structures reflect the Best Technology Available ("BTA") to minimize harmful impacts on fish and other aquatic life as the result of impingement or entrainment.

The EPA divided the 316(b) rulemaking process into three phases. Phase I, published in 2001, affected new facilities. Phase II, published in 2004, affected existing electric generating plants that use at least 50 MGD of cooling water. Phase III addresses other existing facilities, as well as new offshore and coastal oil and gas extraction facilities, designed to withdraw at least 2 MGD of water. In November 2010, the EPA signed a Settlement Agreement with Riverkeeper, Inc. regarding an appropriate

timeline in which to set Phase III technology standards for cooling water intake structures under Clean Water Act Section 316(b).

EPA issued a proposed rule under Section 316(b) on March 28, 2011, and closed the comment period for the proposed rule on August 18, 2011. Under a court-approved consent decree with environmental organizations the final Section 316(b) rule was to be issued by July 27, 2012. However, EPA was unable to issue its new rule by that date. EPA has now entered into a Second Amendment to the Settlement Agreement with Riverkeeper and other organizations, which provides that: "Not later than June 27, 2013, the EPA Administrator shall sign for publication in the Federal Register a notice of its final action pertaining to issuance of requirements for implementing Section 316(b) of the CWA at existing facilities."

Hazardous Substances and Wastes. Since the enactment of the Resource Conservation and Recovery Act, the Toxic Substances Control Act, and the Comprehensive Environmental Response Compensation and Liability Act, the electric utility industry has found ever increasing environmental regulations and requirements for dealing with hazardous materials and wastes. LES programs dealing with hazardous materials include audits of all disposal facilities, environmental audits of all properties bought or sold by LES, the issuance of oil and hazardous materials spill plans, and employee education on the proper handling of hazardous materials.

The EPA has proposed two options to regulate the disposal of coal combustion residuals ("CCR") under the Resource Conservation and Recovery Act ("RCRA") but under different programs of RCRA. One option would regulate CCR as hazardous waste under Subtitle C. The other option would regulate CCR as municipal or special waste under Subtitle D. Regulation as hazardous waste under Subtitle C could result in significant economic impacts as utilities would most likely not be able to market CCR products for "beneficial use" (e.g., flyash as an aggregate in concrete or flue-gas desulfurization solids for manufacture of wallboard). As less CCR materials could be marketed for use, greater volumes of CCR materials would be required to be stored in landfills. As current landfills would fill quicker than anticipated, additional landfills would need to be developed at significant costs. Regulation as hazardous waste under Subtitle C would impose stringent regulatory requirements associated with the handling, storage, and disposal of large volumes of hazardous wastes. Current Nebraska landfill regulations include location restrictions, standards for landfill liners, leachate collection and removal systems, as well as additional stringent permitting requirements, such as groundwater monitoring, fugitive dust control, closure and post-closure care, and financial assurance. The public comment period on the proposed options closed on November 19, 2010. As of April, 2013, the EPA has not issued a final rule.

Renewable Resources. The electric utility industry continues to experience significant pressure from customers and regulators to incorporate additional renewable generating resources into generation portfolios. Due to the intermittent production capability, resources such as wind and solar create operational and reliability risks to the system. In addition to operating risks, current generation production cost modeling suggests that certain types of renewable resources can increase power costs. However, LES recognizes renewable generation will have a greater role in the future. LES currently owns and operates the Salt Valley Wind Plant, located just north of Lincoln, which is comprised of two 660 kW wind turbines. LES has also entered into a power sales agreement with NPPD for 6 MW of wind capacity from its Elkhorn Ridge Wind Plant, located northwest of Norfolk, Nebraska and 10 MW of wind capacity from its Laredo Ridge Wind Plant, located north of Albion, Nebraska. Additionally, LES has entered into power sales agreements with NPPD for a 10 MW capacity share of the Broken Bow Wind Plant near Broken Bow, Nebraska, and a 3 MW capacity share of the Crofton Bluffs Wind Plant in Knox County, Nebraska.

LITIGATION

There are no cases pending that will have a materially adverse effect on LES.

CONTINUING DISCLOSURE

LES, on behalf of the City, has covenanted for the benefit of the holders and beneficial owners of the 2013 Bonds to provide certain financial information and operating data relating to LES by not later than May 31 of each year (the "Annual Report"), commencing with the report for the 2013 Fiscal Year, and to provide notices of the occurrence of certain enumerated events. The Annual Report and notices of events will be filed with the Municipal Securities Rulemaking Board ("MSRB"). The specific nature of the information to be contained in the Annual Report or the notices of material events may be found in "APPENDIX D: FORM OF CONTINUING DISCLOSURE UNDERTAKING." These covenants have been made in order to assist the Underwriters in complying with SEC Rule 15c2-12(b)(5) (the "Rule").

LES covenanted in connection with the issuance of prior Bonds to provide certain financial information, operating data and event notices in connection with the Rule. LES has been unable to determine whether the required filings were made for fiscal years prior to 2009. LES made the required annual filings on a timely basis for fiscal years 2009, 2010 and 2011. LES has now filed or re-filed all filings required to be made in the past five years and believes it is current with respect to all of its undertakings pursuant to the Rule during that period. LES believes that it now has procedures in place that will enable it to meet its continuing disclosure obligations on a timely basis in the future.

All Annual Reports and notices of Material Events required to be filed by LES pursuant to the Continuing Disclosure Undertaking must be submitted to the MSRB through the MSRB's Electronic Municipal Market Access system ("EMMA"). EMMA is an internet-based, online portal for free investor access to municipal bond information, including offering documents, material event notices, real-time municipal securities trade prices and MSRB education resources, available at www.emma.msrb.org.

FINANCIAL ADVISOR

Public Financial Management ("PFM"), Philadelphia, Pennsylvania, is serving as financial advisor to LES with respect to the sale of the 2013 Bonds. The financial advisor assisted in the preparation of this Official Statement and in other matters relating to the planning, structuring and issuance of the 2013 Bonds and provided other advice. PFM will not participate as an underwriter in any offer to purchase the 2013 Bonds.

UNDERWRITING

The 2013 Bonds are being purchased by the Underwriters identified on the cover page of this Official Statement (the "Underwriters") for whom Merrill Lynch, Pierce, Fenner & Smith Incorporated is acting as senior manager. The Underwriters have agreed, subject to certain conditions, to purchase the 2013 Bonds from LES at a price of \$81,733,826.27, which is the principal amount of the 2013 Bonds plus net original issue premium of \$6,447,309.85 less an underwriting fee of \$238,483.58 (which includes reimbursement of certain expenses) for their services in underwriting the 2013 Bonds. The 2013 Bonds may be offered and sold to certain dealers (including underwriters and other dealers depositing such Bonds into investment trusts) at prices lower than such public offering prices, and such public offering prices may be changed from time to time by the Underwriters.

Wells Fargo Securities is the trade name for the capital markets and investment banking services of Wells Fargo & Company and its subsidiaries, including Wells Fargo Bank, National Association.

Wells Fargo Bank, National Association ("WFBNA"), an underwriter of the 2013 Bonds, has entered into an agreement ("Distribution Agreement") with Wells Fargo Advisors, LLC ("WFA") for the retail distribution of certain municipal securities offerings, including the 2013 Bonds. Pursuant to the Distribution Agreement, WFBNA will share a portion of its underwriting compensation with respect to the 2013 Bonds with WFA. WFBNA and WFA are both subsidiaries of Wells Fargo & Company.

The Underwriters and their respective affiliates are full-service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. Certain of the Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various investment banking services for LES, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of LES.

LES intends to use a portion of the proceeds from this offering to redeem the 2005 Bonds. To the extent an Underwriter or an affiliate thereof is an owner of 2005 Bonds, such Underwriter or its affiliate, as applicable, would receive a portion of the proceeds from the issuance of the 2013 Bonds contemplated herein in connection with such 2005 Bonds being redeemed by LES.

RATINGS

Standard & Poor's Ratings Group, a division of The McGraw-Hill Companies ("S&P"), has assigned the 2013 Bonds the rating of "AA" and Fitch Investors Service, L.P. ("Fitch") has assigned the 2013 Bonds the rating of "AA." Such ratings reflect only the views of such organizations, and an explanation of the significance of such ratings may be obtained from Standard & Poor's Ratings Group, 55 Water Street, New York, New York 10041, telephone (212) 438-2124; and Fitch Investors Service, L.P., One State Street Plaza, New York, New York 10004, telephone (212) 908-0500.

There is no assurance that the above ratings will remain for any given period of time or that they may not be lowered, suspended or withdrawn entirely by any or all rating services if they deem circumstances are appropriate. Any downward change in, suspension or withdrawal of any or all ratings may have an adverse effect on the market price of the 2013 Bonds.

TAX MATTERS

In General. In the opinion of Kutak Rock LLP, Bond Counsel, to be delivered at the time of original issuance of the 2013 Bonds, under existing laws, regulations, rulings and judicial decisions, interest on the 2013 Bonds (including original issue discount treated as interest) is excludable from gross income for federal income tax purposes and is not a specific preference item for purposes of the federal alternative minimum tax. The opinion described in the preceding sentence assumes the accuracy of certain representations and continuing compliance by LES with covenants designed to satisfy the requirements of the Internal Revenue Code of 1986 ("Code") that must be met subsequent to the issuance of the 2013 Bonds. Failure to comply with such requirements could cause interest on the 2013 Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the

2013 Bonds. LES has covenanted to comply with such requirements. Bond Counsel has expressed no opinion regarding other federal tax consequences arising with respect to the 2013 Bonds.

Notwithstanding Bond Counsel's opinion that interest on the 2013 Bonds is not a specific preference item for purposes of the federal alternative minimum tax, such interest will be included in adjusted current earnings of certain corporations, and such corporations are required to include in the calculation of alternative minimum taxable income 75% of the excess of such corporation's adjusted current earnings over its alternative minimum taxable income (determined without regard to such adjustment and prior to deduction for certain net operating losses).

The accrual or receipt of interest on the 2013 Bonds may otherwise affect the federal income tax liability of the owners of the 2013 Bonds. The extent of these other tax consequences will depend upon such owner's particular tax status and other items of income or deduction. Bond Counsel has expressed no opinion regarding any such consequences. Purchasers of the 2013 Bonds, particularly purchasers that are corporations (including S corporations and foreign corporations operating branches in the United States), property or casualty insurance companies, banks, thrifts or other financial institutions, certain recipients of social security or railroad retirement benefits, taxpayers otherwise entitled to claim the earned income credit, and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax exempt obligations, should consult their tax advisors as to the tax consequences of purchasing or owning the 2013 Bonds.

Tax Treatment of Original Issue Premium. Certain of the 2013 Bonds have been sold at a premium (collectively, the "Premium Bonds"). An amount equal to the excess of the issue price of a Premium Bond over its stated redemption price at maturity constitutes premium on such Premium Bond. An initial purchaser of a Premium Bond must amortize any premium over such Premium Bond's term using constant yield principles, based on the purchaser's yield to maturity (or, in the case of Premium Bonds callable prior to their maturity, by amortizing the premium to the call date, based on the purchaser's yield to the call date and giving effect to any call premium). As premium is amortized, the amount of the amortization offsets a corresponding amount of interest for the period and the purchaser's basis in such Premium Bond is reduced by a corresponding amount resulting in an increase in the gain (or decrease in the loss) to be recognized for federal income tax purposes upon a sale or disposition of such Premium Bond prior to its maturity. Even though the purchaser's basis may be reduced, no federal income tax deduction is allowed. Purchasers of the Premium Bonds should consult with their tax advisors with respect to the determination and treatment of premium for federal income tax purposes and with respect to the state and local tax consequences of owning a Premium Bond.

Backup Withholding. As a result of the enactment of the Tax Increase Prevention and Reconciliation Act of 2005, interest on tax exempt obligations such as the 2013 Bonds is subject to information reporting in a manner similar to interest paid on taxable obligations. Backup withholding may be imposed on payments made after March 31, 2007 to any bondholder who fails to provide certain required information including an accurate taxpayer identification number to any person required to collect such information pursuant to Section 6049 of the Code. This reporting requirement does not in and of itself affect or alter the excludability of interest on the 2013 Bonds from gross income for federal income tax purposes or any other federal tax consequence of purchasing, holding or selling tax exempt obligations.

Exemption Under State Tax Law. In Bond Counsel's further opinion, under existing laws, regulations, rulings and judicial decisions, and assuming the accuracy of certain representations and continuing compliance with certain covenants, interest on the 2013 Bonds is exempt from all present State of Nebraska income taxes.

Changes in Federal and State Tax Law. From time to time, there are legislative proposals in the Congress and in the states that, if enacted, could alter or amend the federal and state tax matters referred to above or adversely affect the market value of the 2013 Bonds. In addition, regulatory actions are from time to time announced or proposed and litigation is threatened or commenced which, if implemented or concluded in a particular manner, could adversely affect the market value of the 2013 Bonds. It cannot be predicted whether any such regulatory action will be implemented, how any particular litigation or judicial action will be resolved, or whether the 2013 Bonds or the market value thereof would be impacted thereby. Purchasers of the 2013 Bonds should consult their tax advisors regarding any pending or proposed legislation, regulatory initiatives or litigation. The opinions expressed by Bond Counsel are based upon existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the 2013 Bonds, and Bond Counsel has expressed no opinion as of any date subsequent thereto or with respect to any pending legislation, regulatory initiatives or litigation.

VERIFICATION OF MATHEMATICAL COMPUTATIONS

Upon delivery of the 2013 Bonds, Robert Thomas CPA, LLC, independent certified public accountants will deliver to the City a report verifying the mathematical accuracy of certain computations relating to (a) the adequacy of the maturing principal amount of the securities held in the Escrow Fund, interest earned thereon and certain uninvested cash to pay the principal and redemption price of, and interest on, the Refunded Bonds (as described under "REFUNDING PLAN") as such principal and redemption price and interest become due and payable, and (b) the mathematical computations supporting the conclusion that the 2013 Bonds are not "arbitrage bonds" under Section 148 of the Code. Such verification of the accuracy of the computations will be based upon information supplied by the Financial Advisor and on interpretations of the Code provided by Bond Counsel.

APPROVAL OF LEGAL PROCEEDINGS

All legal matters incident to the authorization and issuance of the 2013 Bonds are subject to the approval of Kutak Rock LLP, Omaha, Nebraska, Bond Counsel, whose approving opinion in connection with the issuance of the 2013 Bonds in substantially the form attached hereto as "APPENDIX F: FORM OF OPINION OF BOND COUNSEL" will be delivered to the City. Certain legal matters with respect to the City will be passed upon by the Lincoln City Attorney, certain matters with respect to LES will be passed upon by its General Counsel and certain matters with respect to the Underwriters will be passed upon by Counsel to the Underwriters. Bond Counsel has not reviewed this Official Statement except for (a) the cover page hereof (other than yields or prices), (b) the portions hereof describing the 2013 Bonds and the Ordinance, (c) the sections entitled "DESCRIPTION OF THE 2013 BONDS," "SECURITY FOR THE 2013 BONDS," "CONTINUING DISCLOSURE" and "TAX MATTERS" and (d) "APPENDIX C: SUMMARY OF CERTAIN PROVISIONS OF THE ORDINANCE," "APPENDIX D: FORM OF CONTINUING DISCLOSURE UNDERTAKING" and "APPENDIX F: FORM OF OPINION OF BOND COUNSEL," and, except for such portions, Bond Counsel has not participated in the preparation of this Official Statement.

INDEPENDENT ACCOUNTANTS

The financial statements as of and for the year ended December 31, 2012 included in Appendix B in this Official Statement have been audited by BKD, LLP, independent auditors, as stated in their report appearing herein. Lincoln Electric System did not request BKD, LLP perform any updating procedures subsequent to the date of its audit report on the December 31, 2012 financial statements. The 2011 financial statements were audited by other auditors.

The issuance of this Official Statement and the signing thereof by the City's Interim Finance Director and LES' Administrator and CEO has been authorized by the City.

/s/ Steve Hubka Steve Hubka, Interim Finance Director

/s/ Kevin G. Wailes

APPENDIX A

GENERAL INFORMATION ON THE CITY OF LINCOLN

[THIS PAGE INTENTIONALLY LEFT BLANK]

THE CITY OF LINCOLN

General

Lincoln, the capital of Nebraska, is located in southeastern Nebraska near the center of population of the state. The City was originally incorporated in 1869. It is approximately midway between Chicago and Denver. It has an area of 91.76 square miles, and in its growth and development has annexed five other municipalities so that the City includes most of the urban area of Lancaster County. It enjoys a unique position in Nebraska as the center of the state governmental and educational activities.

Population

The 1980 population of the City was 171,932; the 1990 population was 191,972; the 2000 population was 225,588; and the 2010 population was 258,379, a 14.5 percent increase over the 2000 count. The 2010 count represents 90.5 percent of the population of Lancaster County, the county in which the City is located. The estimated 2012 population is 262,341.

City Government

The City, operating under a home rule charter, has a mayor-council form of government with an elected full-time chief executive, the Mayor, and an elected legislative body, the Council, composed of seven members. Three are elected at large and four by district on a nonpartisan basis for a term of four years. The administration of City government is performed under the direction of the Mayor by administrative departments.

City government has a broad range of responsibilities, including electric, water, and sanitary sewer systems, and an impressive park and playground system of over 6,503 acres maintained for public use, nine public swimming pools, and five public golf courses. The City has cooperated actively with the county government in several joint governmental buildings, and in other specific areas of responsibility, including health, planning, civil defense, data processing, tax collection, parks, and jail facilities. There are cooperative agreements with the United States government on parks and flood control, with the University of Nebraska on planning and property transfer, with the area Watershed District on flood control, and with the Lincoln School District on recreation.

Transportation

The Lincoln metropolitan area is served by Interstate 80, and U.S. Highways 2, 6, 34, and 77.

Lincoln is served by two commercial airports with daily shuttle service available between locations. The Lincoln Municipal Airport is located less than 10 minutes from downtown and has daily departures to Atlanta, Chicago, Denver, Memphis, and Minneapolis. Eppley Airfield, located in east Omaha, is 65 minutes from downtown Lincoln and offers service from 22 airlines. Together the two airports offer more than 100 arrivals and departures daily. The Lincoln Municipal Airport also offers General Aviation services. The General Aviation runway is 8,649 feet long, and the runway is lit dusk to dawn.

Railroad transportation facilities include those of Burlington Northern/Santa Fe and Union Pacific, both maintaining yards in Lincoln. AMTRAK provides daily passenger and package express services. Ground transportation is furnished by Greyhound/Black Hills Stage Lines, multiple taxi companies and local StarTran bus services.

The average commute in Lincoln is 19 minutes and nearly 18 percent of area commuters spend less than 10 minutes on the road.

Government Center

The State Capitol, an architectural achievement located in Lincoln, is considered one of the most impressive in all the 50 states. Other state governmental facilities in the City include the Nebraska Educational Telecommunications facility, the Nebraska Game and Parks Commission headquarters, the Lincoln Regional Center (state hospital), and the Nebraska Penal Complex.

Federal agencies in Lincoln include regional offices of the U.S. Department of Agriculture (Mid-West Regional Technical Service Center), the Immigration & Naturalization Service and the Veterans Administration, as well as the state offices of other federal agencies. There is also a U.S. Veterans Medical Facility.

Lancaster County offices are also located in Lincoln, the county seat.

Education

The University of Nebraska, with approximately 24,610 students, Nebraska Wesleyan University, with approximately 2,138 students, Union College, with approximately 901 students, Kaplan University, with approximately 690 students and Southeast Community College, with approximately 12,242 students and with a number of facilities for both full-time and part-time occupational training, are located in the City of Lincoln. The City's modern and progressive school system, with an enrollment of over 36,902 is served by 6 high schools, 11 middle schools, and 37 elementary schools. Lincoln is home to nearly 30 private and parochial schools. Lincoln's private school offerings range from pre-K to high school institutions. Affiliations include Roman Catholic, Lutheran, SDA, and nondenominational Christians.

¹ City of Lincoln, Building and Safety Department.

Police and Fire Protection

Lincoln has fourteen fire stations manned by 282 firefighters and three police stations with 319 police officers.

City Employee Information

For the 2012-2013 fiscal year, contracts have been signed with all but two of our unions. Unions include: the Lincoln Police Union (LPU) representing police officers; the International Association of Firefighters (IAF) representing firefighters, the Amalgamated Transit Union (ATU) representing transit workers, the Public Association of Government Employees (PAGE) representing labor, trades, and clerical personnel, the City Employees Association (CEA) representing supervisory, highly technical, and professional personnel, and the Lincoln M Class Employees Association (LMCEA) representing upper management, administration and professional personnel. The ATU and IAF contracts are awaiting City offers and expected to be finalized soon. The ATU contract will likely expire at the end of August, 2013. All other contracts will expire at the end of August, 2014.

Since the inception of labor contracts in 1970, the City of Lincoln has been able to handle its labor relations in such a manner as to avoid interruptions, although it has been necessary to use the facilities of the Nebraska Commission of Industrial Relations on issues involving the International Association of Firefighters, International Brotherhood of Police Officers, and the Public Association of Government Employees.

Authority to Levy Taxes

Article IX, Section 3 of the Home Rule Charter of the City provides that the City shall have power to levy a tax each year for general revenue purposes upon all property subject to taxation; provided that the maximum amount of taxes that can be levied by the City in any one year for general revenue purposes shall not exceed an amount known as the City tax limit. The City tax limit is a tax ceiling established by using the September 1, 1966 City dollar tax limit as an initial tax limit, and increasing that tax limit each year following 1966 by 7% so that in each fiscal year thereafter, the amount of the City tax limit shall be the amount of the city tax limit for the previous year, plus 7% thereof. In addition, the City also has the power to levy taxes each year sufficient to pay any judgment existing against the City and the interest on bonded debt and the principal on any bonded debt maturing during the fiscal year or within six months thereafter, as well as taxes authorized by state law. The City is also authorized to receive all taxes collected and distributed pursuant to state law and in lieu of tax payments imposed by law. The 2012 tax levy for the 2012-2013 fiscal year is \$107,939,017 below the legal limit, a tax rate per \$100 valuation of .31580. The assessed value upon which the 2012 levy is based is \$16,676,196,896. By charter, only 90% of the property tax levy may be appropriated.

For the 2012-2013 fiscal year the City is subject to a state imposed lid on the appropriation of "restricted funds", that are revenues received from property tax, sales tax, state aid, in-lieu of tax and highway allocation fees. Bonded indebtedness, capital improvements, and costs associated with inter local agreements are exempt from the lid. For 2012-2013 the City can also use authority equal to the greater of 2.5% or the amount of real growth in the tax base that was 4.88%. An additional 1% can be authorized by a 75% vote of the City Council and was utilized for the 2012-2013 budget. The 2012-2013 budget is \$9,362,458 below the state imposed lid limit.

PROPERTY TAX LEVIED AND COLLECTED LAST TEN YEARS

The fiscal year of the City begins September 1 and ends August 31. Taxes are levied in October. First installments of real estate taxes are delinquent the following April 1, second installments delinquent August 1; personal property taxes are delinquent April 1 and August 1. Delinquent taxes bear 14 percent interest. The figures below include interest and penalties. The figures below do not include motor vehicle in lieu of ad valorem taxes.

The City issues general obligation, special assessment, and revenue bonds to finance the acquisition and construction of major capital assets. Bonded indebtedness has also been entered into to advance refund several general obligation and revenue bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the government. Special assessment bonds are repaid from amounts levied against affected property owners, but in the unlikely event collections are not sufficient to make debt payments, the responsibility rests with the City to meet that obligation. For revenue bonds the government pledges income derived from the acquired or constructed assets to pay the debt service.

Net assets of \$4,447,455, \$2,847,674, \$10,305,977, and \$363,083 are currently available in the debt service funds to service the General Obligation Bonds, Tax Supported Bonds, Tax Allocation Bonds, and Special Assessment Bonds, respectively. Revenue Bonds are funded partially from reserve accounts set up for debt repayment and partially from proceeds of daily operations.

The City has entered into lease agreements for financing the acquisition of land, buildings, street lights, emergency ambulances and defibrillators, fire engines, golf equipment and computer equipment and software. These lease agreements

qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Assets acquired through capital leases are as follows:

	_	Governmental Activities	 Business-Type Activities
Land	\$	1,774,450	\$ 210,000
Buildings		19,307,004	-
Improvements		219,925	-
Infrastructure		15,475,023	-
Machinery and Equipment		4,699,356	3,122,785
Construction In Progress		672,247	160,297
Less Accumulated Depreciation,			
(where applicable)		(6,939,014)	 (2,219,160)
Total	\$	35,208,991	\$ 1,273,922

Under the City's Home Rule Charter, there is no legal debt limit. The various bond indentures contain significant limitations and restrictions on annual debt service requirements, minimum amounts to be maintained in various bond reserve funds, and minimum revenue bond coverage.

The general obligation debt of all local governmental units which provide services within the City's boundaries and which debt must be borne by properties in the City (commonly called overlapping debt) as of August 31, 2012, is summarized below (unaudited):

	Debt	Estimated Percentage		Direct And Overlapping Debt
Governmental Units	Outstanding	Applicable		To The City
Direct:		<u> </u>		
City \$	413,958,000	100.0 %	\$	413,958,000
Overlapping:				
School District #1	351,443,000	99.5		349,686,000
Lower Platte South N.R.D.	-	75.4		-
Lancaster County	1,070,000	85.4		914,000
Public Building Commission	39,270,000	85.4		33,537,000
Lancaster County Correctional Facility	57,130,000	85.4		48,789,000
Lancaster County Fairgrounds	8,115,000	85.4		6,930,000
	457,028,000			439,856,000
Total \$	870,986,000		\$ _	853,814,000
•			_	

The City has no direct liability for the School District, Lower Platte South N.R.D., Lancaster County, Public Building Commission, Lancaster County Fairgrounds or Lancaster County Correctional Facility debt summarized above. This results in a per capita direct City debt of \$1,577.94; a per capita direct and overlapping debt of \$3,254.60; a ratio of direct City debt to 2012 actual valuation of 2.60 percent; and a ratio of direct and overlapping debt to 2012 actual valuation of 5.37 percent.

In addition to the governmental units listed above, the Airport Authority of the City of Lincoln, Nebraska (the "Airport Authority"), a body politic and corporate separate and distinct from the City of Lincoln, provides services within the City's boundaries and has overlapping general obligation indebtedness. As of June 30, 2012, the Airport Authority had outstanding \$9,540,000 in aggregate principal amount of its general obligation airport bonds. The Airport Authority anticipates that such bonds will be paid from revenues derived from its operations of the Lincoln Municipal Airport, but the Airport Authority is authorized to levy a property tax, at a rate not to exceed three and five-tenths cents (\$.035) on each \$100 of taxable valuation, on all the taxable property in the City. The Airport Authority has not levied a property tax since 1985 for any purpose, including airport operating expenses or debt service on its bonds.

Debt Payment Record

The City of Lincoln has never defaulted on its obligation to pay principal or interest on its indebtedness.

Contingencies

The City is a defendant in a number of lawsuits in its normal course of operations and management is of the opinion that ultimate settlement of such lawsuits will not have a materially adverse effect on the financial statements.

RATIO OF ANNUAL DEBT SERVICE EXPENDITURES FOR GENERAL BONDED DEBT TO TOTAL GENERAL EXPENDITURES LAST TEN FISCAL YEARS

Independent Auditor's Report

Administrative Board Lincoln Electric System Lincoln, Nebraska

Report on the Financial Statements

We have audited the accompanying basic financial statements of Lincoln Electric System, which are comprised of a balance sheet as of December 31, 2012, and a statement of revenues, expenses and changes in net position and statement of cash flows for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lincoln Electric System as of December 31, 2012, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Prior Year Audited by Other Auditors

The 2011 financial statements were audited by other auditors and their report thereon, dated March 31, 2012, expressed an unmodified opinion.

Emphasis of Matter

As discussed in Note 1 to the financial statements, in 2012 LES adopted the regulated operations provisions of GASB Statement No. 62. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

BKD,LLP

Lincoln, Nebraska March 29, 2013

Management's Discussion and Analysis December 31, 2012 and 2011

SIGNIFICANT EVENTS

- LES issued \$277.3 million in tax-exempt bonds (dated August 9, 2012) to refund existing bonds, which were issued between 2002 and 2005 at higher rates, to pay off a portion of outstanding commercial paper and to reimburse LES for previously incurred capital construction expenditures.
- Following the stay of the Cross State Air Pollution Rule by the court in late 2011, \$3.2 million of related budgeted costs were refunded to customers beginning in March 2012.
- The Rate Stabilization Fund increased by \$1.5 million to \$15.2 million. The fund provides a method of mitigating risks that may occur from unforeseen events or one-time, non-reoccurring events which may have a significant financial impact on LES such as damage from a storm or an unplanned power station outage.

FINANCIAL STATEMENT OVERVIEW

We are providing this discussion to you the reader of our financial statements to explain the activities, plans and events which impacted our financial position for the years ended December 31, 2012, 2011 and 2010. This overview from management should provide information that is one of the three components of the entire financial statement. The other two components are the financial statements and notes to the financial statements. Please read the entire document to understand the events and conditions impacting Lincoln Electric System (LES).

Balance Sheets - This statement presents assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position. Assets and liabilities are each divided to distinguish current versus non-current. The balance sheet reveals liquidity, financial flexibility, and capital structure.

Income Statements - Operating results are separated into operating revenue and expense, non-operating revenue and expense, and capital contribution revenue and expense. This statement is useful in analyzing financial health.

Statements of Cash Flows - This statement classifies sources and uses of cash summarizing by operating, non-capital financing, capital and related financing, and investing activities.

Notes to Financial Statements - The notes are an explanation of information on the Financial Statements.

OPERATING RESULTS CONDENSED BALANCE SHEETS

Over time, the difference between the assets and liabilities may indicate a change in the financial status of LES, but the financial statement must be viewed from the perspective of the entire document.

Comparison of 2012 to 2011

Total assets increased \$34.7 million in 2012 from 2011, or 3.4%. Current assets increased by \$22.9 million resulting from the use of bond proceeds to reimburse the revenue fund for local transmission and distribution projects paid from operating funds. A transfer of \$1.5 million was made into the Rate Stabilization Fund in 2012 due to better than budgeted financial performance. The balance in accounts receivable combined with unbilled revenue decreased because of weather patterns. Materials, supplies and fuel inventory increased due to normal value increases. Non-current assets decreased \$1.4 million due to reduced bond reserve requirements and amortization of deferrals. Capital assets increased \$13.2 million from normal capital spending for utility construction and acquisition projects, net of depreciation.

Current liabilities decreased \$35.6 million primarily due to the payoff of \$40 million of outstanding commercial paper. Non-current liabilities increased \$65.2 million due to the 2012 Bond Issue. Net position increased from 2012 net revenue of \$5.1 million.

Comparison of 2011 to 2010

Total assets increased \$39.0 million in 2011 from 2010, or 4.0%. Current assets increased by \$41.0 million resulting from the proceeds of additional commercial paper notes issued to reimburse the revenue fund for capital projects paid from operating funds. A transfer of \$3.7 million was made into the Rate Stabilization Fund in 2011. Non-current assets decreased \$4.3 million due to amortization of deferrals and adjustment of bond reserve funds. Capital assets increased \$2.2 million from normal capital spending for utility construction and acquisition projects, net of depreciation.

Current liabilities increased \$42.3 million from the issuance of \$38.5 million of additional commercial paper notes. Non-current liabilities decreased \$18.9 million due to payment of bond principal. Net position increased from 2011 net revenue of \$15.6 million.

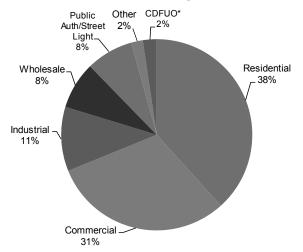

CONDENSED INCOME STATEMENTS

(Condensed Statements of Revenues, Expenses, and Changes in Net Position)

	2012		2011		2010
	(Dollars in thousands)				
Operating Revenue	\$ 276,110	\$	269,043	\$	261,377

Comparison of 2012 to 2011

2012 Operating Revenue

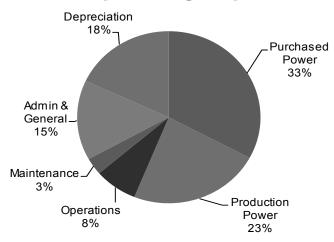

* City Dividend for Utility Ownership

Operating expense in 2012 increased by a total of 6%. Power cost increased from base load resource outages. Operation and maintenance expense increased due to more regulatory compliance expense than the prior year and higher transmission expense. Administrative and general expense was comparable to that of 2011. Depreciation expense increased due to utility plant additions and amortization of software.

Overall, net position increased by \$5.1 million from 2011.

Operating revenue in 2012 was 3% higher than 2011. Retail revenue was 3% higher due to the impact of a 3.5% rate increase on January 1, 2012, and energy sales were up 1%. Wholesale revenue decreased 20% with an energy sales decrease of 21%. Other revenue was up 69% due mainly to the city dividend for utility ownership. The city dividend for utility ownership added \$6.5 million in revenue; up \$4.4 million due to its implementation in late 2011.

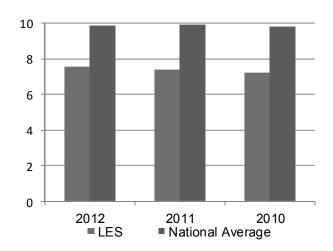

2012 Operating Expense

RATES

Average Retail Rates

(Cents per kWh)

Note

LES' average retail rates per kWh (Kilowatthour) compare very favorably to the national average for retail rates according to the Energy Information Administration (EIA), U.S. Department of Energy (preliminary year-to-date December 2012). Average LES customer retail rates were 7.58, 7.38 and 7.21 cents per kWh in 2012, 2011 and 2010. Based on the preliminary EIA data for 2012, LES' retail rates were 13.2% below the national average.

Comparison of 2011 to 2010

Operating revenue in 2011 was 3% higher than 2010. Retail revenue was 2% higher due to the impact of a 2.5% rate increase on January 1, 2011. Energy sales were comparable to 2010 as the weather and the economy were similar. Wholesale revenue increased 5% with an energy sales increase of 11%. Other revenue was up 38% due mainly to the city dividend for utility ownership. The city dividend for utility ownership, which started in September of 2011, added \$2.0 million to operating revenue.

Operating expense increased 4% in total. Power cost increased from higher energy sales. Operation and maintenance expense increased from higher transmission expense and less capital construction due to the economy and more maintenance than the prior year. Administrative and general expense was higher because of increased customer service expense and regulatory compliance cost. Depreciation expense increased from utility plant additions and amortization of new software.

Overall, net position increased by \$15.6 million from 2010.

CASH AND FINANCING ACTIVITIES

CONDENSED STATEMENTS OF CASH FLOWS

	2012		2011		2010
	(Dollars in thousands)				
Cash Flows from Operating Activities	\$ 95,412	\$	100,296	\$	89,740
Cash Flows from Non-Capital Financing Activities	(17,685)		(11,118)		(10,327)
Cash Flows from Capital and Related Financing Activities	(57,889)		(49,750)		(88,823)
Cash Flows from Investing Activities	(16,528)		(52,606)		(8,975)
CHANGE IN CASH & CASH EQUIVALENTS	\$ 3,310	\$	(13,178)	\$	(18,385)

Cash flows from operating activities contain transactions involving customers, suppliers and employees.

Cash flows from non-capital related financing activities contain transactions related to the payment in lieu of tax and city dividend for utility ownership.

Cash flows from capital and related financing activities contain transactions involving the acquisition and construction of capital assets and the long-term debt related to that capital.

Cash flows from investing activities contain transactions related to security purchases and maturities and interest income.

Comparison of 2012 to 2011

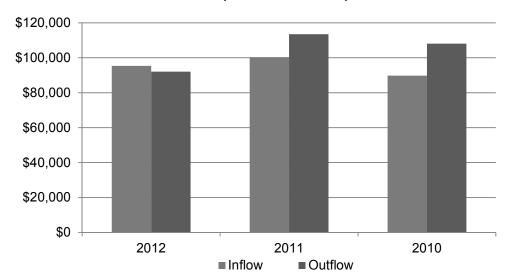

Cash from operating activities was \$95.4 million, down \$4.9 million from 2011 resulting from higher operating expense offset by increased revenue from an electric rate increase in 2012. Cash from non-capital financing activities decreased \$6.6 million due to the city dividend for utility ownership. Cash from capital and related financing activities decreased \$8.1 million due to the acquisition and construction of capital assets. Cash from investing activities is up \$36.1 million due to the greater availability of funds to invest from the \$38.5 million of commercial paper notes sold in 2011.

Comparison of 2011 to 2010

Cash from operating activities was \$100.3 million, up \$10.6 million from 2010 resulting from an electric rate increase in 2011. Cash from capital and related financing activities increased \$39.1 million, primarily due to \$38.5 million received from the 2011 issuance of additional commercial paper notes. Cash flow from investing activities decreased \$43.6 million in 2011 due to the purchase of investments related to the \$38.5 million received from commercial paper notes.

Annual Cash Flows

(Dollars in thousands)

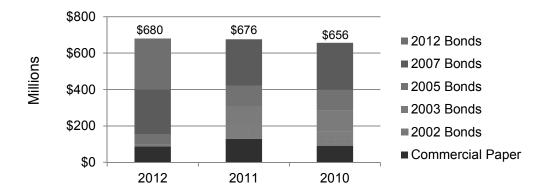

FINANCING

During 2012 LES issued \$277.3 million in tax-exempt bonds with maturities ranging from 2013 to 2037 and yields ranging from 0.25 percent to 3.70 percent. Proceeds from the bond sale were used to refund existing bonds that were previously issued at higher rates, pay off \$40 million of outstanding commercial paper, and reimburse LES for \$45 million of previously incurred capital construction expenditures. The present value savings from the refunding of existing debt was approximately \$28.1 million, or 13.3 percent.

Outstanding Debt

(As of 12/31)

RATINGS

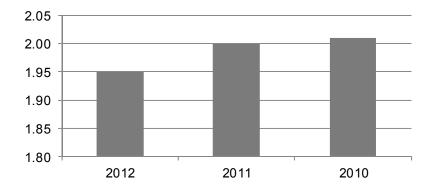

In establishing a company's credit rating, bond ratings agencies take into account both operating characteristics and financial strength. Standard & Poor's Ratings Group ("S&P") and Fitch Investors Service, L.P. ("Fitch") has assigned ratings to LES that are among the highest granted to electric utilities. Ratings are reflective of LES' strong ability to meet its debt service requirements.

LES is required to have ratings from two ratings agencies upon the issuance of new bonds. Although Moody's continues to rate LES debt issued prior to 2012, Moody's was not requested to rate the 2012 Bond Issue. The following table provides the ratings for outstanding debt.

	S&P	Fitch	Moody's
2012 Bonds	AA	AA	N/A
2007 Bonds	AA	AA	Aa2
2005 Bonds	AA	AA	Aa2
2003 Bonds	AA	AA	Aa2
Commercial Paper	A-1+	F1+	

Bond reserves are set in accordance with terms stated upon issuance. All reserves are fully funded.

DEBT SERVICE COVERAGE

Note

LES' bond ordinance establishes a debt service coverage requirement of 1.0. Typically, LES targets year-end debt service coverage at 2.0. LES targeted 1.95 debt service coverage in 2012 as part of a rate mitigation strategy.

The following table reflects the calculation of the debt service coverage ratio. The ratio reflects LES' year-end funds available to pay its debt service.

DEBT SERVICE COVERAGE

	2012		2011		2010
	(Dollars in thousands)				
Operating Revenues	\$ 276,110	\$	269,043	\$	261,377

Interest Income*	160		193		371
Addition to Rate Stabilization Fund	(1,500)		(3,700)		(2,000)
Earnings Available for Debt Service	\$ 90,212	\$	92,279	\$	92,359
Debt Service **	\$ 46,264	\$	46,116	\$	45,870
DEBT SERVICE COVERAGE RATIO	1.95		2.00		2.01

^{*}Excludes interest income on Rate Stabilization Fund.

CAPITAL

Capital Expenditures

^{**}Beginning in 2012 the calculation of Debt Service excludes allowance for funds used during construction and interest on commercial paper.

Significant projects in progress during 2012 included:

- The Central Lincoln Reliability Project includes installation of 5.2 miles of distribution lines to replace aging cables, meet the growing demand for electricity in central Lincoln, and improve system reliability. Total project cost is estimated at \$27.3 million and the project is expected to be completed in 2013.
- Construction began in the summer of 2012 to upgrade the 115-kV transmission line that runs between SW 33rd Street & Denton Road to the Sheldon Station near Hallam, NE. This project has an estimated total project cost of \$5.8 million.
- Construction of a 4 MW (Megawatt) landfill gas-based power generating facility sourced from the Bluff Road Landfill. The total project cost estimate is \$12.9 million and is expected to be completed in 2013.
- Due to the completion of major computer software projects and a new Data Center, capital expenditures on "Equipment" decreased from prior years.

CONTACT INFORMATION

This financial report is designed to provide a general overview of LES' financial status for 2012, 2011 and 2010. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Vice President and Chief Financial Officer at 1040 "O" Street, Lincoln, Nebraska 68508.

Notes to Financial Statements
December 31, 2012 and 2011

Note 1: Summary of Significant Accounting Policies

Reporting Entity

Lincoln Electric System (LES) is a municipal utility owned by the City of Lincoln, Nebraska (the City). LES is operated under the direction of the Lincoln Electric System Administrative Board, which is appointed by the Mayor and City Council. The City Council, as required by the City Charter, reserves authority to set the rates and charges, to adopt the annual budget, and to incur debt. LES' service area covers approximately 200 square miles, including the city limits of Lincoln, as well as the surrounding communities and residential areas.

In evaluating how to define LES for financial reporting purposes, management has considered all potential component units for which financial accountability may exist. The determination of financial accountability includes consideration of a number of criteria, including: (1) LES' ability to appoint a voting majority of another entity's governing body and to impose its will on that entity, (2) the potential for that entity to provide specific financial benefits to or impose specific financial burdens on LES and (3) the entity's fiscal dependency on LES. Based upon the above criteria, LES has determined that it has no reportable component units.

Basis of Accounting and Presentation

LES' activities are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. LES' accounting records are maintained in accordance with accounting principles generally accepted in the United States of America for regulated utilities and generally follow the Uniform System of Accounts for Public Utilities and Licenses prescribed by the Federal Energy Regulatory Commission (FERC). LES prepares its financial statements as a business-type activity in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB).

LES' accounting policies also follow the regulated operations provisions of GASB Statement No. 62, which permits an entity with cost-based rates to defer certain costs or income that would otherwise be recognized when incurred to the extent that the rate-regulated entity is recovering or expects to recover such amounts in rates charged to its customers. This method includes the philosophy that debt service requirements, as opposed to depreciation or amortization, are a cost for rate making purposes.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements December 31, 2012 and 2011

Note 1: Summary of Significant Accounting Policies - Continued

Cash Equivalents

LES considers all highly liquid investments with an original maturity of three months or less at the date of purchase to be cash equivalents. At December 31, 2012 and 2011, cash equivalents consisted of money market funds and certain short-term U.S. agency obligations.

Investments and Investment Income

LES maintains various designated and restricted accounts (see Note 2) that are held for debt service obligations, future health claims and other items. Investments in money market mutual funds, U.S. Treasury securities, U.S. agency obligations and other debt securities are carried at fair value. Fair value is determined based on quoted market prices or yields currently available on comparable securities of issuers with similar credit ratings.

Investment income includes interest income and the net change for the year in the fair value of investments.

Accounts Receivable and Unbilled Revenues

Electric revenues are recorded based on the related period of customer usage. Billings for electric revenues are rendered on a cycle basis monthly. Unbilled revenues, representing estimated consumer usage for the period between the last billing date and the end of the period, are accrued in the period of consumption. Receivables are reported net of the allowance for uncollectible accounts of \$1,633,000 and \$1,267,000 at December 31, 2012 and 2011, respectively.

Inventory

Materials, supplies and fuel inventories are stated at the lower of cost or market. Cost is generally determined on a weighted-average basis.

Jointly-Owned Facilities

Plant operation assets relate to the operation of Laramie River Station (LRS) and Walter Scott 4 (WS4) and are comprised of operating assets, primarily fuel and supplies inventories and operating cash. These assets are managed by the operating agents of LRS and WS4, and are stated at cost. Operating expenses of LRS and WS4 are included in the corresponding operating expense classifications in the statements of revenues, expenses and changes in net position.

Unamortized Debt Expense

Charges resulting from the issuance of revenue bonds are deferred and amortized over the repayment period of the bonds using the bonds outstanding method. Charges resulting from the commercial paper note program are expensed in the year incurred.

Notes to Financial Statements
December 31, 2012 and 2011

Note 1: Summary of Significant Accounting Policies - Continued

Regulated Operations

Rates for LES' regulated operations are established and approved by the Administrative Board and City Council. LES applies the regulated operations provisions of GASB Statement No. 62, which provide for the deferral of expenses which are expected to be recovered through customer rates over some future period (regulatory assets) and reductions in earnings to cover future expenditures (regulatory liabilities).

Capital Assets

The cost of additions and betterments to the system are capitalized. Cost includes material, labor, vehicle and equipment usage, related overhead costs, capitalized interest, and certain administrative and general costs. LES' capital purchases threshold is \$2,500 for plant assets.

Costs of labor, materials, supervision, and other costs incurred in making repairs and minor replacements and in maintaining the plant in efficient operating condition are charged to expense. When plant assets are retired, the original cost and removal cost, less salvage, are charged to accumulated depreciation. Depreciation is computed on a straight-line basis using composite rates ranging between 2% and 20%, depending on the respective asset type.

An allowance for funds used during construction is calculated for all projects costing in excess of \$500,000. The allowance for funds used during construction is based on LES' approximate weighted-average interest rate on debt during the current period. This weighted-average rate was 4.6% for 2012 and 2011, until August 2012. On September 1, 2012 the rate was decreased to 3.5%.

Recovery of Plant Costs

Capital contributions are received from customers and other third parties primarily to offset the costs associated with expansion of LES' electric system. In order to comply with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, capital contributions are recorded as income, however, to comply with GASB Statement No. 62, an offsetting expense in the same amount is also recorded representing the recovery of plant costs.

Net Position Classification

Net position is required to be classified into three components, which are net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

Net investment in capital assets- This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.

Notes to Financial Statements December 31, 2012 and 2011

Note 1: Summary of Significant Accounting Policies - Continued

Net Position Classification - Continued

Restricted - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), contributors, or law or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted - This component of net position consists of the net amount of the assets and liabilities that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is LES' policy to use restricted resources first, then unrestricted as they are needed.

Classification of Revenues and Expenses

Operating revenues and expenses generally result from providing services in connection with the ongoing operation of the electric system. The principal operating revenues are charges to customers for electric service. Operating expenses include operation and maintenance, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Payments In Lieu of Taxes

As established in the City of Lincoln Charter, LES makes payments in lieu of taxes, aggregating 5% of its electric retail revenues derived from within the city limits of incorporated cities and towns served. Payments in lieu of taxes are transferred to the following entities:

City of Lincoln Lancaster County Lincoln Public Schools City of Waverly

City Dividend for Utility Ownership (CDFUO)

In 2011, the Lincoln City Council approved an Ordinance requiring LES to pay an annual dividend to the City of Lincoln for the City's ownership of LES. The Ordinance states LES shall remit to the City a dividend for utility ownership in the system in an amount equivalent to 2.4% of the Total Net Assets (Net Position) of LES as of December 31 based upon the most recent audited year-end financial statements in effect for the February payment provided that, once the amount of the annual dividend for any year exceeds \$7 million, the amount of the annual dividend for the following year and each succeeding year thereafter shall be increased annually by 2.0%, or by the percentage rate by which the Consumer Price Index All Urban Consumers (CPI-U) has increased during the LES fiscal year upon which the dividend is based, whichever is greater. The annual dividend shall be remitted to the City on a semiannual basis on the 20th day of February and August of each year, with each payment representing 50 percent of the annual dividend payment. At

Notes to Financial Statements December 31, 2012 and 2011

Note 1: Summary of Significant Accounting Policies - Continued

City Dividend for Utility Ownership (CDFUO) - Continued

December 31, 2012 and 2011, approximately \$2,222,000 and \$2,097,000, respectively, was included in accrued liabilities for LES' accrual of the next CDFUO payment.

The CDFUO is assessed on all customer billings beginning on September 1, 2011 and is treated as operating revenue on the statement of revenues, expenses and changes in net position. LES records the estimated liability of the CDFUO as a non-operating expense on the statement of revenues, expenses and changes in net position.

Implementation of New Accounting Pronouncements

In 2012, LES implemented the regulated operations provisions of GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. This standard was created to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in pre-November 30, 1989 FASB and AICPA pronouncements, which do not conflict with or contradict GASB pronouncements. Specifically this standard also, among other things, incorporated accounting and financial reporting guidelines for regulated entities, such as LES, into the GASB framework. Prior to the implementation of GASB Statement No. 62, LES followed the guidance contained in FASB Accounting Standards Codification (ASC) 980, Regulated Operations. The implementation of this standard did not have a significant impact on prior year balances.

In 2012, LES implemented the provisions of GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. This statement amends the net asset reporting requirements in GASB Statement No. 34 and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The implementation of this standard did not have a significant impact on LES' financial statements.

Reclassifications

Certain reclassifications have been made to the 2011 financial statements to conform to the 2012 financial statement presentation. These reclassifications had no effect on the change in net position.

Notes to Financial Statements
December 31, 2012 and 2011

Note 2: Deposits and Investments

Deposits

State statutes require banks either to give bond or pledge government securities (types of which are specifically identified in the statutes) to LES in the amount of utility deposits. The statutes allow pledged securities to be reduced by the amount of the deposit insured by the Federal Deposit Insurance Corporation (FDIC). Pursuant to legislation enacted in 2010, the FDIC fully insured all noninterest-bearing transaction accounts beginning December 31, 2010 through December 31, 2012, at all FDIC institutions. This legislation expired on December 31, 2012. Beginning January 1, 2013, noninterest-bearing transaction accounts are subject to the \$250,000 limit on FDIC insurance per covered institution.

Investments

LES may invest in U.S. Government securities and agencies, federal instrumentalities, repurchase agreements, commercial paper, money market mutual funds, and interest bearing time deposits or savings accounts as designated in the investment policy.

As of December 31, 2012 and 2011, LES had the following investments and maturities (Dollars in thousands):

			Maturitie	Credit	
December 31, 2012	Fair Value		Less Than 1	1-5	Ratings Moody's / S&P
Money market mutual funds U.S. Treasury securities U.S. agency obligations	\$	16,302 27,010 109,906	\$ 16,302 27,010 102,128	\$ - - 7,778	Aaa / AAAm Aaa / AA+ Aaa / AA+
	\$	153,218	\$ 145,440	\$ 7,778	
December 31, 2011					
Money market mutual funds U.S. Treasury securities U.S. agency obligations	\$	11,256 17,869 103,921	\$ 11,256 17,869 90,946	\$ - - 12,975	Aaa / AAAm Aaa / AA+ Aaa / AA+
	\$	133,046	\$ 120,071	\$ 12,975	

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. LES has a formal investment policy that limits investment maturities with the intent of managing its exposure to fair value losses arising from increasing interest rates.

Notes to Financial Statements
December 31, 2012 and 2011

Note 2: Deposits and Investments - Continued

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. LES' investment policy limits investments in commercial paper, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations as described in the table below. Money market funds are the only current investment type that requires a specific rating.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of a failure of the counterparty, LES would not be able to recover the value of its investment securities that are in the possession of an outside party. All investments are held in LES' name, as required by LES' investment policy.

Concentration of Credit Risk

Concentration of credit risk is the risk associated with the amount of investments LES has with any one issuer that exceeds 5% or more of its total investments. Investments issued or explicitly guaranteed by the U.S. Government are excluded from this requirement. LES' investment policy places the following limits on the amount that may be invested in any one type of investment and/or issuer.

Portfolio Composition	Limits of Individual Issuers	Maturity Limitations*
1000	Nama	10
		10 years
75%	50%	10 years
80%	30%	10 years
25%	15%	1 year
50%	25%	90 days
25%	10%	180 days
50%	25%	N/A
	100% 75% 80% 25% 50%	Portfolio Composition Individual Issuers 100% None 75% 50% 80% 30% 25% 15% 50% 25% 25% 10%

^{*}Operating funds will have maturities no longer than 24 months and non-operating core funds will not exceed 10-year maturities.

Notes to Financial Statements December 31, 2012 and 2011

Note 2: Deposits and Investments - Continued

Concentration of Credit Risk - Continued

At December 31, 2012 and 2011, LES had the following investment concentrations:

	Portfolio Composition			
	2012	2011		
U.S. sponsored agency obligations				
Federal National Mortgage Association	19.31 %	27.38 %		
Federal Home Loan Mortgage Corporation	25.73	19.10		
Federal Home Loan Bank	15.30	26.08		
Federal Farm Credit Bank	11.21	**		

^{**}Issuer did not exceed 5% of LES' total investments.

Summary of Carrying Values

Notes to Financial Statements
December 31, 2012 and 2011

Note 2: Deposits and Investments - Continued

The City of Lincoln's Ordinance #17453 (passed in December 1998) provided for the establishment of a Rate Stabilization Fund (RSF) at LES. Subsequently, in early 2010, LES' Administrative Board created Policy (#505) which formalized the establishment of the RSF and identified that the purpose of the RSF would be for paying expenses that could result in a detrimental impact on LES' financial performance or cause a significant change in rates. Funds can be budgeted and deposited monthly or at year-end. In late 2011, LES performed a liquidity study with the assistance of an outside consultant. The analysis included a risk-based approach to determine a recommended balance for the RSF. The study identified \$28.5 million as the target balance for the RSF. It is projected that this balance would mitigate 50 percent of the potential financial impact of risks that could materialize in a 12-month period. LES' currently approved Rate Stabilization Fund Policy requires that the fund should contain an amount between 10-15% of LES' annual operating budget, and currently would equal approximately \$30.8 million and \$28.0 million in 2012 and 2011, respectively. LES' is updating its Rate Stabilization Fund Policy for consistency with the new target balance based on the liquidity study. During 2012 and 2011, LES' Administrative Board approved the deposit of \$1.5 million and \$3.7 million to the Rate Stabilization Fund, respectively.

Note 3: Capital Assets

Capital assets activity for the years ended December 31, 2012 and 2011 are as follows (dollars in thousands):

Notes to Financial Statements December 31, 2012 and 2011

Note 4: Long-Term Debt - Continued

All long-term debt is issued for the construction of additional utility plant or refunding of existing debt. All utility revenues after payment of operation and maintenance expenses are pledged for the revenue bonds until the bonds are paid or defeased.

Principal and interest paid for 2012 and 2011 was approximately \$46,264,000 and \$45,947,000, respectively. Total gross revenues as defined for the same periods were \$276,110,000 and \$269,043,000, respectively. On average, annual principal and interest payments are expected to require an estimated 17% of gross revenues.

Bond Refunding

In August 2012, LES issued \$277,315,000 of Revenue and Refunding Bonds, Series 2012, to advance refund \$58,040,000 of Revenue and Refunding Bonds, Series 2002, \$94,435,000 of Revenue and Refunding Bonds, Series 2003, and \$61,290,000 of Revenue and Refunding Bonds, Series 2005. The 2012 issuance was also used to fund electric system projects and the redemption of \$40,000,000 of outstanding commercial paper notes. The net proceeds of the Series 2012 issuance, plus approximately \$11,850,000 of existing bond reserve funds, were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. As a result the Series 2002, Series 2005, and the portion of the Series 2003 bonds refunded are considered defeased and the liability for those bonds has been removed from the financial statements. The advance refunding resulted in debt service savings of approximately \$40,860,000 and net present value savings of approximately \$28,140,000.

Note 5: Short-Term Obligations

Established by City Ordinance, LES may borrow up to \$150 million under a commercial paper note program. At December 31, 2012 and 2011, LES had \$88.5 million and \$128.5 million of tax-exempt commercial paper notes outstanding respectively. The notes mature at various dates, but not more than 270 days after the date of issuance. The weighted average interest rate for the year ended December 31, 2012 and 2011 was 0.16% and 0.19%, respectively. The outstanding commercial paper notes are secured by a revolving credit agreement that provides for borrowings up to \$150 million. The credit facility is provided by Bank of Tokyo-Mitsubishi. This new facility was effective August 1, 2012 at the expiration of the prior facility. LES pays a commitment fee for the credit agreement. Under the terms of the agreement, LES can either settle or refinance the commercial paper upon maturity.

LES uses commercial paper notes as part of their long term financing strategy. As such, commercial paper is typically renewed as it matures. The table below illustrates the change in net position of commercial paper. The weighted average length of maturity of commercial paper for 2012 and 2011 was 51 and 48 days, respectively.

Notes to Financial Statements December 31, 2012 and 2011

Note 5: Short-Term Obligations - Continued

Commercial paper activity for the years ended December 31, 2012 and 2011 are as follows (Dollars in thousands):

	January 1, 2012	Increase	Decrease	December 31, 2012	Due Within One Year
Commercial paper notes	\$ 128,500	\$ 779,500	\$ (819,500)	\$ 88,500	\$ 88,500
	January 1, 2011	Increase	Decrease	December 31, 2011	Due Within One Year
Commercial paper notes	\$ 90,000	\$ 994,600	\$ (956,100)	\$ 128,500	\$ 128,500

Note 6: Regulatory Assets

Regulatory assets are comprised of LES' share of payments made for the construction of the Dry Fork Coal Mine and costs related to certain improvements on projects in which LES is a participant. These costs are included in other noncurrent assets on the balance sheets and totaled approximately \$4,427,000 and \$5,037,000 at December 31, 2012 and 2011, respectively, and are being amortized in future rate periods when such costs are included in the revenue requirements to establish electric rates.

Note 7: Jointly Owned Facilitates

Laramie River Station (LRS)

LES is a 12.76% co-owner of the Missouri Basin Power Project (MBPP) that includes LRS, a three-unit, 1,650 MW coal-fired generating station in eastern Wyoming and a related transmission system. LES has sold approximately 13% of its ownership in LRS to Municipal Energy Agency of Nebraska (MEAN). Costs, net of accumulated depreciation and excluding costs allocated to MEAN for its ownership share, associated with LRS of approximately \$16 million and \$19 million are reflected in utility plant at December 31, 2012 and 2011, respectively.

LES has a participation power sales agreement with the County of Los Alamos, New Mexico (the County) whereby the County purchases from LES 10 MW of LES' capacity interest in LRS. The agreement provides for the County to pay LES monthly fixed payments for the repayment of debt service. The amount is subject to change each July 1 based on debt costs of LES relative to the current market rates, until termination of the agreement. The agreement remains in effect until either the final maturity occurs on any LRS-related debt, LRS is removed from commercial operation, or the County gives LES 18 months notice to terminate the agreement. LES billed the County approximately \$3.4 million and \$3.1 million in 2012 and 2011, respectively, for demand and energy charges.

Notes to Financial Statements
December 31, 2012 and 2011

Note 7: Jointly Owned Facilitates - Continued

Laramie River Station (LRS) - Continued

The Laramie River Station (LRS) project participants, including LES, filed a rate case in 2004 with the federal Surface Transportation Board (STB) challenging the reasonableness of the freight rates from the Burlington Northern Santa Fe (BNSF) railroad for coal deliveries to LRS. In early 2009, the STB issued its decision and awarded the LRS project participants a favorable decision estimated by the STB at approximately \$345 million in rate relief. The STB awarded \$119 million to the LRS participants for past freight overcharges plus an expectation of present value rate benefits of approximately \$245 million due to a new tariff the STB ordered to be charged through 2024. BNSF remitted \$15 million to LES. This amount has been placed in a separate custodial account pending an appeal filed by BNSF. As such, LES' payment has been recorded as a designated asset and liability pending the outcome of the appeal. A portion of these funds are due to the Municipal Energy Agency of Nebraska (MEAN) and the County of Los Alamos.

Walter Scott Energy Center (WS4)

MidAmerican Energy's Walter Scott Energy Center includes the following units: Unit #1 – a 1954 coal-fired unit built with 43 MW capacity, Unit #2 – a 1958 coal-fired unit built with 88 MW capacity, Unit #3 – a 1979 coal-fired unit built with 675 MW capacity, and Unit #4 a supercritical technology, coal-fired 790-MW unit that became commercial in June, 2007, as well as the associated common equipment and inventories. LES maintains ownership interest in 12.6% or 105 MW of Unit #4. In order to minimize unit outage risk, LES has executed a power purchase and sales agreement with MidAmerican Energy to "swap" capacity and energy from LES' Unit #4 ownership with capacity and energy from Unit #3. Under this agreement, beginning in 2009, LES will schedule 50 MW of capacity and energy from Unit #3 and 55 MW of capacity and energy from Unit #4. This 20 year agreement can be extended through mutual agreement of the parties. LES is responsible for the operation and maintenance expense and maintains a fuel inventory at the plant site. LES issued debt in conjunction with the construction of Unit #4 and has capitalized these costs plus interest.

Note 8: Jointly Governed Organizations

District Energy Corporation

LES, in conjunction with two other governmental entities, created the District Energy Corporation (DEC) in 1989 to own, operate, maintain, and finance the heating and cooling facilities utilized by certain city, county and state buildings. The Board of Directors of DEC is comprised of five members: two appointed by the Lancaster County Board of Commissioners, two by the Mayor of Lincoln who must be confirmed by the City Council, and one by LES. No participant has any obligation, entitlement or residual interest.

Notes to Financial Statements
December 31, 2012 and 2011

Note 8: Jointly Governed Organizations - Continued

District Energy Corporation - Continued

The DEC Board of Directors, under a management agreement, has appointed LES to supervise and manage the system and business affairs of DEC. LES is reimbursed for these management services based on the allocated actual costs of these services. LES also provides electric energy to DEC on an established rate schedule. The total amount of payments to LES for management operations, and maintenance services was approximately \$833,000 and \$811,000 in 2012 and 2011, respectively. The total amount of payments to LES for energy was approximately \$225,000 and \$129,000 in 2012 and 2011, respectively.

Nebraska Utility Corporation

On May 17, 2001, LES, in conjunction with the University of Nebraska Lincoln (UNL), created the Nebraska Utility Corporation (NUCorp), The purpose of NUCorp is to purchase, lease, construct, and finance facilities and acquire services to meet energy requirements of UNL. The Board of Directors of NUCorp is comprised of five members: three members appointed by the UNL and two members appointed by LES. No participant has any obligation, entitlement or residual interest.

Operations commenced in January 2002. The NUCorp Board of Directors, under a 20 year management agreement, appointed LES to supervise and manage the system and business affairs of NUCorp. LES is reimbursed for these management services based on the allocated actual costs of these services. LES also provides electric energy to NUCorp on an established rate schedule. The total payment to LES for management services was approximately \$89,000 and \$119,000 in 2012 and 2011, respectively. The total amount of payments to LES for energy was approximately \$9.8 million and \$9 million in 2012 and 2011, respectively.

Note 9: Employee Benefit Plans

LES has a defined contribution retirement plan created in accordance with Internal Revenue Code Section 401(k) covering all employees. Effective January 1, 2012, all employees are eligible to receive employer contributions immediately upon employment. The plan assets are held, managed and administered by a trustee. The plan was established under the authority of the Administrative Board and contributions are established by the Administrative Board. LES' contribution is equal to 200% of the employees' contributions, up to 5% of gross wages for employees hired prior to January 1, 2011. For employees hired after January 1, 2011, LES' contribution is equal to 100% of employee's contributions up to 10% of gross wages. Vesting of LES contributions occurs over a three-year period. Employee forfeitures are used to reduce employer contributions.

Notes to Financial Statements December 31, 2012 and 2011

Note 9: Employee Benefit Plans - Continued

Approximate contribution information is shown below (Dollars in thousands):

	 2012	2011
Employer contribution Employee contributions	\$ 3,533 2,490	\$ 3,416 2,312
Totals	\$ 6,023	\$ <u>5,728</u>

In addition, LES offers all full-time employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan permits the employees to defer a portion of their salary until termination, retirement or death. All plan assets are held, managed and administered by a trustee.

Assets and liabilities for both plans are not included in the financial statements as all plan assets are held, managed and administered by a trustee.

Note 10: Employee Health and Dental Insurance

LES has self-funded health and dental insurance programs with claims processed by a third party administrator on behalf of the utility. A separate reserve has been established into which accruals are made and actual claims and premiums are paid from. As part of the health plan, a reinsurance policy has been purchased which covers claims in excess of \$150,000 per individual. Accruals to the self-insured account in excess of the claims and other costs paid are monitored by LES. Total accrual and payment history is shown below (Dollars in thousands):

 2012	2011
\$ 941 5,385 (5,243)	\$ 604 6,253 (5,916)
 \$ 1.083	\$ 941
\$ \$	5,385 (5,243)

As required by Nebraska statute (Neb. Rev. Neb. Rev. Stat. (Reissue 2007) §13-1619), LES maintains an IBNR (Incurred But Not Reported) claims reserve which is actuarially determined, the balance of which was \$383,000 and \$382,000 at December 31, 2012 and 2011, respectively. LES established two separate bank accounts for the self-funded employee health and dental insurance plan reserves to ensure compliance with statutory requirements. Although not required by the statute, LES maintains excess insurance which limits the total claims liability for each plan year to not more than 125% of the expected claims liability, up to an annual aggregate maximum of \$1,000,000.

Notes to Financial Statements December 31, 2012 and 2011

Note 11: Risk Management

Insurance

LES is exposed to various risks of loss related to general liability and property. LES carries commercially available insurance, subject to certain limits and deductibles, to reduce the financial impact for claims arising from such matters. Claims have not exceed this coverage in any of the three preceding years.

To protect against other risks, LES participates in the City of Lincoln's self-insurance program, administered by the City's Risk Management Division. Premium amounts are paid to the City's Risk Management Division, including an estimate of the liability for claims incurred, but not yet reported as of December 31, 2012 and 2011.

Enterprise Risk Management

LES continues to identify, evaluate and mitigate inherent business risks as part of its Enterprise Risk Management (ERM) Program. LES has implemented a formalized process to expand the scope of risk identification and awareness. Throughout the organization, divisions and departments are participating in the systematic risk identification and mitigation assessment process.

LES has formed a Risk Management Committee (RMC), which includes representatives from each functional area. The responsibilities of the RMC include: coordination of risk identification across the organization, communication of ERM requirements to all employees and presenting findings to and collecting information from executive management. In addition to providing oversight of the ERM Program, the LES Administrative Board is involved in the identification, assessment and mitigation of enterprise risks. In order to provide guidance to employees in their decision making, the board has adopted the following as the risk appetite statement for LES:

Risks will be managed in a manner that will not materially jeopardize LES' ability to serve its customers, achieve performance targets and continue its AA bond rating. LES expects high standards of legal and ethical conduct and maintains zero tolerance toward actions which could detrimentally impact safety or regulatory compliance.

The active participation and engagement of the board and executive management is providing support for LES' successful ERM Program. A report, detailing the status of LES' ERM Program, will be presented annually to the executive team and board. The enhancements to the ERM Program will be on-going and will provide increased awareness of risks throughout the organization. The information gathered will provide for improved planning and decision making and eliminate potential duplicative efforts.

Notes to Financial Statements December 31, 2012 and 2011

Note 12: Commitments

Participation Contracts with NPPD

LES has participating interests in the output of two existing NPPD power plants, a 30% (68 MW) and 8% (109 MW) entitlement to the output of the Sheldon Station Power Plant (nominally rated 225-MW coal plant) and Gerald Gentlemen Station Power Plant (nominally rated 1,268 MW coal plant), respectively.

LES is responsible for its respective participating interests in the two facilities' capital additions and improvements. LES recognizes its share of capital acquisition costs and debt service payments as power costs in the period the costs are billed with the exception of costs approved for deferral under GASB Statement No. 62. Fixed cost payments under the agreements are on a participation basis whether or not such plants are operating or operable.

The participation contracts continue until the facilities are removed from commercial operation or the final maturity occurs on the related debt incurred by NPPD to finance the facilities, whichever occurs last. The estimated fixed cost payments to NPPD under these contracts, including capital additions and improvements, debt service payments and fixed costs, and credits, aggregate approximately \$18.1 million, \$18.5 million, \$18.9 million, \$19.3 million and \$19.8 million, respectively, in each of the five years subsequent to December 31, 2012.

Fuel Contracts

LES has commitments under long-term contracts for the physical purchase of natural gas. Contract commitments are based on LES' gas procurement strategy.

Claims and Judgments

From time to time, LES is party to various claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the financial statements of LES.

APPENDIX C

SUMMARY OF CERTAIN PROVISIONS OF THE ORDINANCE

[THIS PAGE INTENTIONALLY LEFT BLANK]

SUMMARY OF CERTAIN PROVISIONS OF THE ORDINANCE

The following is a summary of certain provisions of the Ordinance. Summaries of certain definitions contained the Ordinance are set forth below. Other terms defined in the Ordinance for which summary definitions are not set forth are indicated by capitalization. The summary does not purport to be a complete description of the terms of the Ordinance and, accordingly, is qualified by reference thereto and is subject to the full text thereof. Copies of the Ordinance may be obtained from Lincoln Electric System or its Financial Advisor.

Definitions

The following are summaries of certain definitions in the Ordinance.

"Accreted Value" means, with respect to any Capital Appreciation Bond or Capital Appreciation Parity Obligation, the principal amount thereof plus the interest accrued thereon from the date of original issuance thereof to the Periodic Compounding Date next preceding the date of computation or the date of computation if a Periodic Compounding Date, such interest to accrue at the interest rate per annum of the Capital Appreciation Bonds or Capital Appreciation Parity Obligation set forth in such Series Ordinance or Parity Instrument, respectively, compounded periodically on each Periodic Compounding Date, plus, if such date of computation shall not be a Periodic Compounding Date, a portion of the difference between the Accreted Value as of the immediately preceding Periodic Compounding Date (or the date of original issuance) and the Accreted Value as of the immediately succeeding Periodic Compounding Date, calculated based upon an assumption that, unless otherwise provided in such Series Ordinance or Parity Instrument, Accreted Value accrues in equal daily amounts on the basis of a year consisting of twelve 30-day months.

"Aggregate Debt Service" for any period means, as of any date of calculation, the sum of the amounts of Debt Service for such period with respect to all Bonds and Parity Obligations.

"Appreciated Value" means, with respect to any Deferred Income Bond, (i) as of any date of computation prior to the Current Interest Commencement Date with respect to such Deferred Income Bond, an amount equal to the principal amount of such Bond plus the interest accrued on such Bond from the date of original issuance of such Bond to the Periodic Compounding Date next preceding the date of computation or the date of computation if a Periodic Compounding Date, such interest to accrue at the interest rate per annum of the Deferred Income Bonds set forth in the Series Ordinance authorizing such Bonds, compounded periodically on each Periodic Compounding Date, plus, if such date of computation shall not be a Periodic Compounding Date, a portion of the difference between the Appreciated Value as of the immediately preceding Periodic Compounding Date succeeding the date of original issuance if the date of computation is prior to the first Periodic Compounding Date succeeding the date of original issuance) and the Appreciated Value as of the immediately succeeding Periodic Compounding Date, calculated based upon an assumption that, unless otherwise provided in the Series Ordinance authorizing such Deferred Income Bonds, Appreciated Value accrues in equal daily amounts on the basis of a year consisting of twelve 30-day months and (ii) as of any date of computation on and after the Current Interest Commencement Date, the Appreciated Value on the Current Interest Commencement Date.

"Authorized Investments" means any investments in which the City may legally invest sums subject to its control pursuant to the Constitution and statutes of the State of Nebraska and the Charter of the City (all amended from time to time).

"Board" means Lincoln Electric System Administrative Board created and established pursuant to Chapter 4.24 of the Municipal Code of the City.

"Bond" or "Bonds" means any bonds, notes or other obligations or evidences of indebtedness, as the case may be, authenticated and delivered under and Outstanding pursuant to the Ordinance but shall not mean Parity Obligations or Subordinated Indebtedness.

"Bond Obligation" means, as of any date of calculation, (1) with respect to any Outstanding Current Interest Bond, the principal amount of such Bond, (2) with respect to any Outstanding Capital Appreciation Bond, the Accreted Value thereof as of the date on which interest on such Capital Appreciation Bond is compounded next preceding such date of calculation (unless such date of calculation is a date on which such interest is compounded, in which case, as of such date), and (3) with respect to any Outstanding Deferred Income Bond, the Appreciated Value thereof as of the date on which interest on such Deferred Income Bond is computed next preceding such date of calculation (unless such date of calculation is a date on which such interest is compounded, in which case as of such date).

"Capital Appreciation Bonds" means any Bonds the interest on which is (i) compounded periodically on dates that are specified in the Series Ordinance authorizing such Capital Appreciation Bonds and (ii) payable only at the maturity, earlier redemption or other payment thereof pursuant to the Ordinance or the Series Ordinance authorizing such Capital Appreciation Bonds.

"Capital Appreciation Parity Obligations" means any Parity Obligations the interest with respect to which is (i) compounded periodically on dates that are specified in such Parity Obligation or in the Parity Instrument authorizing such Parity Obligation and (ii) payable only at the maturity, earlier redemption or prepayment or other payment thereof pursuant to the Parity Instrument authorizing such Capital Appreciation Parity Obligation.

"Costs," with respect to the Electric System or any part thereof, means the costs, expenses and liabilities paid or incurred or to be paid or incurred by the City in connection with the planning, engineering, designing, acquiring, constructing, installing, financing, operating, maintaining, repairing, extending, improving, reconstructing, retiring, decommissioning and disposing thereof and the obtaining of governmental approvals, certificates, permits and licenses with respect thereto, including, but not limited to, any good faith or other similar payment or deposits required in connection with the acquisition or construction of such part of the Electric System, the cost of acquisition by or for the City of real and personal property or any interests therein, costs of physical construction of such part of the Electric System and costs of the City incidental to such construction or acquisition, the cost of acquisition of fuel or fuel inventory or facilities for the production or transportation of fuel and for additional fuel inventories, all costs relating to injury and damage claims relating to such part of the System, preliminary investigation and development costs, engineering fees and expenses, contractors' fees and expenses, the costs of labor, materials, equipment and utility services and supplies, legal and financial advisory fees and expenses, interest and financing costs, including, without limitation, bank commitment and letter of credit fees and bond insurance and indemnity premiums, fees and expenses of the Fiduciaries, administration and general overhead expense and costs of keeping accounts and making reports required by the Ordinance prior to or in connection with the completion of acquisition or construction of such part of the Electric System, amounts, if any, required by the Ordinance to be paid into the Bond Fund to provide, among other things, for interest accruing on Bonds and to provide for such reserves, if any, as may be specified in a Series or Supplemental Ordinance or to be paid into the Electric Revenue Fund for any of the respective purposes thereof, payments when due (whether at the maturity of principal or the due date of interest or upon redemption) on any indebtedness of the City with respect to the Electric System and reserves therefor, and all federal, state and local taxes and payments in lieu of taxes in connection with any part of the Electric System and shall include reimbursements to the City for any of the above items theretofore paid by or on behalf of the City.

"Credit Facility" means a letter of credit, line of credit, liquidity facility or other credit facility issued by a financial institution or other form of credit enhancement, including, but not limited to,

municipal bond insurance and guarantees, delivered to the Paying Agent for all or a portion of a Series of Bonds, which provides for payment, in accordance with the terms of such Credit Facility, of principal, Accreted Value, Appreciated Value, premium and/or interest of all or a portion of a Series of Bonds and/or the purchase price of such Series of Bonds or portion thereof. A Credit Facility may be comprised of one or more credit facilities issued by one or more financial institutions.

"Current Interest Commencement Date" means with respect to any particular Deferred Income Bonds, the date specified in the Series Ordinance authorizing such Deferred Income Bonds (which date must be prior to the maturity date for such Deferred Income Bonds) after which interest accruing on such Deferred Income Bonds shall be payable periodically on dates specified in such Series Ordinance, with the first such payment date being the first such periodic date immediately succeeding such Current Interest Commencement Date.

"Debt Service" for any period means, as of any date of calculation and with respect to any Series of Bonds or Parity Obligations, an amount equal to the sum of (i) interest accruing during such period on Bonds of such Series or such Parity Obligations, except to the extent that such interest is to be paid from deposits in the Bond Fund made from the proceeds of Bonds, Subordinated Indebtedness or other evidences of indebtedness of the City (including amounts, if any, transferred thereto from the Construction Fund) or from the proceeds of such Parity Obligations and (ii) that portion of each Principal Installment for such Series or Parity Obligation which would accrue during such period if such Principal Installment were deemed to accrue daily in equal amounts from the next preceding Principal Installment due date for such Series or Parity Obligation (or, if (a) there shall be no such preceding Principal Installment due date or (b) such preceding Principal Installment due date is more than one year prior to the due date of such Principal Installment, then, from a date one year preceding the due date of such Principal Installment or from the date of issuance of the Bonds of such Series or Parity Obligation, whichever date is later). Such interest and Principal Installments for such Series or Parity Obligations shall be calculated on the assumption that (x) no Bonds (except for Option Bonds actually tendered for payment prior to the stated maturity thereof) of such Series Outstanding at the date of calculation will cease to be Outstanding except by reason of the payment of each Principal Installment on the due date thereof, (y) the principal amount of Option Bonds tendered for payment before the stated maturity thereof shall be deemed to accrue on the date required to be paid pursuant to such tender, and (z) no Principal Installment with respect to any Parity Obligation will be paid except by reason of the payment of such Principal Installment on the due date thereof.

"Deferred Income Bonds" means any Bond issued under the Ordinance as to which interest accruing prior to the Current Interest Commencement Date is (i) compounded periodically on dates specified in the Series Ordinance authorizing such Deferred Income Bonds and (ii) payable only at the maturity, earlier redemption or other payment thereof pursuant to the Ordinance or the Series Ordinance authorizing such Deferred Income Bonds.

"Derivative Obligations" means, to the extent permitted by law, any financial arrangement entered into by the City for the purposes of moderating interest rate fluctuations or otherwise and may include any interest rate swap agreement, currency swap agreement, forward payment conversion agreement, future, or contract providing for payments based on levels of, or changes in, interest rates, currency exchange rates, stock or other indices, or a contract to exchange cash flows or a series of payments, or any other exchange or rate protection transaction agreement, including, without limitation, interest rates floors, caps or collars, options, rates or call to a hedge payment, currency, rate, spread, or similar exposure or any similar contract (however designated).

"Derivative Payment" means any payment required to be made by the City with respect to a Derivative Obligation.

"Electric System" means all properties and assets, and interests in properties and assets, real and personal and tangible and intangible, of the City now or hereafter existing used for or pertaining to (a) the generation, transmission, distribution and sale of electric power and energy or (b) such other activities and transactions as the Board and the City shall from time to time determine, and shall be broadly construed to encompass and include all Projects, and all electric production, transmission, distribution, conservation, load management, general plant and other related facilities, equipment or property and any mine, well, pipeline, plant, structure or other facility for the development, production, manufacture, storage, fabrication or processing of fossil, nuclear or other fuel of any kind or any facility or rights with respect to the supply of water, in each case for use, in whole or in major part, in any of the City's electric generating plants, now existing and hereafter acquired by lease, contract, purchase or otherwise or constructed by the City, including any interest or participation of the City in any such facilities or any rights to the output or capacity thereof, together with all additions, betterments, extensions and improvements to said Electric System or any part thereof hereafter made and together with all lands, easements and rights of way of the City and all other works, property or structures of the City and contract rights and other tangible and intangible assets of the City used or useful in connection with or related to said Electric System, including without limitation a contract right or other contractual arrangement for the long-term or short-term interconnection, interchange, exchange, pooling, wheeling, transmission, purchase or sale of electric power and energy and other similar arrangements with entities having generation and transmission capabilities and located within or without the City or the State of Nebraska. Without limiting the generality of the foregoing, the term "Electric System" shall include (1) the properties and assets for the generation, transmission and distribution and sale of electric power and energy owned by the City on the date of passage of the Ordinance and (2) all additions, extensions, expansions, improvements, betterments and equippings hereafter made thereto. "Electric System" shall not include any properties or interests in properties of the City which the Board and the City, in accordance with the provisions of the Ordinance, determines shall not constitute a part of the Electric System.

"Federal Securities" means direct obligations of, or obligations the timely payment of which are unconditionally guaranteed by, the United States of America or the Treasury Department of the United States of America or securities or receipts evidencing direct ownership interests in the foregoing obligations or specific portions (such as principal or interest) of the foregoing obligations which are maintained under the book entry system operated by Federal Reserve Banks.

"General Ordinance" means Ordinance No. 17879 adopted by the Council on July 23, 2001.

"Independent Consultant" means an independent firm, person or corporation recognized as having expertise and with a favorable reputation for special skill and knowledge in the operations and financing of municipal electric light and power facilities and systems similar in size to the Electric System.

"Lincoln Electric System" means all assets, properties and employees under the jurisdiction and control of the Board as set forth in Chapter 4.24 of the Municipal Code.

"Municipal Obligations" means municipal obligations, rated in the highest Rating Category by any Rating Agency, meeting the following conditions:

- (a) the municipal obligations are not to be redeemable prior to maturity, or the trustee with respect to such obligations has been given irrevocable instructions concerning their calling and redemption;
- (b) the municipal obligations are secured by Federal Securities, which Federal Securities, except for provisions relating to surplus moneys not required for the payment of the municipal obligations and the substitution of such Federal Securities for other Federal Securities

satisfying all criteria for Federal Securities, may be applied only to interest, principal and premium payments of such municipal obligations;

- (c) the principal of and interest on the Federal Securities (plus any cash in the escrow fund) are sufficient, without reinvestment, to meet the liabilities of the municipal obligations; and
- (d) the Federal Securities serving as security for the municipal obligations are held by an escrow agent or trustee.

"Net Revenues" shall mean Revenues less Operation and Maintenance Expenses paid from Revenues.

"Operation and Maintenance Expenses" shall mean all of the Costs and expenses for operation, maintenance, and ordinary repairs, renewals and replacements of the Electric System, including all costs of purchasing, producing and delivering electric power and energy from the Electric System and reserves for items of Operation and Maintenance Expenses the payment of which is not immediately required, and shall include, without limiting the generality of the foregoing, costs of purchased power, fuel costs, costs of transmission service, generating capacity reserve service, regulation, or other interchange and coordination services, rents, administrative and general expenses, engineering expenses, legal, accounting and financial advisory expenses, payments to pension, retirement, health and hospitalization funds, taxes, payments in lieu of taxes and other governmental charges, insurance and surety bond premiums including obligations to a stock mutual or reciprocal insurance company, and any other current expenses or obligations required to be paid by the City under the provisions of the Ordinance or by law or regulation, all to the extent properly allocable to the Electric System, and any fees and expenses incurred in the administration the Bonds, Parity Obligations and Subordinated Indebtedness. Operation and Maintenance Expenses shall include obligations of the City for a defined purchase price, lease obligations and Derivative Payments to the extent the same are treated as operation and maintenance expenses pursuant to generally accepted accounting principles for electric utilities. Operation and Maintenance Expenses shall not include any allowance for depreciation.

"Option Bonds" shall mean Bonds which by their terms may or are required to be tendered by and at the option of the Owner thereof for payment by the City prior to the stated maturity thereof, or the maturities of which may be extended by and at the option of the Owner thereof.

"Ordinance" means the General Ordinance, as amended, modified or supplemented from time to time by any Series Ordinance or Supplemental Ordinance.

"Outstanding" means (1) when used as of any particular time with reference to Bonds, all Bonds theretofore, or thereupon being, authenticated and delivered by the Registrar under the Ordinance except (a) Bonds theretofore canceled by the Paying Agent or surrendered to the Paying Agent for cancellation (or in the case of Book Entry Bonds, to the extent provided in the Ordinance, portions thereof deemed to have been canceled); (b) Bonds (or in the case of Book Entry Bonds, to the extent provided in the Ordinance, portions thereof with respect to which all liability of the City shall have been discharged in accordance with the Ordinance; (c) Bonds for the transfer or exchange of or in lieu of or in substitution for which other Bonds shall have been authenticated and delivered by the Registrar pursuant to the Ordinance; and (d) Bonds no longer deemed to be outstanding hereunder as provided in the Series Ordinance pursuant to which such Bonds were issued; (2) when used as of any particular time with reference to Prior Lien Bonds Ordinances; and (3) when used as of any particular time with reference to Parity Obligations, all Parity Obligations deemed outstanding or not satisfied within the meaning of the Parity Instrument authorizing such Parity Obligations.

"Owner," whenever used in the Ordinance with respect to a Bond, means the person in whose name such Bond is registered.

"Parity Instrument" means an instrument pursuant to which the City shall have provided for the issuance of Parity Obligations.

"Parity Obligations" means any indebtedness or other obligation of the City, including, but not limited to Derivative Payments, and all other payments or other obligation of the City, with respect to the Electric System and in each case having a lien and charge upon, or being payable from, the Net Revenues on a parity with the Bonds.

"Paying Agent" means the person or institution, which may include the City Treasurer or the Finance Director or his designee, or such other agent or official of the City as may be designated in a Series Ordinance to make payments of the principal of, Redemption Price and interest on the Series of Bonds authorized by such Series Ordinance to the registered owners thereof.

"Payment Date" means, with respect to a Series of Bonds or Parity Obligations, the date upon which any principal, Accreted Value, Appreciated Value or Redemption Price, and interest thereon is payable to the registered owners of such Series of Bonds or Parity Obligations.

"Principal Installment" means, as of any date of calculation and with respect to any Series, so long as any Bonds thereof are Outstanding or with respect to any Outstanding Parity Obligation, (i) the principal amount of Bonds (including the principal amount of any Option Bonds tendered for payment prior to the stated maturity thereof) of such Series or Parity Obligation due (or so tendered for payment) on a certain future date for which no Sinking Fund Installments have been established, or (ii) the unsatisfied balance (determined as provided in the Ordinance) of any Sinking Fund Installments due on a certain future date for Bonds of such Series or Parity Obligation, plus the amount of the sinking fund redemption premiums, if any, which would be applicable upon redemption of such Bond, or Parity Obligation on such future date in a principal amount equal to said unsatisfied balance of such Sinking Fund Installments, or (iii) if such future dates coincide as to different Bonds of such Series and different Parity Obligations, the sum of such principal amount of Bonds and Parity Obligations and of such unsatisfied balance of Sinking Fund Installments due on such future date plus such applicable redemption premiums, if any.

"Prior Lien Bonds" means the bonds issued and outstanding pursuant to the Prior Lien Bond Ordinances.

"Prior Lien Bond Ordinances" shall mean Bond Ordinance Nos. 11902, 11904, 12202, 14556, 16188, 16416, 16417 and 17288 of the City.

"Project" means any electric generation, transmission, distribution and general plant facilities, together with any other property necessary, desirable or advisable for such activities as the Board is authorized to undertake, and all other property, real and personal, of every kind and nature material or pertinent thereto or necessary therefor, located within or without the City or the State of Nebraska, which may be used or useful in the generation, transmission, distribution, sale, purchase, exchange or interchange of electric power and energy, and in the supplying of electric power and energy to all those contracting with the City therefor and such other activities as the Board is authorized to undertake, as provided in the Act, including any interest therein or right to capacity thereof, and may include, without limitations, a divided or undivided interest in any electric generation, transmission, distribution or general plant facility in which the City shall participate as an owner in common with others, a contract right or other contractual arrangement for the short-term or long-term provision of electric power and energy, transmission and other services to the City on a prepaid basis and the acquisition of water and fuel of any

kind for such purposes, including the acquisition of water rights, fuel deposits and facilities for the development, production, processing, manufacture, fabrication, transportation and storage of water and fuel.

"Prudent Utility Practice" means any of the practices, methods and acts which, in the exercise of reasonable judgment, in the light of the facts (including, but not limited to, any practices, methods and acts engaged in or approved by a significant portion of the electrical utility industry prior thereto) known at the time the decision was made, could have been expected to accomplish the desired result at reasonable cost consistent with reliability, safety and expediency. In applying the standard of Prudent Utility Practice to any matter under the Ordinance, equitable consideration shall be given to the circumstances, requirements and obligations of the City, and there shall be taken into account the fact that the City is a political subdivision of the State of Nebraska with prescribed statutory powers, duties and responsibilities. Prudent Utility Practice is not intended to be limited to the optimum practice, method or act to the exclusion of all others, but rather is a spectrum of possible practices, methods or acts which could have been expected to accomplish the desired result at reasonable cost consistent with reliability, safety and expediency. Prudent Utility Practice includes due regard for manufactures' warranties and the requirements of governmental agencies which have jurisdiction.

"Registrar" means the person or institution, which may include the City Treasurer or the Finance Director or his designee, or such other agent or official of the City as may be designated in a Series Ordinance to maintain on behalf of the City books of record in which the registered owners of the Bonds authorized by such Series Ordinance and their registered addresses shall be duly recorded.

"Revenues" means (i) all revenues, income, rents and receipts derived by the City from or attributable to the ownership and operation of the Electric System, including all revenues attributable to the Electric System or to the payment of the costs thereof received by the City under any contract for the sale of power, energy, transmission or other service from the Electric System or any part thereof or any contractual arrangement with respect to the use of the Electric System or any portion thereof or the services, output or capacity thereof, (ii) the proceeds of any insurance covering business interruption loss relating to the Electric System and (iii) interest received on any moneys or securities held pursuant to the Ordinance; provided, however, that Revenues shall not include (i) any revenues, receipts, rents, money or funds in aid of construction and income to the City when acting in the capacity of project manager with respect to a Project, (ii) customer deposits, or (iii) amounts received upon the sale, exchange or disposition of assets pursuant to the provisions of the General Ordinance.

"Sinking Fund Installment" shall mean an amount so designated which is established pursuant to a Series Ordinance authorizing a Series of Bonds and which is required by the Ordinance to be deposited in the Bond Fund for the payment of Term Bonds of such series and maturity.

"Subordinated Indebtedness" shall mean an evidence of indebtedness or obligation to pay money complying with the provisions of the Ordinance requiring that the payment of the principal of and interest on the same be payable, and shall be expressed to be, subordinated in all respects to the security interest in and pledge created by the Ordinance as security for the Bonds.

"Variable Rate Indebtedness" means any indebtedness or obligation the interest rate on, or amount of, which is not fixed at the time of incurrence of such indebtedness or obligation, and has not at some subsequent date been fixed, at a single numerical rate for the entire remaining term of the indebtedness or obligation.

Pledge

The Bonds of each Series are special limited obligations of the City and are secured by a pledge of and shall be a charge upon and shall be payable, as to the principal, Accreted Value and Appreciated Value thereof, interest thereon, and any premiums upon redemption thereof, solely from and secured by a lien upon (i) the Net Revenues, subordinate to the lien thereon of the Prior Lien Bonds pursuant to the Prior Lien Bond Ordinances, and (ii) the other funds, assets and security described under the General Ordinance and under the Series Ordinance creating that Series. In the General Ordinance, the City pledges and places a charge upon all Net Revenues, subordinate only to the lien thereon of the Prior Lien Bonds pursuant to the Prior Lien Bond Ordinances, to secure the payment of the principal, Accreted Value and Appreciated Value of, premium, if any, and interest on the Bonds and Parity Obligations in accordance with their respective terms without priority or distinction of one over the other, subject only to the provisions of the General Ordinance, permitting the application thereof for the purposes and on the terms and conditions set forth herein, and the Net Revenues constitute a trust for the security and payment of the interest and any premium on and principal, Accreted Value and Appreciated Value of the Bonds and Parity Obligations subordinate only to the lien thereon of the Prior Lien Bonds pursuant to the Prior Lien Bond Ordinances. The City pledges to secure the payment of the principal, Accreted Value and Appreciated Value of and premium, if any, and interest on the Bonds in accordance with their terms all amounts (including proceeds of the Bonds) held by the City in the Bond Fund, subject only to the provisions of the Ordinance permitting the application thereof for the purposes and on the terms and conditions set forth herein. The pledge of Net Revenues herein made shall remain in effect until there are no Bonds or Parity Obligations Outstanding.

Application of Revenues

Net Revenues are pledged by the City to payment of principal of and interest and redemption premium on the Bonds of all series and Parity Obligations, subject to the provisions of the Ordinance permitting application for other purposes. For the application of Revenues, the Ordinance establishes an Electric Revenue Fund, a Bond Fund and a Construction Fund held by the City.

The Ordinance establishes with the City the Electric Revenue Fund into which all Revenues of the Electric System shall be deposited; provided, however, that for so long as (1) any Prior Lien Bonds are Outstanding and (2) any Notes are Outstanding, the City shall (i) continue and maintain all funds and accounts established by the Prior Lien Bond Ordinances or the Note Ordinance, as appropriate, and (ii) except as provided in a Series Ordinance authorizing the issuance of a Series of Bonds and providing for the deposit of a portion of the proceeds of such Series of Bonds into one or more of the funds established by the Ordinance, deposit Revenues into the Electric Revenue Fund and make deposits to the funds and accounts as provided by the Ordinance only after the deposits and payments required to be made by the Prior Lien Bond Ordinances and the Note Ordinance, as appropriate, have been made.

Not less than three (3) Business Days prior to any Payment Date for a Series of Bonds the City shall pay from the Electric Revenue Fund into the Bond Fund the Debt Service due on such Series of Bonds on such Payment Date; provided that, for the purposes of computing the amount to be deposited in the Bond Fund, there shall be excluded from such deposit the amount, if any, set aside in the Bond Fund from the proceeds of Bonds, Parity Obligations, Subordinated Indebtedness or other evidences of indebtedness of the City (including amounts, if any, transferred thereto from the Construction Fund) for the payment of interest on such Series of Bonds; provided, however, that so long as there shall be held in the Bond Fund an amount sufficient to pay in full all Outstanding Bonds in accordance with their terms (including the maximum amount of principal, mandatory sinking fund payments, Accreted Value, Appreciated Value or applicable Redemption Price and all interest which could become payable thereon), no transfers shall be required to be made to the Bond Fund.

Construction Fund

The General Ordinance establishes a Construction Fund to be held by the City. There shall be paid into the Construction Fund the amounts required to be so paid by the provisions of the General Ordinance and any Series Ordinance, and there may be paid into the Construction Fund, at the option of the City, any moneys received for or in connection with the Electric System by the City from any other source, unless required to be applied otherwise as provided by the Bond Ordinance. Amounts in the Construction Fund shall be applied to the Costs of the Electric System in the manner provided in the Ordinance.

The Board shall make payments from the Construction Fund in the amounts, at the times, in the manner and on the other terms and conditions established by a resolution of the Board.

To the extent that other moneys are not available therefor, amounts in the Construction Fund shall be applied to the payment of principal of and interest on Bonds when due. Amounts credited to the Construction Fund which the City at any time determines to be in excess of the amounts required for the purposes thereof shall be transferred to the Electric Revenue Fund; provided, however, that the amount of any such credit to the Electric Revenue Fund shall not constitute or be deemed to constitute Revenues for any purpose of the Ordinance.

Bond Fund

The Board shall pay out of the Bond Fund to the respective Paying Agents not less than three (3) Business Days before (i) each Payment Date for any of the Bonds the amount required for the interest and principal; and (ii) before any redemption date for the Bonds, the amount required for the payment of interest on and the Redemption Price of the Bonds then to be redeemed.

Debt Service Reserve Fund

The City may, but shall not be required to, establish a debt service reserve fund or account for a Series of Bonds issued pursuant to a Series Ordinance, each of which shall be for the benefit and security such Series of Bonds, in the manner and to the extent provided in the Series Ordinance establishing each such fund or account. The entity that shall hold any such account or fund, the amounts to be deposited therein, and any other matters and things relative to such account or fund which are not contrary to or inconsistent with the General Ordinance as theretofore in effect, shall be set forth in such resolution or Series Ordinance establishing such account or fund or any Series Ordinance thereafter adopted in connection therewith

Investment of Funds and Accounts

Unless limited by the provisions of a Series Ordinance, all amounts held in any fund or account established under the General Ordinance may be invested and reinvested as shall be provided in the applicable policies established from time to time by the Board which investment shall mature not later than such times as shall be necessary to provide moneys when needed for payments to be made from such funds and accounts. Any Paying Agent shall make all such investments of moneys held by it in accordance with written instructions received from any Authorized Representative. If any Paying Agent does not receive any such written instructions, such Paying Agent shall invest such fund in such Federal Securities as the Paying Agent shall determine.

Interest (net of that which represents a return of accrued interest paid in connection with the purchase of any investment) earned on any moneys or investments in any fund or account shall be paid into the respective fund or account in which such investment is held; provided, however, that at the direction of the Board, such interest earned on moneys or investments in any such fund or account or any

portion thereof shall be paid into the Construction Fund. Interest earned on any moneys or investments in the Construction Fund shall be held in the Construction Fund for application as provided in the General Ordinance or paid into the Electric Revenue Fund.

Obligations purchased as an investment of moneys in any fund or account created under the provisions of the Ordinance shall be deemed at all times to be a part of such fund or account and any profit realized from the liquidation of such investment shall be credited to such fund or account and any loss resulting from the liquidation of such investment shall be charged to such fund or account.

In computing the amount in any fund or account created under the provisions of the Ordinance for any purpose provided in the Ordinance, obligations purchased as an investment of moneys therein shall be valued as provided in the applicable policies established by the Board from time to time.

Covenant as to Rates, Fees and Charges

Subject to any rate regulation by any state or federal regulatory authority, the City and the Board will fix, establish, maintain and collect such rates, charges and fees for electric power and energy and services furnished by the Electric System and to the extent legally permissible, revise such rates, charges and fees to produce Revenues each Fiscal Year sufficient:

- (i) to pay all Operation and Maintenance Expenses;
- (ii) to produce Net Revenues, after deducting amounts expended during the Fiscal Year from the Net Revenues for the payment of debt service requirements of the Prior Lien Bonds, equal to an amount sufficient to pay the annual debt service due and payable in such Fiscal Year of the then Outstanding Bonds and Parity Obligations; and
- (iii) to pay after deducting the amounts determined in (i) and (ii) above, all other financial obligations of the Electric System reasonably anticipated to be paid from Revenues.

If the Revenues in any Fiscal Year are less than the aggregate amount described above, the City and the Board shall within sixty (60) days from the date of receipt of the annual audit for such Fiscal Year either (a) cause such rates and charges to be revised and adjusted to comply with the requirements set forth in this paragraph or (b) obtain a written report from an Independent Consultant after a review and study of the operations of the Electric System has been made concluding that, in their opinion, the rates and charges then in effect for the current Fiscal Year are sufficient or adjustments and revisions need to be made to such rates and charges to comply with the provisions set forth under the heading "Covenant as to Rates, Fees and Charges" and such adjustments and revisions to electric rates and charges are promptly implemented and enacted in accordance with such Independent Consultant's report.

Certain Other Covenants

Creation of Liens; Sale and Lease of Property. (a) The City shall not issue any bonds, notes, debentures, or other evidences of indebtedness of similar nature, other than the Bonds or Parity Obligations, payable out of or secured by a security interest in or pledge or assignment of the Net Revenues or other moneys, securities or funds held or set aside by the City, the Board or by any Paying Agent under the Ordinance and shall not create or cause to be created any lien or charge on the Net Revenues or such moneys, securities or funds; provided, however, that nothing contained in the Ordinance shall prevent the City from issuing, if and to the extent permitted by law (i) evidences of indebtedness (A) payable out of moneys in the Construction Fund as part of the costs of the Electric System, or (B) payable out of, or secured by a security interest in or pledge or assignment of, Net Revenues to be received on and after such date as the pledge of the Net Revenues provided in the

Ordinance shall be discharged and satisfied as provided in Article X of the General Ordinance, or (ii) Subordinated Indebtedness.

(b) To the extent and in the manner provided by law, the Board may sell, exchange or otherwise dispose of property, facilities and assets of the Electric System at any time and from time to time having a fair market value not to exceed \$5,000,000 annually, as such amount shall be indexed based on the Consumer Price Index for All Urban Consumer (CPI-U) for the U.S. City Average for All items, 1982-84 = 100 (the "CPI") in effect on the date of adoption of the General Ordinance. Furthermore, the Board, to the extent and in the manner provided by law, may lease, contract, or grant licenses for the operation of, or make arrangements for the use of, or grant easements or other rights to the properties and facilities of the Electric System. The proceeds of any such sale, exchange or disposal of property or facilities shall be used (i) to provide for the payment and redemption of Bonds or Parity Obligations or (ii) to acquire capital assets for any Electric System purpose.

Maintenance of Insurance. (a) The Board shall at all times use its best efforts to keep or cause to be kept the properties of the Electric System which are of an insurable nature and of the character usually insured by those operating properties similar to the Electric System insured against loss or damage by fire and from other causes customarily insured against and in such relative amounts as are usually obtained. The Board shall at all times use its best efforts to maintain or cause to be maintained insurance or reserves against loss or damage from such hazards and risks to the person and property of others as are usually insured or reserved against by those operating properties similar to the properties of the Electric System. The Board shall only be required to obtain such insurance if the same is available at reasonable rates and upon reasonable terms and conditions.

In lieu of obtaining policies for insurance as provided above, the City may self-insure against risks, accidents, claims or casualties described above, or such risks, accidents, claims or casualties may be covered under one or more blanket insurance policies maintained by the City or the Board.

Reconstruction; Application of Insurance Proceeds. If any useful portion of the Electric System shall be damaged or destroyed, the Board shall make due proof of loss and shall do all things necessary or desirable to cause the insuring companies to make payment in full directly to the Board. The proceeds of insurance covering such property, together with any other funds available for such purpose as the Board in its sole discretion shall determine, shall be used to repair the property damaged or replace the property destroyed; provided, however, if the insurance proceeds and other funds that might be lawfully appropriated therefore are insufficient to repair or replace the damaged property, then such insurance proceeds received for the damaged or destroyed property shall be deposited to the credit of a special insurance account or fund until other funds become available which, together with funds on deposit to the credit of such special insurance account, will be sufficient to make the repairs or replacements to the property damaged or destroyed that resulted in such insurance proceeds or make other improvements to the Electric System.

Records and Accounts. The Board shall keep or cause to be kept proper books of record and account (separate from all other records and accounts) in which complete and correct entries shall be made of its transactions relating to the Electric System and each fund and account established under the Ordinance, and which, together with all other books and papers of the Board or the City, including insurance policies, relating to the Electric System, shall upon reasonable advance notice and during regular business hours, be subject to the inspection of the Owners of an aggregate of not less than 5% in principal amount of the Bonds and Parity Obligations then Outstanding or their representatives duly authorized in writing.

Amendment of General Ordinance

The General Ordinance and the rights and obligations of the City and of the Owners of the bonds may be amended by a Supplemental Ordinance with the written consent of the Owners of a majority in aggregate amount of Bond Obligation of the Bonds (or, if such Supplemental Ordinance is only applicable to a Series of Bonds, the Bonds of that Series) then Outstanding; provided that if such modification or amendment will, by its terms, not take effect so long as any Bonds of any particular maturity remain outstanding, the consent of the Owners of such Bonds shall not be required and such Bonds shall not be deemed to be Outstanding for the purpose of any calculation of Bonds Outstanding under this paragraph.

No such modification or amendment may (A) extend the fixed maturity of any Bond, or reduce the amount of Bond Obligation thereof, or extend the time of payment or reduce the amount of any Sinking Fund Installment provided for the payment of any Bond, or reduce the rate of interest thereon, or extend the time of payment of interest thereon, or reduce any premium payable upon the redemption thereof, without the consent of the Owner of each Bond so affected, (B) reduce the aforesaid percentage of Bond Obligation the consent of the Owners of which is required to effect any such modification or amendment, or permit the creation of any lien on the Net Revenues and other assets pledged under the General Ordinance prior to or on a parity with the lien created by the General Ordinance, or deprive the Owners of the Bonds of the lien created by the General Ordinance on such Net Revenues and other assets (in each case, except as expressly provided in the General Ordinance), without the consent of the Owners of all of the Bonds then Outstanding.

The General Ordinance may be amended without the consent of Owners, (1) to cure any ambiguity, omission, defect or inconsistent provision in the General Ordinance; (2) to insert provisions clarifying the General Ordinance; or (3) to make any other modification or amendment of the Resolution which the Board, in its sole discretion, determines will not have a material adverse effect on the interests of the General Ordinance.

Without the consent of the Owners, the City may adopt a Supplemental Ordinance which (1) adds covenants and agreements of the City or the Board; (2) permits the qualification of the General Ordinance under the Trust Indenture Act of 1939 or any similar federal statute and add such other terms, conditions and provisions as may be permitted by said act or similar federal statute, and which shall not materially and adversely affect the interests of the Owners; covenants and agreements of the City or the Board; (3) adds limitations and restrictions to be observed by the City or the Board; (4) authorizes Bonds of an additional series; (5) confirms any security interest, pledge or assignment of the Revenues or of any other moneys, securities or funds; (6) makes any modification which is to be effective only after all Bonds of each series Outstanding as of the date of the adoption of such Supplemental Ordinance cease to be Outstanding; (7) authorizes Subordinated Indebtedness; (8) maintains the exclusion of interest on a Series of Bonds from gross income for purposes of federal income taxation, to make such provisions as are necessary or appropriate to ensure such exclusion; or (9) authorizes the establishment such funds or accounts as the Board may determine to be necessary, desirable, advisable or in the best interests of the Board and the City, and, in connection therewith, to specify and determine the matters and things referred to in the General Ordinance or to modify any such matters and things in any other respect whatsoever.

Defeasance

Except as may be provided in any Series Ordinance creating a Series of Bonds, Bonds of any Series may be paid by the City in any of the following ways:

(a) by paying or causing to be paid the Bond Obligation of and interest on all Bonds Outstanding of the Series, as and when the same become due and payable;

- (b) by depositing with the Paying Agent, an escrow agent or other fiduciary, in trust, at or before maturity, money or securities in the necessary amount (as provided in the General Ordinance) to pay or redeem all Bonds Outstanding of the Series; or
- (c) by delivering to the Paying Agent, for cancellation by it, all Bonds then Outstanding of the Series.

Upon the deposit with the Paying Agent, an escrow agent or other fiduciary, in trust, at or before maturity, of money or securities in the necessary amount (as provided in the General Ordinance) to pay or redeem any Outstanding Bond (whether upon or prior to its maturity or the redemption date of such Bond), provided that, if such Bond is to be redeemed prior to maturity, irrevocable notice of such redemption shall have been given as provided in the General Ordinance or provision satisfactory to the Registrar and Paying Agent shall have been made for the giving of such notice, then all liability of the City in respect of such Bond shall cease, terminate and be completely discharged; provided that the Owner thereof shall thereafter be entitled to the payment of the principal of and premium, if any, and interest on such Bond, and the City shall remain liable for such payment, but only out of such money or securities deposited as aforesaid for their payment, subject, however, to the provisions of the General Ordinance and the continuing duties of the Registrar and Paying Agent.

Whenever in the General Ordinance it is provided or permitted that there be deposited with or held in trust by the Paying Agent, an escrow agent or other fiduciary, money or securities in the necessary amount to pay or redeem any Bonds, the money or securities so to be deposited or held may include money or securities held by the Paying Agent in the funds and accounts established pursuant to the General Ordinance and shall be one or more of the following:

- (i) lawful money of the United States of America in an amount equal to the Bond Obligation of such Bonds and all unpaid interest thereon to maturity, except that, in the case of Bonds which are to be redeemed prior to maturity and in respect of which notice of such redemption shall have been given as provided in Article IV of the General Ordinance or provision satisfactory to the Paying Agent shall have been made for the giving of such notice, the amount to be deposited or held shall be the Bond Obligation or Redemption Price of such Bonds and all unpaid interest thereon to the redemption date; or
- (ii) non-callable Federal Securities or Municipal Obligations, the principal of and interest on which when due will, in the opinion of an independent certified public accountant delivered to the Paying Agent for which payment is being made (upon which opinion the Paying Agent may conclusively rely), provide money sufficient to pay the Bond Obligation or Redemption Price of and all unpaid interest to maturity, or to the redemption date, as the case may be, on the Bonds to be paid or redeemed, as such Bond Obligation or Redemption Price and interest become due; provided that, in the case of Bonds which are to be redeemed prior to the maturity thereof, notice of such redemption shall have been given as provided in the General Ordinance or provision satisfactory to the shall have been made for the giving of such notice.

Events of Default; Remedies

Events of Default. Each of the following events shall be an "Event of Default":

- (a) Default by the City or the Board in the due and punctual payment of the principal, Accreted Value or Appreciated Value of, or premium, if any, on any Bond (whether at maturity, by acceleration, call for redemption or otherwise);
- (b) Default by the City or the Board in the due and punctual payment of the interest on any Bond and such default shall continue for a period of thirty (30) days after the due date for the payment of such interest;

- (c) Failure of the City or the Board to observe and perform any of its other covenants, conditions or agreements under the Ordinance or in the Bonds for a period of 90 days after written notice from the Owners of 25% in aggregate amount of Bond Obligation of the Bonds then outstanding, specifying such failure and requesting that it be remedied, or in the case of any such default that cannot with due diligence be cured within such 90 day period, failure of the City and the Board to proceed promptly to cure the same and thereafter prosecute the curing of such default with due diligence;
- (d) (1) Failure of the Board generally to pay its debts as the same become due, (2) commencement by the Board of a voluntary case under the Federal bankruptcy laws, as now or hereafter constituted, or any other applicable Federal or state bankruptcy, insolvency or other similar law, (3) consent by the Board to the appointment of a receiver, liquidator, assignee, trustee, custodian, sequestrator or other similar official for the Board, the Electric System or any substantial part of the Board's property, or to the taking possession by any such official of the Electric System or any substantial part of the Board's property, (4) making by the Board of any assignment for the benefit of creditors, or (5) taking of corporate action by the Board in furtherance of any of the foregoing;
- (e) The entry of any (1) decree or order for relief by a court having jurisdiction over the Board or its property in an involuntary case under the Federal bankruptcy laws, as now or hereafter constituted, or any other applicable Federal or state bankruptcy, insolvency or other similar law, (2) appointment of a receiver, liquidator, assignee, trustee, custodian, sequestrator or similar official for the City, the Board, the Electric System or any substantial part of the City's property, or (3) order for the termination or liquidation of the City, the Board, the Electric System or affairs of any of them;
- (f) Failure of the City or the Board within 90 days after the commencement of any proceedings against either of them under the Federal bankruptcy laws prior any other applicable Federal or state bankruptcy, insolvency or similar law, to have such proceedings dismissed or stayed; or
- (g) Any Event of Default under the Prior Lien Bond Ordinances shall occur and shall not be cured as provided by the Prior Lien Bond Ordinances.

Remedies Upon Occurrence of an Event of Default. Upon the happening and continuance of any event of default, then and in every such case the Owners of not less than twenty-five percent (25%) of the Bond Obligation may appoint any state bank, national bank, trust company or national banking association qualified to transact business in the State of Nebraska to serve as trustee for the benefit of the Owners of all Bonds then outstanding (the "Receiver"). Notice of such appointment, together with evidence of the requisite signatures of the Owners of twenty-five percent (25%) of the Bond Obligation and the trust instrument under which the Receiver shall have agreed to serve shall be filed with the City and the Board with a copy to the Receiver and notice of such appointment shall be mailed to the Owners of the Bonds. After the appointment of a Receiver hereunder, no further Receivers may be appointed; however, the Owners of a majority of the Bond Obligation may remove the Receiver initially appointed and appoint a successor and subsequent successors at any time. If the default for which the Receiver was appointed is cured or waived pursuant to the Ordinance, the appointment of the Receiver shall terminate with respect to such default.

After a Receiver has been appointed pursuant to the foregoing, the Receiver may proceed, and upon the written request of Owners of twenty-five percent (25%) of the Bond Obligation shall proceed, to protect and enforce the rights of the Owners under the laws of the State of Nebraska, including the Act, and under the Ordinance, by such suits, actions or special proceedings in equity or at law, or by regulatory or administrative proceedings in the office of any board, body or officer having jurisdiction, either for the specific performance of any covenant or agreement contained herein or in aid of execution of any power herein granted or for the enforcement of any proper legal or equitable remedy, all as the Receiver, being advised by counsel, shall deem most effectual to protect and enforce such rights.

In the enforcement of any remedy against the City or the Board, under the Ordinance the Receiver shall be entitled to sue for, enforce payment of and receive any and all amounts then or during any default becoming, and at any time remaining, due from the City or the Board, for principal, interest or other sums due under any provisions of the Ordinance or of such Bonds and unpaid, with interest on overdue payments of principal and, if permitted by law, at the rate or rates of interest specified in such Bonds, together with any and all reasonable costs and expenses of collection and of all proceedings hereunder and under such Bonds without prejudice to any other right or remedy of the Receiver or of the Owners, and to recover and enforce any judgment or decree against the City or the Board, but solely as provided herein and in such Bonds, for any portion of such amounts remaining unpaid and interest, costs and expenses as above provided, and to collect (but solely from moneys in the Electric Revenue Fund, as the case may be, and any other moneys available for such purpose) in any manner provided by law, the moneys adjudged or decreed to be payable.

Directions to Receiver as to Remedial Proceedings. Anything in the Ordinance to the contrary notwithstanding, the Owners of a majority of the Bond Obligation shall have the right, by an instrument or concurrent instruments in writing executed and delivered to the Receiver, to direct the method and place of conducting all remedial proceedings to be taken by the Receiver hereunder, provided that such direction shall not be otherwise than in accordance with law or the provisions of the Ordinance, and that the Receiver shall have the right to decline to follow any such direction which in the opinion of the Receiver would be unjustly prejudicial to Owners not parties to such direction.

Pro Rata Application of Funds. (a) Anything in the Ordinance to the contrary notwithstanding, if at any time the moneys in the Electric Revenue Fund, shall not be sufficient to pay the principal Accreted Value, Appreciated Value or Redemption Price of or the interest on the Bonds as the same become due and payable, such moneys, together with any moneys then available or thereafter becoming available for such purpose, whether through the exercise of the remedies provided for in the Ordinance or otherwise, shall be applied as follows:

- (i) Unless the principal of all the Bonds and Parity Obligations shall have become due and payable, all such moneys shall be applied (A) to the payment of all installments of interest then due on the bonds and the interest component of Parity Obligations then due, in the order of the maturity of the installments of such interest, to the persons entitled thereto, ratable, without any discrimination or preference, and (B) to the payment of all installments of principal of Bonds and Parity Obligations then due.
- (ii) If the principal of all the Bonds and Parity Obligations shall have become due and payable, all such moneys shall be applied to the payment of the principal Accreted Value, Appreciated Value or Redemption Price or interest then due and unpaid upon the Parity Obligations, without preference or priority of principal over interest or of interest over principal, or of any installment of interest over any other installment of interest, or of any Bonds or Parity Obligations over any other Bonds or Parity Obligations, ratable, according to the amounts due, respectively, for principal or interest to the persons entitled thereto without any discrimination or preference except as to any difference in the respective rates of interest specified in the Bond and Parity Obligations.
- (b) Whenever moneys are to be applied by the Receiver pursuant to the provisions stated above, such moneys shall be applied by the Receiver at such times, and from time to time, as the Receiver in its sole discretion shall determine, having due regard to the amount of such moneys available for application and the likelihood of additional moneys becoming available for such application in the future; the setting aside of such moneys, in trust for the proper purpose, shall constitute proper application by the Receiver; and the Receiver shall incur no liability whatsoever to the City, to the Board, to any Owner or

to any other person for any delay in applying any such moneys, so long as the Receiver acts with reasonable diligence, having due regard to the circumstances, and ultimately applies the same in accordance with such provisions of the Ordinance as may be applicable at the time of applicable by the Receiver. Whenever the receiver shall exercise such discretion in applying such moneys, it shall fix the date (which shall be an interest payment date unless the Receiver shall deem another date more suitable) upon which such application is to be made and upon such date interest on the amounts of principal to be paid on such date shall cease to accrue, the Accreted Value of Capital Appreciation Bonds shall cease to accrete and the Appreciated Value of any Deferred Income Bond. The Receiver shall give such notice as it may deem appropriate of the fixing of any such date, and shall not be required to make payment to the Owner of any Bond unless such Bond shall be presented to the Receiver for appropriate endorsement or for cancellation if fully paid.

Restrictions on Actions by Individual Owners. No Owner shall have any right to institute any suit, action or proceeding in equity or at law for the execution of any trust under the Ordinance or for any other remedy thereunder unless such Owner previously shall have given to the Receiver written notice of the event of default on account of which such suit, action or proceeding is to be taken, and unless the Owners of not less than twenty-five percent (25%) of the Bond Obligation shall have made written request of the Receiver after the right to exercise such powers or right of action, as the case may be, shall have accrued and shall have afforded the Receiver a reasonable opportunity either to proceed to exercise the powers granted in the Ordinance or to institute such action, suit or proceeding in its or their name, and unless, also, there shall have been offered to the Receiver reasonable security and indemnity against the costs, expenses and liabilities to be incurred therein or thereby, including the reasonable fees of its attorneys (including fees on appeal), and the Receiver shall have refused or neglected to comply with such request within a reasonable time; and such notification, request and offer of indemnity are hereby declared in every such case, at the option of the Receiver, to be conditions precedent to the execution of the powers and trusts of the Ordinance or for any other remedy hereunder. It is understood and intended that no one or more Owners of the Bonds secured by the Ordinance shall have any right in any manner whatever by his or their action to affect, disturb or prejudice the security of the Ordinance, or to enforce any right hereunder, except in the manner provided in the Ordinance, and that all proceedings at law or in equity shall be instituted, had and maintained in the manner provided in the Ordinance and for the benefit of all Owners, and that any individual rights of action or any other right given to one or more of such Owners by law are restricted by the Ordinance to the rights and remedies provided in the Ordinance.

Nothing contained in the Ordinance, however, shall affect or impair the right of any Owner individually, to enforce the payment of the principal of and interest on his Bond or Bonds at and after the maturity thereof, at the time, place, from the source and in the manner provided in the Ordinance.

2012 ORDINANCE

The following is a summary of certain provisions of the 2012 Ordinance. Summaries of certain definitions contained the 2012 Ordinance are set forth below. Other terms defined in the 2012 Ordinance for which summary definitions are not set forth are indicated by capitalization. The summary does not purport to be a complete description of the terms of the 2012 Ordinance and, accordingly, is qualified by reference thereto and is subject to the full text thereof. Copies of the 2012 Ordinance may be obtained from Lincoln Electric System or its Financial Advisor.

Tax Covenants. (a) In order to maintain the exclusion from gross income for Federal income tax purposes of interest on the 2013 Bonds, and for no other purpose, the City covenants in the 2012 Ordinance to comply with each applicable requirement of the Internal Revenue Code of 1986, as amended (the "Code"). In furtherance of the covenant contained in the preceding sentence, the City agrees to comply with the Federal Tax Certificate (the "Tax Certificate") executed by the City on the date of the issuance and delivery of the 2013 Bonds, as such Tax Certificate may be amended from time to time.

- (b) The City covenants and agrees with the Registrar and Paying Agent and the Owners of the 2013 Bonds that the City shall not take any action or omit to take any action, which action or omission, if reasonably expected on the date of initial issuance and delivery of the 2013 Bonds, would cause any of the 2013 Bonds to be "private, activity bonds" or "arbitrage bonds" within the meaning of Sections 141(a) and 148(a), respectively, of the Code, or any successor provisions.
- (c) The City shall make any and all payments required to be made to the United States Department of Treasury in connection with the 2013 Bonds pursuant to Section 148(f) of the Code from amounts on deposit in the funds and accounts established under the Ordinance and available therefore.
- (d) Upon the authentication and delivery of the 2013 Bonds, the City shall furnish to the Registrar and Paying Agent a certificate of any Authorized Officer of the City to the effect that, on the basis of the facts, estimates and circumstances in existence on the date of such authentication and delivery, it is not expected that the proceeds of the 2013 Bonds will be used in a manner that would cause such 2013 Bonds to be "arbitrage bonds" within the meaning of Section 148(a) of the Code and the Treasury Regulations thereunder and such certificate shall set forth such facts and circumstances which may be in brief and summary terms, and shall state that to the best of the knowledge and belief of such Authorized Officer, there are no other facts or circumstances that would materially change the expectations expressed in such certificate.
- (e) Notwithstanding any other provisions of the Ordinance to the contrary, so long as necessary in order to maintain the exclusion from gross income for Federal income tax purposes under Section 103 (a) of the Code of interest on the 2013 Bonds, the covenants contained under the heading "Tax Covenants" shall survive the payment of the 2013 Bonds and the interest thereon, including any payment or defeasance thereof pursuant to the General Ordinance.
- 2013 Debt Service Reserve Fund. (a) The City shall establish a 2013 Debt Service Reserve Fund to be held by the Board into which an amount equal to \$1,419,946.25 shall be deposited upon the issuance of the 2013 Bonds. The 2013 Debt Service Reserve Fund shall be maintained in an amount equal to six (6) months' interest on the 2013 Bonds Outstanding on the date of such computation, as such amount may be reduced from time to time. All amounts deposited into the 2013 Debt Service Reserve Fund shall be held and administered in accordance with the provisions set forth below.
- (b) If any withdrawal from either the 2013 Debt Service Reserve Fund is made for the purpose of subsection (d)(i) below, the amount of such withdrawal shall be restored by the Board in no

more than 12 substantially equal, consecutive, monthly installments, each payable on the last Business Day of the month, commencing with the month in which the withdrawal is made; provided that, if any withdrawal is made and if, prior to the restoration of the amount withdrawn, an additional withdrawal is made, such additional withdrawal shall be restored in equal monthly installments over the remainder of the restoration period for the initial withdrawal.

- (c) Any money on deposit in the 2013 Debt Service Reserve Fund shall be applied as follows:
 - (i) On the date of each required payment from the Bond Fund, moneys in the 2013 Debt Service Reserve Fund shall be applied to cure any deficiency in the Bond Fund with respect to the 2013 Bonds.
 - (ii) Any amount in the 2013 Debt Service Reserve Fund in excess of the Reserve Fund Requirement on all Outstanding 2013 Bonds shall be transferred to the Bond Fund and credited against the payments of the principal and interest next becoming due on the 2013 Bonds.
 - (iii) On the interest payment date immediately preceding the final maturity date of 2013 Bonds, money held in the 2013 Debt Service Reserve Fund shall be deposited into the Bond Fund and credited against the deposits required to be made into the Bond Fund with respect to the 2013 Bonds but only to the extent that, immediately following such crediting and transfer, the amount on deposit in the 2013 Debt Service Reserve Fund is equal to the lesser of (A) the Reserve Fund Requirement and (B) the amount of principal and interest due in respect of the 2013 Bonds on such final maturity date.
- (d) The City and the Board shall be permitted to substitute a letter of credit, surety bond or other credit enhancement (each, a "credit facility") for funds on deposit in either the 2013 Debt Service Reserve Fund, provided that:
 - (i) the credit facility (including any replacement credit facility) is issued by a bank, trust company, national banking association or insurance company whose unsecured long term debt obligations (in the case of a bank, trust company or national banking association) or whose claims paying abilities (in the case of an insurance company) are rated not lower than the "AAA" Rating Category by a Rating Agency at the time the credit facility is issued and at the time of each extension or renewal thereof;
 - (ii) the issuer of the credit facility does receive as security for any reimbursement obligation in respect of the credit facility a lien solely on the Net Revenues on a parity with any Bonds or Parity Obligations then Outstanding; and
 - (iii) the credit facility (including any replacement credit facility, if provided by a different issuer) has an initial term of not less than one year and any extension, renewal or replacement (if provided by the same issuer) thereof has a term of not less than one year;

Upon such substitution, funds on deposit in the 2013 Debt Service Reserve Fund which, when added to the face amount of the credit facility, exceed the Reserve Fund Requirement on the Outstanding 2013 Bonds for which such Debt Service Reserve Fund was established, shall be applied as provided in subsection (d)(ii) above. Thereafter, the credit facility shall be considered a part of such Debt Service Reserve Fund and the amount available thereunder shall be included in any calculations of the amount required to be retained in such Debt Service Reserve Fund; provided that, (A) if the sum of the amount available under the credit facility and the amount of moneys on deposit in such Debt Service Reserve

Fund exceed the amount required to be on deposit pursuant to subsection (a) above, the Board shall be permitted (i) to cause the amount available under the credit facility to be reduced by an amount equal to such excess, or (ii) to direct that the excess money be applied as permitted under subsection (d)(ii) above, and (B) if the credit facility is not extended, renewed or replaced at least six months prior to its scheduled expiration or termination date, unless such Debt Service Reserve Fund is otherwise terminated in accordance with the provisions set forth under heading "2013 Debt Service Reserve Fund," the Board shall be obligated to restore the difference between the Reserve Fund Requirement and the value of such Debt Service Reserve Fund computed without regard to the credit facility prior to the expiration or termination date of such credit facility.

(e) The Board shall have the option to terminate the 2013 Debt Service Reserve Fund and to have transferred to the Bond fund all amounts held therein if the Net Revenues for each of the three preceding Fiscal Years are not less than 140% of Debt Service in such Fiscal Year on all Bond and Parity Obligations then Outstanding, based on the audited financial statements for such Fiscal Year. Upon receipt of the audits described in the preceding sentence, the Board shall transfer all amounts held in such Debt Service Reserve Fund to the Bond Fund and use the same to pay debt service on the 2013 Bonds for which such Debt Service Reserve Fund was established.

APPENDIX D

FORM OF CONTINUING DISCLOSURE UNDERTAKING

[THIS PAGE INTENTIONALLY LEFT BLANK]

CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (the "Disclosure Certificate") is executed and delivered by The City of Lincoln, Nebraska (the "City"), acting by and through Lincoln Electric System ("LES"), in connection with the issuance of \$75,525,000 The City of Lincoln, Nebraska, Lincoln Electric System Revenue and Refunding Bonds, Series 2013 (the "Bonds"). The Bonds are being issued pursuant to Ordinance Nos. 17879 and 19683 adopted July 23, 2001 and March 12, 2012, respectively, by the Council (collectively, the "Ordinance"). LES covenants and agrees as follows:

Section 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by LES for the benefit of the Registered and Beneficial Owners of the Bonds and in order to assist the Participating Underwriters in complying with Rule 15c2-12(b)(5) (the "Rule") promulgated by the Securities and Exchange Commission (the "SEC"). It being the intention of LES that there be full and complete compliance with the Rule, this Disclosure Certificate shall be construed in accordance with the written interpretative guidance and no-action letters published from time to time by the SEC and its staff with respect to the Rule and in accordance with amendments to the Rule adopted or effective after the date hereof.

Section 2. Nature of the Undertaking. LES, in accordance with the Rule, hereby covenants to provide or cause to be provided:

- (a) to the Municipal Securities Rulemaking Board (the "MSRB") in an electronic format as prescribed by the MSRB, (i) annual financial information and operating data of the type described in Section 3 below for each fiscal year ending on or after December 31, 2013, not later than the following May 31, and (ii) when and if available, audited financial statements of LES for each fiscal year ending on or after December 31, 2013.
- (b) to the MSRB in a timely manner not in excess of 10 business days after the occurrence of the event, notice of (i) any event described in Section 4, (ii) LES' failure to provide an Annual Report on or prior to the date specified above, and (iii) any change in the accounting principles applied in the preparation of its annual financial statements or any change in its fiscal year.
- **Section 3.** Content of Annual Reports. The Annual Report shall contain or include by reference the following:
- (a) The audited financial statements of LES for the prior fiscal year, prepared in accordance with generally accepted accounting principles and accounting practices prescribed by the Federal Energy Regulatory Commission. If LES' audited financial statements are not available by the time the Annual Report is required to be filed pursuant to Section 2(a)(i), the Annual Report shall contain unaudited financial statements in a format similar to the financial statements contained in the final Official Statement, and the audited financial statements shall be filed in the same manner as the Annual Report when they become available.
 - (b) LES statistical and operating data consisting of the following information:
 - (i) Rating Agency Update Report;
 - (ii) FERC 412 Report; and
 - (iii) Financial information and operating data with respect to LES of the type included in the Official Statement with respect to the Bonds under the headings: "-LES Share of Laramie River Station," "-LES Share of Walter Scott Energy Station #4," "-LES Local Generation,"

"-LES Share of Gerald Gentleman Station," "-LES Share of Sheldon Station," and "-Historical Resource Summary." Such financial information and operating data is expected to be contained in the Rating Agency Update Report.

Any or all of the items listed above may be included by specific reference to other documents, including official statements of debt issues of LES or related public entities, which are available to the public on the MSRB's internet website or which have been filed with the SEC. LES shall clearly identify each such other document so included by reference.

Each filing with the MSRB shall prominently state the date, title and CUSIP number of the Bonds and such additional identifying information as specified by the MSRB.

Section 4. Reporting of Significant Events. LES shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Bonds:

- (a) Principal and interest payment delinquencies;
- (b) Non-payment related defaults, if material;
- (c) Unscheduled draws on debt service reserves reflecting financial difficulties;
- (d) Unscheduled draws on credit enhancements reflecting financial difficulties;
- (e) Substitution of credit or liquidity providers, or their failure to perform;
- (f) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices of determinations with respect to the tax status of the Bonds or other material events affecting the tax-exempt status of the Bonds;
- (g) Modifications to rights of holders of the Bonds, if material;
- (h) Bond calls, if material, and tender offers;
- (i) Defeasances;
- (j) Release, substitution, or sale of property securing repayment of the Bonds, if material;
- (k) Rating changes;
- (l) Bankruptcy, insolvency, receivership or similar events relating to LES;
- (m) The consummation of a merger, consolidation, or acquisition involving LES or the sale of all or substantially all of the assets of LES, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; and
- (n) Appointment of a successor or additional trustee or the change of name of a trustee, if material.

Section 5. Termination of Reporting Obligation. The obligations of LES under this Disclosure Certificate shall terminate upon the legal defeasance, prior redemption or payment in full of all of the Bonds.

Section 6. Dissemination Agent. LES may, at any time during the term of the disclosure obligation contained herein, appoint or engage a Dissemination Agent or third-party consultant to assist it in carrying out its obligations under this Disclosure Certificate, and may discharge any such Dissemination Agent.

Section 7. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, LES may amend this Disclosure Certificate and any provision of this Disclosure Certificate may be waived as may be necessary or appropriate to achieve compliance with any applicable federal securities law or rule, to cure any ambiguity, inconsistency or formal defect or omission, and to address any change in circumstances arising from a change in legal requirements, change in law, or change in the identity, nature, or status of LES, or type of business conducted by LES. Any such amendment shall be made only in a manner consistent with the Rule and any amendments and interpretations thereof by the SEC. In the event of any amendment or waiver of a provision of this Disclosure Certificate, LES shall describe such amendment in the next Annual Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or, in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by LES. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements, the Annual Report for the year in which the change is made should present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

Section 8. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent LES from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate, or including any other information in any Annual Report or notice of occurrence of an event listed in Section 4, in addition to that which is required by this Disclosure Certificate. If LES chooses to include any information in any Annual Report or notice of occurrence of a listed event specified in Section 4 in addition to that which is specifically required by this Disclosure Certificate, LES shall not have any obligation under this Agreement to update such information or include it in any future Annual Report or notice of occurrence of a listed event specified in Section 4.

Section 9. Default. In the event of a failure of LES to comply with any provision of this Disclosure Certificate, any Holder or Beneficial Owner of the Bonds may take such actions as may be necessary and appropriate, including seeking mandamus or specific performance by court order, to cause LES to comply with its obligations under this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an Event of Default under the Ordinance, and the sole remedy under this Disclosure Certificate in the event of any failure of LES to comply with this Disclosure Certificate shall be an action to compel performance.

Dated: June 20, 2013.

APPENDIX E

BOOK-ENTRY SYSTEM

[THIS PAGE INTENTIONALLY LEFT BLANK]

BOOK-ENTRY SYSTEM

The information relating to the Book-Entry System under this heading have been furnished by The Depository Trust Company and have not been independently verified by LES or the Underwriters. Neither the Underwriters nor LES makes any representation whatsoever as to the accuracy, adequacy or completeness of such information.

General

The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the 2013 Bonds. The 2013 Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered Bond Certificate will be issued for each maturity of each series of the 2013 Bonds in the aggregate principal amount of such maturity and will be deposited with DTC.

DTC and Its Direct and Indirect Participants

DTC, the world's largest depository, is a limited purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of the Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of "AA+." The DTC rules applicable to its Direct and Indirect Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchase of Ownership Interests

Purchases of the 2013 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the 2013 Bonds on DTC's records. The ownership interest of each actual purchaser of each 2013 Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmation providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the 2013 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their

ownership interests in the 2013 Bonds, except in the event that use of the book-entry system for the 2013 Bonds is discontinued.

Transfers and Exchanges of Beneficial Ownership Interests

To facilitate subsequent transfers, all 2013 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of 2013 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee does not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the 2013 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such 2013 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Notices and Consents

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of 2013 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the 2013 Bonds, such as redemptions, tenders, defaults and proposed amendments to the 2013 Bonds documents. For example, Beneficial Owners of 2013 Bonds may wish to ascertain that the nominee holding the 2013 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to 2013 Bonds unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts 2013 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Payments of Principal, Interest and Redemption Price

Principal, redemption proceeds and interest payments on the 2013 Bonds will be made to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Bond Fund Trustee, on each payment date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC (or its nominee), the Paying Agent or LES, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, redemption proceeds (if applicable) and interest to Cede & Co., or such other nominee as may be requested by an

authorized representative of DTC, is the responsibility of LES or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to Beneficial Owners is the responsibility of Direct and Indirect Participants.

The Beneficial Owners of the 2013 Bonds will rely on DTC's Direct or Indirect Participants for timely payments and other notices and for otherwise making available to the Beneficial Owner the rights of a Bondholder. No assurances can be provided that in the event of bankruptcy or insolvency of DTC or a Direct or Indirect Participant through which a Beneficial Owner holds beneficial interests in the 2013 Bonds, payment will be made by DTC or the Direct or Indirect Participant on a timely basis.

Discontinuance of DTC Services

DTC may discontinue providing its services as depository with respect to the 2013 Bonds at any time by giving reasonable notice to the District or the Paying Agent. Under such circumstances, in the event that a successor depository is not obtained, 2013 Bond certificates are required to be printed and delivered.

LES may decide to discontinue use of the system of book-entry transfers through DTC (or a successor depository). In that event, 2013 Bond certificates will be printed and delivered.

LES and the Paying Agent will not have any responsibility or obligation to Direct or Indirect Participants or to any Beneficial Owner with respect to (i) the accuracy of any records maintained by DTC or any Direct or Indirect Participant; (ii) the payment by DTC or any Direct or Indirect Participant of any amount with respect to the principal or redemption price of, or interest on, the 2013 Bonds; (iii) any notice which is permitted or required to be given to Bondholders under the Resolution; (iv) the selection by DTC or any Direct or Indirect Participant of any person to receive payment in the event of a partial redemption of the 2013 Bonds; or (v) any consent given or other action taken by DTC as Bondholder.

The information included under this heading "BOOK-ENTRY SYSTEM," other than in this paragraph and the preceding bold face paragraphs, has been provided by DTC. No representation is made by LES, the Paying Agent or the Underwriters as to the accuracy or adequacy of such information provided by DTC or as to the absence of material adverse changes in such information subsequent to the date thereof.

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX F

FORM OF OPINION OF BOND COUNSEL

June 20, 2013

The City of Lincoln, Nebraska Acting for and on behalf of: Lincoln Electric System 1040 "0" Street Lincoln, NE 68508

Merrill Lynch, Pierce, Fenner & Smith Incorporated, as Representative of the Underwriters 12th Floor One Bryant Park New York, NY 10036

> \$75,525,000 The City of Lincoln, Nebraska Lincoln Electric System Revenue and Refunding Bonds Series 2013

Ladies and Gentlemen:

We have examined proceedings relating to the issuance by the City of Lincoln, Nebraska (the "Issuer") of its Lincoln Electric System Revenue and Refunding Bonds, Series 2013 (the "2013 Bonds"). The 2013 Bonds are issued pursuant to Ordinance No. 17879 adopted on July 23, 2001 by the Council (the "General Ordinance") and Ordinance No. 19683 adopted on March 12, 2012, by the Council (the "Sixth Series Ordinance"). The General Ordinance and the Sixth Series Ordinance are hereinafter collectively referred to as the "Ordinance." Capitalized terms used and not otherwise defined in this opinion have the meanings assigned to those terms in the Ordinance.

The 2013 Bonds recite that they are issued under and pursuant to and in full compliance with the Constitution and laws of the State of Nebraska, including the Charter of the Issuer (the "Charter"), and the Ordinance.

We have examined the Constitution and statutes of the State of Nebraska, applicable provisions of the Charter, and a certified transcript of the proceedings of the Issuer authorizing or relating to the issuance of the 2013 Bonds. We have also reviewed such other documentation and certificates as we deem relevant and necessary in rendering this opinion. The Issuer has covenanted in the Ordinance and the tax compliance certificate of the Issuer dated the date hereof (the "Tax Certificate") to comply with all necessary provisions of the Internal Revenue Code of 1986 (the "Code") and the related regulations, rulings and judicial decisions in order to preserve the exclusion of interest on the 2013 Bonds from gross income for federal income tax purposes. Noncompliance by the Issuer with such restrictions may cause the interest on the 2013 Bonds to be subject to federal income taxation retroactive to their date of issue. We have assumed that the Issuer and others will comply with the covenants, agreements, representations

June 20, 2013 Page 2

and certifications included in the items examined. As to questions of fact material to our opinion, we have relied upon the certifications and representations of public officials and others in the items examined without undertaking to verify the same by independent investigation.

Based on such examination, we are of the opinion that:

- 1. The Issuer is validly existing as a political subdivision of the State of Nebraska (the "State") with the power to adopt the Ordinance, perform the agreements on its part contained therein, and issue the 2013 Bonds.
- 2. The 2013 Bonds have been duly authorized, executed and delivered by the issuer and are valid and legally binding special obligations of the Issuer.
- 3. The 2013 Bonds are payable solely from the net income and revenues derived by the Issuer from the operation of the Lincoln Electric System, after providing for the costs of operation and maintenance thereof. The 2013 Bonds do not constitute general obligations of the Issuer and do not constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provision, limitation or restriction. The taxing power of the Issuer is not pledged to the payment of the 2013 Bonds.
- 4. The Ordinance has been duly adopted by the governing body of the Issuer and constitutes a valid and legally binding obligation of the Issuer enforceable against the Issuer. The Ordinance creates a valid lien on the revenues and other funds pledged by the Ordinance for the security of the 2013 Bonds on a parity with all Bonds issued pursuant to the General Ordinance outstanding on the date hereof. Additional Bonds and certain other obligations of the Issuer ranking on a parity with the 2013 Bonds may be issued under the conditions set forth in the Ordinance.
- 5. Under existing laws, regulations, rulings and judicial decisions, interest on the 2013 Bonds is not includable in gross income for federal income tax purposes. Interest on the 2013 Bonds does not constitute an item of tax preference for purposes of the alternative minimum tax imposed on individuals and corporations by the Code. The opinions set forth in this paragraph are subject to continuing compliance by the Issuer with covenants regarding federal tax law contained in the Ordinance and the Tax Certificate. Failure to comply with such covenants could cause interest on the 2013 Bonds to be included in gross income retroactive to the date of issue of the 2013 Bonds. Although we are of the opinion that interest on the 2013 Bonds is excluded from gross income for federal income tax purposes, the accrual or receipt of interest on the 2013 Bonds may otherwise affect the federal income tax liability of the recipient. The extent of these other tax consequences will depend upon the recipient's particular tax status and other items of income or deduction. We express no opinion regarding any such consequences.
- 6. Under existing laws, regulations and judicial decisions, interest on the 2013 Bonds is exempt from all present Nebraska state income taxes as long as it is exempt for purposes of the federal income tax.

We express no opinion regarding the accuracy, completeness or sufficiency of the Official Statement or other offering material relating to the 2013 Bonds (except to the extent, if any, stated in the Official Statement). Further, we express no opinion regarding the perfection or priority of the lien on revenues or other funds pledged under the Ordinance or tax consequences arising with respect to the Bonds other than as expressly set forth in this opinion.

June 20, 2013 Page 3

The obligations of the Issuer contained in the 2013 Bonds and the Ordinance, and the enforceability thereof, are subject to general principles of equity which may permit the exercise of judicial discretion, the reasonable exercise in the future by the State of Nebraska and its governmental bodies of the police power inherent in the sovereignty of the State, applicable bankruptcy, insolvency, moratorium or similar laws relating to or affecting creditors' rights generally and the exercise by the United States of America of the powers delegated to it by the Constitution of the United States of America.

The scope of our engagement has not extended beyond the examinations and the rendering of the opinions expressed herein. This letter is issued to and for the sole benefit of the above addressees and is issued for the sole purpose of the transaction specifically referred to herein. No person other than the above addressees may rely upon this letter without our express prior written consent. This letter may not be utilized by you for any other purpose whatsoever and may not be quoted by you without our express prior written consent. We have not assumed any responsibility with respect to the creditworthiness of the security for the 2013 Bonds, and our engagement as bond counsel with respect to the transaction referred to herein terminates upon the date of this letter. We assume no obligation to review or supplement this letter subsequent to its date, whether by reason of a change in the current laws, by legislative or regulatory action, by judicial decision or for any other reason.

Very truly yours,
